2nd Mate/Engineer, Schooner Bowdoin – A 3 month appointment with an anticipated start of May 1-August 1, 2016. Qualified applicants must have a minimum of a 100 Ton Near Coastal Mate License with Auxiliary Sail endorsement. Traditional vessel sailing and maintenance experience preferred. A valid US passport and passing a pre-employment drug test are required for this position. Familiarity with basic machinery and ship system operations and maintenance preferred. This is a stipend position. The 2nd mate will assist with outfitting the vessel during May. June and July the vessel engages in day sails and sail training voyages between Southern New England and Canadian Maritimes. The 2nd mate will be in charge of a navigational watch and shall oversee the daily operation of machinery and engineering tasks. A successful candidate must be able to enter Canada and have no prior convictions that deem them “inadmissible” under Canadian law.
