What does the option entail?						
Confidential reporting means that you engage with MMA's counseling services to discuss your options and to begin the healing process. Our counselor must report to the Title IX Coordinator that 1. there is a case, 2. whether both parties are MMA students and 3. where the sexual assault occurred but they share no names or details. This is necessary to determine if the assault meets the criteria to be reported in MMA's Clery crime statistics. If you wish to engage with a service that is not connected to MMA, you may contact AMHC at 1-800-871-7741.	A SAFE (Sexual Assault Forensic Examiner) Nurse will perform a specific exam to collect evidence that is stored and can be used in a criminal case. You may request that the evidence be saved with a number rather than your name. The exam is free. To initiate this process, contact a local hospital and ask for A SAFE examination.	Supportive measures restore or preserve equal access to education, protect your safety and deter further incidents. These individualized services may include academic accommodations, residence hall moves, counseling, no-contact orders, class schedule changes or other measures reasonably available.	The informal resolution (IR) process is a voluntary, structured interaction between involved parties (complainant and respondent) to resolve the allegations following the filing of a formal complaint and prior to a formal hearing on the allegations. The informal resolution process is intended to be flexible while also providing for a full range of possible outcomes. The IR will not require the parties to confront each other or even be present in the same room. The Title IX Coordinator is the sole administrator who determines if an informal resolution is appropriate given the allegations.	The complaint will be investigated by MMA's Title IX investigator. The alleged perpetrator will be informed of the charge against them. All parties including any witnesses will be interviewed. Following the completed investigation, a hearing will be held to determine responsibility and, if responsible, sanctions. Both parties have the opportunity, and are encouraged, to have an advisor. The advisor may be an attorney.	If you wish to file a complaint with local authorities, you can call them directly. If you would like assistance with contacting or support while you file your report, the Title IX Coordinator can provide an advocate who can support you through this process.	Submit an anonymous report to the Title IX Coordinator through the form on the website . While no action can be taken as the report is anonymous, the report provides critical information to the Academy regarding the frequency of assaults or assaults and could be used as evidence of predation if the perpetrator is identified in other assaults.
