Shoulder boards (upper classes only)		1 set
Caps:	Dress/HP w/white cover	1
Cap covers:	White	1
Devices:	Dress/HP cap	1

THE ABOVE ARE MINIMUMS ONLY. You may bring more if you desire. Ensure you bring enough civilian attire for the different climates you may encounter while on cruise.

RECOMMENDATIONS:

1. **A laptop computer is a requirement for cruise!** You may also bring a printer to share with your roommate(s). Ensure you bring enough printer ink/toner – you will NOT be able to procure these materials while on cruise! **DO BRING ALL SOFTWARE** CDs for your laptop in case they are needed by IT during cruise to fix any issues with your laptop. However, do not bring any surge protector or power strips as they are fire hazards aboard ship. One shipboard approved power strip will be provided per stateroom and available in freshman berthing spaces.
2. Bring plenty of batteries for your camera. The type of battery you use may not be available in certain ports – and if they are available, may be very expensive.
3. US Stamps will be used to mail from US ports only. The ship's post office (yeomen) will not be selling stamps.
4. Bring enough extra batteries for your radio, CD, MP3 or other handheld media device, watch, clock, flashlight, etc. Special batteries may not be available in the ship's store and in some cases not available in the different cruise ports.
5. Individuals wearing glasses should bring TWO PAIRS in case one pair is lost or broken. Those wearing contact lenses should either bring an extra pair of contacts or a pair of glasses, which

may be used if the contacts are lost, misplaced, etc., and extra solution for contact lenses. Those requiring glasses or contacts should also bring their prescriptions so a new pair can be made for them in port if necessary.

6. **MEDICATION** – ENSURE that if you are on any special medication that you notify the Ship’s doctor and/or nurse, immediately, as soon as cruise begins. Bring prescribed medications with you as necessary but ensure that the medical department is aware of what you have on board. Medication that needs to be refrigerated may be stored in the ship’s medical department. Refrigerators are NOT authorized for student staterooms. Midshipmen requiring refrigerator storage for medication must make arrangements with the ship’s medical department.
7. There is a large video/book lending library aboard for everyone’s use. Bring headphones or earbuds when using your computer to watch videos. Don’t disturb your roommates’ sleep.
8. **BRING YOUR MEDICAL INSURANCE CARD**. This will be used as the primary payment for any injuries/illnesses that may occur while on cruise and/or in port.
9. Calling cards are recommended for use when in port. Check with carriers ahead of time to determine the best option for international calling. Satellite phone cards are available for purchase in the ship’s store for use at sea.
10. If you are bringing cash on cruise, be sure to bring a padlock or lockable container to keep your valuables secure.

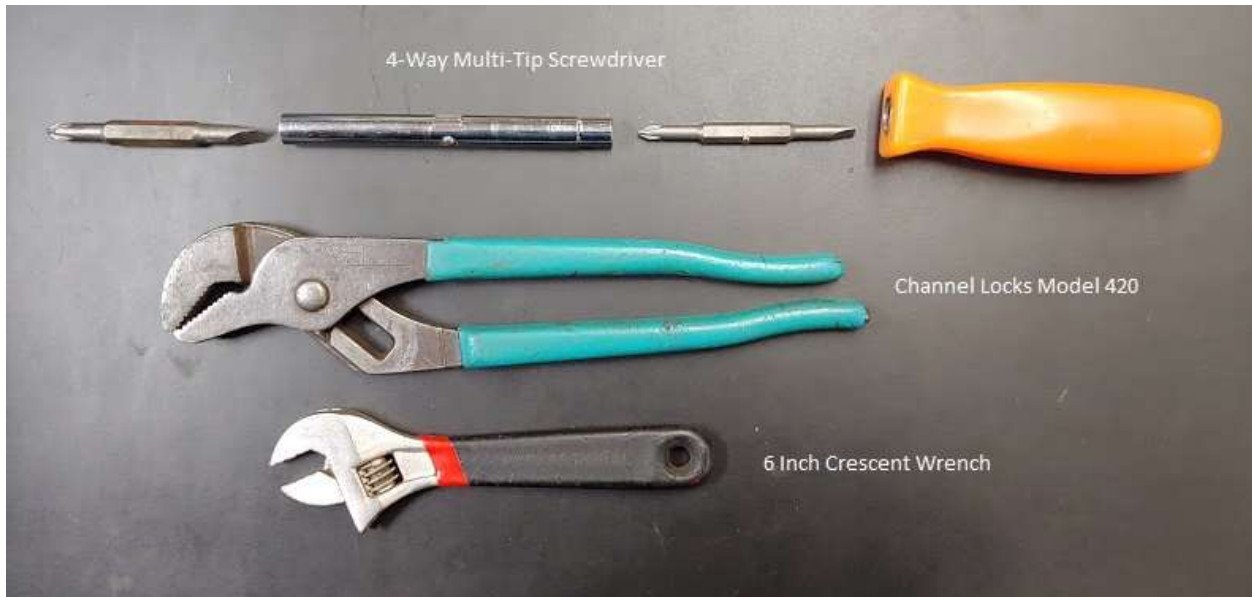

NOTE: The Academy/Ship is not liable for any damage, lost, stolen or broken goods, equipment, property, or laundry. This includes laundry done by the ship’s laundry as well as laundry done by individuals using the laundry facilities on the ship.

TOOLS

- Tools - <https://mainemaritime.edu/tssom-training-cruise-blog/tools/>

Personal Tools and Safety Gear

Personal tools required for shipboard maintenance:

4-Way Multi-Tip Screwdriver, Channel Locks Model 420, 6 Inch Crescent Wrench

FLASHLIGHT: Practical size that fits in your pocket and bright/beamed enough to illuminate bilge recesses. Should be OSHA Approved and Explosion Proof.

ADDITIONAL SAFETY GEAR YOU MUST BRING/PROVIDE:

1. Safety Glasses
2. Steel Toed Boots (composite toe protection acceptable)

3. Outer Wear appropriate for season (you may be assigned to work outside or in non-climate controlled spaces). Dress in layers.
4. Muff type hearing protection
5. Reusable ear plugs (several sets)
6. Leather work gloves
7. Knife
8. No. 2 pencils (No. 2 mechanical is okay)
9. Black ink pens

All clothing is to be tucked in and buttoned up as applicable. Loose clothing and/or hair presents significant risk in getting caught in doors, exposed mechanisms, and rotating machinery.

Always carry a pocket knife.

ACADEMIC RESOURCES & SUPPLIES for CD 303

To support your academic endeavors during cruise on the TTSOM, you should have the following books, texts, PDFs and equipment in your kit. Items are available in the MMA bookstore for purchase or downloadable at the links below.
