

**MAINE MARITIME ACADEMY
POSITION DESCRIPTION
STAFF POSITION**

Ship's Physician, *Summer Training Cruise*

POSITION OVERVIEW

The ship's physician is responsible for the basic, emergency and primary care medical treatment of the crew and students while underway onboard the Training Ship, State of Maine (TSSOM). The physician directly supervises the ship's nurse.

DUTIES

- Provides onboard medical care and treatment for the crew and students
- Oversees the functioning of the medical center and supervises the nursing staff.
- Responsibilities include providing patient care both in the ships medical center and on-site emergencies as the situation dictates onboard.
- Complies with maritime and ship rules, regulations, and procedures.

The statements above reflect the general details considered necessary to describe the principal functions of the job as identified, and shall not be considered as a detailed description of all work requirements that may be inherent in the position.

SKILLS

- Knowledge of and familiarity with all shipboard medical equipment.
- Able to operate and maintain medical equipment.
- Some experience or willingness to learn simple laboratory and x-ray procedures.
- Evidence of a positive mental attitude and an ability to work with people of different nationalities in a close intense environment, while providing effective leadership.
- Experience and knowledge of the indications and contra-indications of fibrinolytic therapy and care of the patient before and after administration.
- Excellent physical health and evidence of a positive mental attitude, and an ability to work with people in a closed, intense environment, while providing effective leadership.
- Ability to treat and stabilize critically ill or injured patients, including but not limited to: central line placement, chest tube placement, intubation, trach placement, suturing, reduction of dislocated hips or shoulders, EKG, lab and x-ray interpretation.
- Ability to efficiently conduct busy outpatient clinic and document appropriately and completely.
- Ability to function with some autonomy in dispensing medications, doing procedures, and providing appropriate patient teaching.
- Ability to perform CPR.
- Commitment to service.
- Collaborative and cooperative approach to leadership and management.
- Managerial, organizational, analytic, and problem solving skills.
- Ability to facilitate productive meetings and work successfully in a team-oriented environment.
- Ability to exercise sound judgment in complex situations.
- Ability to maintain composure in stressful situations.
