

Assistant Professor of Physics

The Arts and Sciences Department at Maine Maritime Academy invites applications for an Assistant Professor of Physics. Candidates must have a Ph.D. degree in physics. The successful candidate will enthusiastically embrace working with undergraduates in classroom and laboratory settings. Teaching expectations include undergraduate introductory physics courses (algebra- and calculus-based) and labs, and occasional electives and introductory mathematics or introductory computer programming courses. Advising undergraduates, engaging in scholarship, and service to a collegial department are expected. Candidates from all areas of physics with a commitment to teaching-excellence in undergraduate education are encouraged to apply.

Applicants must submit:

- a cover letter,
- a statement of your teaching philosophy,
- a current curriculum vitae,
- the names and contact information (mailing address, phone number, and email address) for three professional references, and
- official college transcripts
- a completed online application.

This is a full-time, permanent position at the Assistant Professor rank, beginning August 2023. Maine Maritime Academy values diversity and is committed to equal opportunity in employment.

Maine Maritime Academy is a small institution with an enrollment of approximately 900 students and provides training in maritime transportation, maritime engineering, power engineering, international business and logistics, and marine sciences. The Academy is situated in the historic and picturesque coastal town of Castine in the Penobscot Bay region of Maine. Screening of applicants will begin as soon as possible and will continue until the position is filled.
