

- Marine Science
- Power Engineering Operations
- Power Engineering Technology
- Small Vessel Operations

³ These majors may lead to a U.S. Coast Guard unlimited license and require participation in the Regiment of Midshipmen. See the catalog section entitled [Student Life](#) for information on the Regiment.

⁴ This major requires first year students to participate in the Regiment and the first-year cruise.

Master of Science

- Global Supply Chain Logistics
- Maritime Management

The Campus

MAINE MARITIME ACADEMY's 35-acre, 17-building campus occupies the tip of a peninsula at the head of majestic Penobscot Bay, close to [Acadia National Park](#), Deer Isle, and other notable Maine attractions.

Settled in 1613 and named for the French nobleman and trader, Baron de St. Castin, [Castine](#) is rich in history, natural beauty, and maritime tradition. Castine is a small coastal village of 7.9 square miles, yet it is only 38 miles south of Bangor, the state's third largest city and the site of an [international airport](#). The year-round population of Castine of roughly 1,300 includes 850 college students attending Maine Maritime Academy. With summer residents, and visitors by land and sea, the population at least doubles from Memorial Day to Labor Day.

Specialized laboratories -- including state-of-the-art simulators -- bring lessons of the classroom to life. Advanced teaching facilities include research vessels, marine science labs, power plant and navigation simulators, a 1,200 hp diesel engine, a liquid cargo system simulator, wet lab, multi-media lecture halls, and classrooms with wireless access for laptop computing.

There is no substitute for the practical experience students gain in cooperative education programs. Whether at the helm or in the engine room of the Academy's 500-foot training ship [State of Maine](#), in laboratory or industrial settings, students experience the world of work as part of the MMA program. Each spring the training vessel sails on a two-month cruise to domestic and foreign ports, as first- and third-year students enrolled in unlimited U.S. Coast Guard license programs apply what they have learned on campus. Sophomores are assigned to merchant ships in the Cadet Shipping Program for a minimum of 60 days for engine students and 90 days for deck students. Students in other majors also benefit from summer co-op experiences in Maine and other states, and from science and technical internships aboard research vessels and on land.

The college fleet of nearly 60 vessels also includes the tug [Pentagoet](#) used in the only on-campus tug and barge program in the nation. The research vessel [Friendship](#), equipped with side-scan sonar, a remotely operated vehicle, and a wide array of modern oceanographic instrumentation, serves the Marine Science program. The schooner [Bowdoin](#), a National Historic Landmark and Maine's Official Sailing Vessel, has taken MMA students on voyages as far north as Labrador and Greenland. Dozens of small sailboats, including Lasers, Mercuries, and 420s, for racing or recreational use, fill the Academy waterfront.

[Nutting Memorial Library](#) holds more than 72,000 titles and 2,200 videocassettes, DVDs and sound recordings. The library, in Platz Hall, subscribes to more than 325 domestic and international periodicals, and has access to thousands more online. It also serves as a selective depository for U.S. government documents and for charts and maps of the National Ocean Survey and the National Geospatial Intelligence Agency.

The Harold Alfond Student Center houses dining facilities and dining services and conferences offices, Dean of Student Services, and public affairs offices, conference rooms, graduate and undergraduate classrooms, the Waypoint Snack Bar, the campus post office, a multi-media lecture hall, and the Writing Center.

Dismukes Hall houses the Registrar, classrooms, the Kennaday Planetarium, and laboratories for science, writing, and mathematics.

Leavitt Hall houses administrative and faculty offices, network services offices, the continuing education department, Delano Auditorium, conference rooms, and guest rooms.

Capt. Quick Alumni Hall contains the alumni affairs, career services, and cooperative education offices.

Pilot House is the center for the Loeb-Sullivan School of International Business and Logistics and its administration.

Margaret Chase Smith Building houses a gymnasium, locker rooms, and offices for coaches.

Oakey Logan Alexander Physical Education Center contains a fieldhouse with basketball, tennis, and volleyball courts, a climbing wall, the Cary W. Bok Swimming Pool, racquetball and handball courts, fitness and weight training equipment, the facilities and purchasing office, and workshops.

Harold Alfond Athletic Complex consists of athletic and recreational facilities, including Ritchie Field with its all-weather in-filled synthetic turf.

The Bath Iron Works Center for Advanced Technology contains a navigation and shiphandling simulator, CAD lab and

power plant simulator, small-scale operating steam plant, an electrical power lab, and a multi-media lecture hall for humanities instruction.

Rodgers Hall houses classrooms, the machine shop, and engineering laboratories, as well as classrooms and laboratories serving the Corning School of Ocean Studies.

Andrews Hall features a flow through seawater system and aquaria for biological research, and engineering and marine transportation lab space.

Payson Hall includes classrooms, engineering laboratories, and boat repair and maintenance facilities.

The Robert S. Walker Admissions and Financial Aid Center contains the admissions and financial aid offices.

The Commons provides apartments for upper level undergraduate students.

Curtis Residence Hall is the major residential complex on campus and includes a bookstore, security offices, residential life office, Commandant's offices, student health services, student lounge and recreational area, and student government and activities offices.

Dirigo House provides offices for the Corning School of Ocean Studies and other faculty.

Student Life

MAINE MARITIME ACADEMY is committed to the belief that learning takes place both in and out of the classroom. Accordingly, the college is structured to maximize the potential for such learning.

Maine Maritime Academy has an average student population on its Castine campus of 850 full-time undergraduate students and 10 – 15 graduate students in residence. In addition to these students, approximately 100 students are enrolled in the A.S. degree program at Bath Iron Works.

A special feature of student life at Maine Maritime is the mix of students who live a traditional college lifestyle and those who participate in the Regiment of Midshipmen. Although students who become midshipmen wear military-style uniforms, Maine Maritime is not a military academy, and there is no military obligation after graduation. Traditional and regimented students live in the same residence hall, attend many of the same classes, and are eligible to participate in all campus clubs, activities, and athletics.

Students often participate in the [Castine](#) community. MMA students have opportunities to volunteer for the local fire department, rescue squad, Big Brothers, Big Sisters, the Adams (Elementary) School, and daycare. The local churches, clubs, and historical society welcome students and provide an opportunity to become a part of a small but vibrant community. Bangor and Ellsworth, both about 55 minutes away by automobile, are the closest cities. [Acadia National Park](#) is just over an hour's drive away, and ski areas are two hours distant.

The Regiment of Midshipmen

All candidates for a U.S. Coast Guard unlimited license as a Third Mate or Third Assistant Engineer are required to be members of the Regiment of Midshipmen. The majors leading to an unlimited license, and thus requiring regimental participation, are Marine Transportation Operations, Marine Systems Engineering (License Track), Marine Engineering Technology, and Marine Engineering Operations. Marine Systems Engineering (Non-License Track) requires first-year students to participate in the Regiment, including the first-year cruise. For all other majors, membership in the Regiment is an optional but valuable experience that can help students to build job-related skills regardless of career path.

Although modeled after Navy and Coast Guard traditions, the purpose of the Regiment is not to produce military officers, but to provide leadership and management training for students desiring careers in the U.S. Merchant Marine and in science, engineering, and business. The Regiment does this by providing a structured training environment where students develop time management skills and self-confidence, enhance their personal value system, and are instilled with the Regiment's core values of honor, loyalty, and devotion to duty. Applicants for a U.S. Coast Guard unlimited license must meet the requirements governing physical condition, citizenship, and prior preparation, as outlined in the [Admissions](#) section.

The Regiment is a leadership program with a disciplined lifestyle designed to positively affect all aspects of a student's life at Maine Maritime Academy. Members wear military style uniforms, learn professional courtesies, and become familiar with shipboard life within a few days of reporting for first-year orientation. This rigorous lifestyle is challenging and rewarding; in particular, while learning how to follow in order to better lead, the student makes new lifelong friends. Over the four years, midshipmen are given more and more responsibility until, as seniors, they become the regimental leadership.

During the academic year, studies receive first priority. Midshipmen have ample time for personal study and research, as well as time to engage in recreational activities, such as [varsity sports](#), after class. Weekends are usually free, unless the student is assigned to a watch or a maintenance responsibility aboard the training ship. Immediately following the first- and third-year spring terms, midshipmen in the license programs participate in a 60-day [training cruise](#)* aboard the training ship, [State of Maine](#). These are exciting times as the students cruise the Caribbean or European waters, making several ports of call while receiving hands-on training in all aspects of ship operation. During the summer following the sophomore year, midshipmen in these programs are assigned to [merchant vessels as cadets](#)* to further familiarize them with shipboard procedures.

*Students not in good academic standing (Academic Probation or Warning status) may be required to delay their assignments to the freshmen or junior cruises aboard the *T.S. State of Maine*, or as cadets aboard merchant vessels, until they are in good academic standing.

Extracurricular Activities

Many campus events take place throughout the year, including films, lectures, concerts, and plays, providing a full range of cultural involvement for the entire community. More than 30 organizations operate on campus, under the jurisdiction of Student

Government. Some of these groups include:

- Activities and Bands Committee (ABC)
- Alpha Phi Omega (co-ed community service fraternity)
- American Society of Mechanical Engineers (ASME)
- Band
- Drama Club
- Drill Team
- Outdoor Adventure Club
- Propeller Club of the United States
- Rugby Club
- Schooner Crew
- Society of Naval Architects and Marine Engineers (SNAME)
- Student Environmental Activists (SEA)
- Students in Free Enterprise (SIFE)
- Students Living in Christ Everyday (SLICE)
- Weightlifting Club

Student Housing

MMA has a residency requirement. All undergraduate students at MMA are required to live on campus with certain exceptions. Students who are married, have lived on campus for six semesters or more, are 22 years of age or older by the end of the corresponding calendar year, or are military veterans with two years of service and an honorable discharge, are eligible to apply to live off campus. Exceptions to this residential policy require the approval of the Dean of Student Services. Housing in and around Castine is limited.

Students provide their own telephone, computer, pillows, towels, and linen. Card-operated washers and dryers are available on each floor of the Curtis Hall residence complex. Residents are expected to have their own insurance (see section on Personal Property). Deductions from a deposit are made for damages beyond normal wear and tear, if deemed appropriate. See the catalog section entitled "[Affording MMA](#)" for more information regarding security deposits.

Non-degree students are not normally eligible to live on-campus unless enrolled in at least twelve credit hours of study.

Student Health

Student Health Services on the MMA campus is located in Curtis Hall (207-326-2295, or ext. 295). A registered nurse is on campus Monday through Friday from 7:00 a.m. to 3:00 p.m. The Academy physician is available to see students between 6:45 a.m. and 7:45 a.m. from Monday to Friday. There is no fee for students to see the doctor or the nurse in Health Services. A fee may be charged to the student account for some supplies and medications that are provided to the student. After hours and on weekends, emergency care can be initiated by calling the MMA Security Office (207-326-2479, or ext. 479). Ambulance service is available and healthcare providers are located in emergency rooms in local hospitals. During the training cruise, a physician and nurse are aboard the ship.

All students are required to show proof of medical insurance coverage upon admission to the college, and each subsequent fall. Students must maintain insurance coverage throughout their stay at MMA and are responsible for informing the college of any changes in coverage. Students who are not covered by family medical insurance will be required to purchase the Academy's medical insurance (see section on [Affording MMA](#)).

Maine Maritime Academy requires that all students be immunized in accordance with 20-A MRSA Chapt. 223 Sub. Chapt. 2 § 6359. This Maine law states that any person born after 1956 who attends school full time or who is a candidate for a degree, diploma, or graduate certificate must be immunized against the following diseases:

- Diphtheria/pertussis/tetanus (five doses)
- Adult tetanus/diphtheria booster within the last ten years
- Measles, mumps, rubella (MMR), 2 doses, one after 12 months of age and a second dose at least 1 month later
- Poliomyelitis (4 doses of OPV with the first one being six weeks after birth or 4 doses of IPV administered the same.)
- Varicella (chicken pox), 1 dose for all children entering kindergarten or documented history of the disease.

In addition to the above State requirements, Maine Maritime Academy also requires entering students to have proof of the following immunizations and tests:

- Hepatitis A (one shot with a booster in six months)
- Hepatitis B (one shot with a booster in one month and a second booster in five months)
- Meningitis
- Mantoux test for tuberculosis (PPD) within the last year

Students may also provide copies of laboratory evidence of immunity (titers) to satisfy their immunization requirements for MMR, Hep A, Hep B and varicella. A student is exempt from immunizations if he/she has documentation from a physician that immunization against one or more diseases is medically inadvisable, or the student/guardian states in writing an opposition to immunization because of a sincere religious belief or philosophical reason. Students who choose one of these exemptions and do not provide proof of immunity will be excluded from taking classes or participating in activities during the danger period (15-23 days) if an outbreak of one of the above infectious diseases occurs.

To demonstrate adequate immunization against each disease, a student must present a certificate of immunization from the physician, nurse, public health official, or school provider who administered the immunization. The proof must specify the immunizing agent and the date it was administered. School health records are usually accepted to meet these requirements. A letter from a doctor is not acceptable. If immunization cannot be determined, re-immunization is required.

Before a student can register at MMA, he or she must have a physical exam on file on MMA's physical exam form. The student's personal healthcare provider can perform the exam.

The Academy Counselor (207-326-2419, or ext. 419) provides professional personal counseling for students and serves as the Substance Abuse Prevention Education Coordinator. Prevention Education involves teaching students healthy lifestyle skills with the aim that these skills become habits. Other topics covered include personal responsibility, legal consequences, and social awareness. Services of the Academy Counselor are provided free of charge to students.

Disabled Students

Special facilities and services available to students with disabilities are limited. The campus is not barrier free. Nevertheless, the Academy seeks to comply with relevant provisions of Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and the ADA Amendments Act of 2008. Students who have concerns regarding accommodations should contact the Office of the Associate Academic Dean. Individuals who are not MMA students should contact the Office of the Director of Human Resources Management with concerns regarding this legislation.

Orientation and Regimental Training Program

Prior to the start of classes, all new students to MMA are required to attend an orientation session, a program designed to familiarize students with the facilities, programs, and organization of the college and to ease the transition into college life. For members of the Regiment the program includes a period of training in the traditions of the Academy, as a preparation for the rigorous life of a midshipman.

Naval Service Commissioning Programs

Naval Reserve Officers Training Corps

The Naval Reserve Officers Training Corps (NROTC) program is designed to train and educate highly qualified students for commissioning and active service as unrestricted line officers in the U.S. Navy and the U.S. Marine Corps. To be eligible for this program, a student must:

1. Be a U.S. citizen
2. Be at least 17, but less than 27 years of age at graduation
3. Be physically qualified
4. Possess satisfactory records of academic ability and moral integrity
5. Demonstrate those characteristics desired of a Naval Officer
6. Have no moral reservation or personal convictions that prevents the bearing of arms

The NROTC Scholarship Program offers the following benefits: all tuition and fees paid, a book allowance (\$375 per semester), a uniform allowance, and a per month subsistence allowance during the school year, (Freshman: \$250; Sophomore: \$300; Junior: \$350; Senior: \$400). Additionally, National Scholarship winners who attend Maine Maritime Academy are provided free room and board or a stipend of \$1,000 per semester in lieu of room and board if not residing in the campus dormitory. Scholarship Program graduates receive commissions in the Navy or Marine Corps and are required to serve on active duty for a minimum of four years. High school students may apply for the NROTC National Scholarship Program anytime between the spring semester of their junior year and the fall semester of their senior year. Because the total number of scholarships given varies each academic year, early application is strongly recommended for this highly competitive program.

The NROTC College Program offers students who are not on scholarship the opportunity to participate in the NROTC and earn their commission as a Naval or Marine Corps Officer. Benefits include a uniform allowance, \$350 per month subsistence allowance during the junior year, and \$400 per month subsistence allowance during the senior year. Graduates of the NROTC College Program receive commissions and are required to serve on active duty for a minimum of three years. Students may apply for the NROTC College Program anytime during their first year through the end of their sophomore year.

Scholarships are also available to qualified students who join the NROTC unit after they arrive on campus. The NROTC Unit Professor of Naval Science makes nominations for these scholarships after a student has been in the NROTC College Program for at least one semester. Selection is based on academic performance, aptitude for Naval service, and the recommendation of the Professor of Naval Science.

For more information about the NROTC National Scholarship or College Programs, contact your local Navy Recruiting Office. Further information on NROTC programs and application forms can also be obtained at <https://www.nrotc.navy.mil> or by calling 1-800-NAV-ROTC.

For information about the NROTC Program at Maine Maritime Academy, contact Commanding Officer, NROTC Unit, Maine Maritime Academy, P.O. Box 137, Castine, ME 04421-0137, (207) 326-2352, or email donald.probert@mma.edu. Also, visit the MMA NROTC home page at <http://nrotc.mma.edu>.

Merchant Marine Reserve

The Merchant Marine Reserve (MMR) Program is designed to train and educate highly qualified students for commissioning and reserve duty service as officers in the Merchant Marine Reserve component of the U.S. Navy Reserve (USNR). To be eligible for this program, a student must:

1. Be a U.S. citizen
2. Be at least 17, but less than 25 years of age (upon enrollment at MMA)
3. Be physically qualified
4. Possess satisfactory records of academic ability and moral integrity
5. Demonstrate those characteristics desired of a Naval Officer
6. Have no moral reservation or personal conviction that prevents the bearing of arms
7. Be enrolled in a Bachelor of Science Degree Program leading to a U.S. Coast Guard Unlimited License

Students who meet the qualifications above may apply for Midshipman status in the MMR Program and participate in the U.S. Maritime Administration's Student Incentive Payment (SIP) Program. If selected, an incentive payment of \$8000 per academic year

is provided for up to a maximum of four years. The SIP Program requires students to obtain a Coast Guard Unlimited License and to apply for, and accept if offered, a Reserve officer commission in the U.S. Armed Forces. A student who receives SIP incurs an obligation to serve as an employee in the maritime or maritime-related industry, and in times of national emergency, to serve as a Naval Officer aboard a U.S.-flagged vessel.

The MMR, USNR, and SIP application, selection and program requirements are as follows:

First year

1. Apply for the SIP Program and Midshipman status in the U.S. Navy Reserve
2. Preliminary selections are made after the fall semester based on academic record and aptitude
3. Complete a physical examination to verify eligibility
4. Final selections are made after completion of the first year cruise

Sophomore year

1. At the start of the sophomore year, students must agree in writing to apply for, and accept if offered, a Reserve officer's commission
2. Incentive Payments begin with a retroactive payment for the first year
3. Complete Nv-212 (Naval Science for the Merchant Marine Reservist I)
4. Pass Navy physical fitness assessment and swim qualification

Junior year

1. Complete Nv-222 (Naval Science for the Merchant Marine Officer)
2. Pass Navy physical fitness assessment and swim qualification

Senior year

1. Complete all processing and apply for a commission
2. Pass the U.S. Coast Guard Unlimited License examination
3. Complete Nv-402 (Leadership and Ethics) and Nv-442 (Naval Science for the Merchant Marine Reservist II)
4. Be commissioned at graduation as an Ensign in the MMR, USNR
5. If desired, request to be commissioned at graduation as an Ensign in the regular Navy and serve on active duty for a minimum of three years (subject to approval)
6. Pass Navy physical fitness assessment and swim qualification

After graduation/commissioning (minimum obligation)

1. Complete a minimum of two weeks of active duty each year for a total of six years
2. Sail on one's Coast Guard License for at least four months every two years, or be employed in a maritime-related job*, for a total of six years
3. Remain in the Inactive Reserve (with no other obligations) for an additional two years

*The U.S. Maritime Administration believes that employment in a shore-based power plant is substantially related to the marine engineering profession and therefore qualifies as acceptable employment to satisfy one's minimum obligation.

For information about the MMR, USNR, and SIP Programs at Maine Maritime Academy, contact Commanding Officer, NROTC Unit, Maine Maritime Academy, P.O. Box 137, Castine, ME 04421-0137, (207) 326-2352, or email donald.probert@mma.edu.

For more information about the Merchant Marine Reserve, U.S. Navy Reserve Program, contact the MMR Program Office at Naval Reserve Forces Command, MMR Program Office, 4400 Dauphine St., New Orleans, LA 70146-5100, 1-800-535-2580.

Admissions

MAINE MARITIME ACADEMY seeks academically qualified and motivated students interested in earning a bachelor's degree in Marine Engineering Operations, Marine Engineering Technology, Marine Systems Engineering, Marine Transportation, Small Vessel Operations, Power Engineering Operations, Power Engineering Technology, Marine Science, Marine Biology, International Business and Logistics, Interdisciplinary Studies; or an associate's degree in Small Craft Design, Small Vessel Systems, or Small Vessel Operations. Applicants shall demonstrate ability and potential through their academic transcripts, extracurricular activities or work recommendations, and standardized tests.

The Academy offers Early Decision on admission and financial aid for applicants who have completed the application process by December 20. This applies only to students entering in the fall semester. Early Decision candidates must sign a statement indicating that MMA is the only college to which they are applying for Early Decision, and that if accepted, they will enroll.

All other applications are reviewed by the Admissions Committee beginning in the late fall. Admissions decisions are made on a rolling basis. Applicants are encouraged to apply as early as possible, as the entering class may be filled prior to the application deadline of May 30.

Applications may be obtained from the Director of Admissions, Maine Maritime Academy, Castine, ME 04420-5000, by calling 1-800-464-6565 in Maine or 1-800-227-8465 out-of-state or by e-mail at admissions@mma.edu. Visit the Admissions site at www.mainemaritime.edu to download an application or apply on-line. A non-refundable fee of \$15 is required when the application is mailed.

As early as possible after an application has been made, the following items must be forwarded to the Director of Admissions:

1. A secondary school transcript through the first marking period of the senior year.
2. A letter of recommendation from the principal or guidance counselor of the last secondary school attended.
3. Results of either the College Entrance Examination Board Scholastic Aptitude Test (SAT) or the American College Testing Program (ACT). Applicants taking the SAT or ACT after Fall 2004 are required to take the Writing portion of the respective exam. Prospective students who took the SAT or ACT prior to Spring 2005 are exempt from this requirement. These exams should be taken as early as possible in the senior year.

Minimum academic requirements for undergraduate admissions consideration include:

	English & Composition	College Prep Algebra I & II	College Prep Geometry	College Prep Senior Math*	Lab Biology, Chemistry, Physics	Foreign Language	Computer Science
International Business & Logistics	4	2	1	1	2	2 desired	1 desired
Interdisciplinary Studies	4	2	1	1	2	2 desired	1 desired
Marine Biology	4	2	1	1	2	2 desired	1 desired
Marine Engineering Operations	4	2	1	1	2		1 desired
Marine Engineering Technology	4	2	1	1	2 (Physics preferred)	2 desired	1 desired
Marine Science	4	2	1	1	2	2 desired	1 desired
Marine Systems Engineering	4	2	1	1**	2 (Physics preferred)	2 desired	1 desired
Marine Transportation Operations	4	2	1	1	2	2 desired	1 desired
Power Engineering Operations	4	2	1	1	2		1 desired
Power Engineering Technology	4	2	1	1	2 (Physics preferred)	2 desired	1 desired
Small Craft Design	4	2	1	1	2		1 desired

Small Vessel Systems	4	2	1	1	2		1 desired
Small Vessel Operation	4	2	1	1	2		1 desired

* Senior Math - trigonometry, advanced math, pre-calculus, or calculus.

** Marine Systems Engineering requires pre-calculus or calculus.

A prospective student is encouraged to apply even if he/she is missing one or more of the courses above, or didn't perform well in them academically. Contact the Admissions Office to discuss plans to acquire the necessary course(s). To meet admissions requirements, many MMA students (and graduates) have successfully completed the course(s) prior to enrollment through community colleges, adult education programs, tutorials, and/or correspondence courses. These provisional acceptances account for 15-20% of MMA's incoming classes.

Offer of Admission

All offers of admissions are extended with the understanding that records of academic achievement and personal conduct will remain at least at the same level as when the application for admission was reviewed. Maine Maritime Academy reserves the right to rescind any offer of admission if it is determined that subsequent academic performance and/or personal behavior are deemed substandard or unacceptable.

Fraudulent Reporting

Applicants must provide accurate and complete information on all application documents. Intentional omission or falsification of information during the application process will result in the immediate rejection of the application. Application misrepresentation includes, but is not limited to: (1) false, omitted, or misleading information on the application, medical or immunization forms, financial aid disclosures, or during the personal interview, (2) fake, forged, or altered transcripts, standardized test scores, or letters of recommendation.

Interview

A personal interview is highly recommended as part of the admissions process. The absence of an interview may, in fact, be a determining factor in the final decision. Admissions Office personnel are available by appointment for interviews and college tours Monday through Friday, from 9 a.m. to 4 p.m. Maine Maritime Academy reserves the right to solicit confidential opinions from secondary school officials concerning a student's potential for success at MMA, both in the classroom and in our unique social environment.

Interviews may be scheduled at various locations throughout the northeast during late fall and early winter, depending on the Admissions representative's travel schedule. Phone interviews are available, as well.

Visiting

Appointments to visit the college should be scheduled well in advance. With prior notice, the Admissions Office will provide on-campus overnight accommodations without charge for the applicant and his or her family. Call for further details.

[Open houses](#) are also scheduled at the Academy during the academic year. Information regarding these events may be obtained from the Academy's home page <http://www.mainemaritime.edu> or through the [Admissions Office](#).

Transfer Students

Transfer students will be considered for advanced standing on the quality of their credentials. Applicants must present an official transcript of work completed at accredited colleges or universities; only courses with grades of C or better will be considered for transfer. The amount of transfer credit awarded will depend on the application of the courses to MMA's curriculum and will be evaluated by the Admissions and Registrar's Offices.

Applicants for transfer should submit the following: an application for admission, a letter indicating interest in transfer, a non-refundable \$15 application fee, a certified transcript of all grades received at institutions of higher education, a letter of recommendation from the dean of students of the last institution attended, and a complete record of secondary school work, including the most recent SAT or ACT scores. Maine Maritime Academy reserves the right to solicit confidential opinions from school officials concerning a student's potential for success at MMA, both in the classroom and in our unique social environment.

Please note that it is usually not possible to satisfy the unique academic requirements of the bachelor of science program in less than three years at Maine Maritime Academy. Transfer students are urged to have an interview with the Director of Admissions. Visits or telephone interviews should be planned for weekdays.

Because of scheduling and prerequisite requirements, Maine Maritime Academy cannot guarantee transfer students that all courses will be available in the sequence desired for graduation in an accelerated (less than 4 years) program. Every effort will be made to accommodate transfer students, but first priority in scheduling courses will be for the standard 4 year BS degree. See the [Academic Policies](#) section for Priority for Course Registration.

For more information on transferring credits, see the [Degree Requirements](#) information in the Academic Program section.

International Applicants

In addition to completing the Maine Maritime Academy application, international students must have all non-U.S. diplomas, certificates, licenses, and transcripts evaluated by an approved clearinghouse. This clearinghouse verifies international transcripts for:

1. authenticity
2. grade and course equivalency
3. transfer credits awarded

Maine Maritime Academy recognizes the following evaluation service providers:

[Globe Language Services, Inc.](#)

Evaluation Service

319 Broadway

New York, NY 10007

phone: (800) 446-6228

fax: (212) 693-1489

- and -

[World Education Service](#)

Bowling Green Station

P.O. Box 5087

New York, NY 10274-5087

phone: (212) 966-6311

fax: (212) 739-6100

An application for evaluation is available through their respective on-line service. This service does require a fee. The fee varies depending on which service you choose and what type of evaluation you request. Maine Maritime Academy requests prospective international students do an undergraduate course-by-course breakdown of credits, a calculation of credit hours, and a verification of authenticity.

The Test of English as a Foreign Language (TOEFL)

[http://www.ets.org/portal/site/ets/menuitem.fab2360b1645a1de9b3a0779f1751509/?](http://www.ets.org/portal/site/ets/menuitem.fab2360b1645a1de9b3a0779f1751509/?vgnextoid=69c0197a484f4010VgnVCM10000022f95190RCRD)

[vgnextoid=69c0197a484f4010VgnVCM10000022f95190RCRD](http://www.ets.org/portal/site/ets/menuitem.fab2360b1645a1de9b3a0779f1751509/?vgnextoid=69c0197a484f4010VgnVCM10000022f95190RCRD) or International English Language Testing System (IELTS)

<http://www.ielts.org> is required of all international applicants whose native language is not English.

Minimum TOEFL score required for admissions consideration: 550 on the paper-based test (PBT), 215 on the computer-based test (CBT), or an 80 on the internet-based test (IBT).

In lieu of the TOEFL, a student may submit the IELTS. Only the academic format is acceptable and a minimum score of 6.5 is required.

The TOEFL/IELTS requirement may be waived if the applicant is currently enrolled in full-time studies in the United States and will have completed two academic years of coursework in the United States immediately prior to enrolling at Maine Maritime Academy.

The TOEFL/IELTS requirement is waived for non-native English-speaking applicants who have received an undergraduate or graduate degree from an institution where English is the language of instruction.

International applicants must certify that sufficient funding is available to cover MMA fees, books, supplies, tuition and living expenses for the entire duration of their enrollment. A letter of sponsorship or an officially certified or notarized bank statement must indicate that the candidate has sufficient funds to study at Maine Maritime Academy. Submit documentation of financial support to the Director of Admissions. Unfortunately, international students are ineligible for any form of federal financial assistance

while enrolled.

Advanced Placement and CLEP

The college grants credit for appropriate courses through the Advanced Placement Examination of the College Entrance Examination Board. Transfer credit may also be obtained through the College Level Examination Program (CLEP).

Certified Birth Certificates

Prior to arriving on campus, accepted candidates must submit a certified copy of their birth certificates with raised seal. This may be obtained from the town or city clerk of birthplace or from the respective state division of vital statistics.

Social Security Number

Maine Maritime Academy is committed to ensuring the privacy and confidentiality of student records and will not disclose the Social Security Number (SSN) for any purpose without the expressed written consent of the student, except as mandated by law.

Applicants are not required to include their Social Security Number on the application for admission but voluntary submission will minimize delays associated with other requested services within our campus administration. The number is used for (1) verifying student records, (2) identifying the student for purpose of financial aid eligibility, disbursement of financial aid loans, and other debts payable to the institution, (3) compliance with state and federal reporting requirements, (4) U.S. Coast Guard licensing, (5) background checks for security sensitive co-operatives, and (6) citizenship related documents.

Physical Examination

A physical examination is required for all applicants for admission. Medical forms are sent to the student upon receipt of an application for admission. The examination should be conducted by the applicant's family physician, and the completed medical forms returned by the physician to the Director of Admissions. These results will be reviewed initially by the College's physician. Applicants who are unable to satisfy these physical requirements may appeal to the Director of Admissions.

Immunization

Please refer to Student Health section in the [Student Life](#) chapter.

Personal Computing Requirement

All entering students are required to bring a [laptop computer](#). Prior to enrolling, students will be provided with information regarding the [specifications](#) for their computers and any purchase/lease plans that may be available.

Applicants for U. S. Coast Guard License

Applicants for the U.S. Coast Guard unlimited license program as a Third Mate or Third Assistant Engineer must meet the requirements governing physical condition, citizenship, and prior preparation. These requirements cannot be waived unless special permission is obtained from the appropriate federal office or agency.

Except by special condition, applicants desiring a US Coast Guard license must meet the following requirements:

1. A student must be a high school graduate or must have earned an equivalency certificate.
2. A student must be a citizen of the United States.
3. Applicants must meet the physical requirements established by the United States Coast Guard for an unrestricted license as a ship's officer. They are as follows:
 - Height:* no limitation prescribed
 - Weight:* proportional to height and age

Vision/Mate: For an original license as mate, the applicant must have correctable vision to at least 20/40 in each eye, and uncorrected vision of at least 20/200 in each eye. The color sense must be determined to be satisfactory when tested by any of the following methods:

- a. Pseudoisochromatic Plates (Dvorine, 2nd edition: AOC; revised edition or AOC-ERR; Ishihara 16-, 24-, or 38- plate editions)
- b. Eldridge-Green Color Perception Lantern
- c. Farnsworth Lantern

- d. Keystone Orthoscope
- e. Keystone Telebinocular
- f. SAMCTT (School of Aviation Medicine Color Threshold Tester)
- g. Titmus Optical Vision Tester
- h. Williams Lantern

Vision/Engineer: For an original license as engineer, the applicant must have correctable vision of at least 20/50 in each eye and uncorrected vision of at least 20/200 in each eye. Applicants need only to have the ability to distinguish the colors red, green, blue, and yellow. A waiver will be required for those students seeking a USCG license whose vision is between 20/200 and 20/800. Questions concerning the waiver process should be directed to the Academy's Director of Health Services at (207-326-2295, or ext. 295).

General Health: Applicants for the license programs must be free of any disease or constitutional defect that would compromise shipboard safety while at sea. Contact the Academy's [Student Health Services Office](#) for clarification of specific disorders that may disqualify a student from a license program.

Applicants who applied for an NROTC scholarship or for admission to a service academy may request the Department of Defense Medical Review Board to forward a copy of their complete physical examination report to Maine Maritime Academy. The student should advise the Maine Maritime Academy Admissions Office that a physical report will be forwarded. In rare cases, candidates accepted for NROTC scholarships may not be fully qualified for the maritime license program.

An applicant accepted into a USCG license program will be required to complete another physical examination on campus during his/her senior year prior to taking the USCG exam. Should this subsequent examination show physical deficiencies below the standards established for a license, the student may not be allowed to sit for the exam and may be required to change his or her major to a non-license program.

Drug Testing

All students enrolled in undergraduate degree programs at Maine Maritime Academy are required to participate in the random drug testing program. Maine Maritime Academy complies with Title 46 Code of Federal Regulations 16.230 mandating periodic, random, pre-employment, post-incident, and reasonable cause drug testing for all students and employees whose position require this testing. All students and employees, who act as part of the crew of any Academy vessel, both documented and undocumented, shall be subject to the policy. Federal law requires periodic or random drug testing of students prior to training cruises, cadet shipping, or taking of a US Coast Guard physical examination. Additionally, since drug testing and "zero-tolerance" policies have become a fact of life in the industries in which most of our students will be working, as co-op students and as employees, it is the Academy's policy that any student pursuing an Academy Cooperative Education Experience (COOP) must participate in the random and pre-employment drug testing program. Additionally, any students who are in a disciplinary status for any violation of our drug or drug testing policies may be subject to increased random drug testing.

Readmission Policy

All former students who have resigned, been disenrolled, or not been enrolled for two consecutive academic semesters, and who wish to apply for readmission, must submit an application for readmission and a non-refundable \$15 fee to the Director of Admissions. The application will be considered by the Academic Board sitting as a Board of Readmission. An application for readmission can be found at www.admissions.mainemaritime.edu.

Favorable consideration will be based upon evaluation of the reasons for previous separation, evidence of improved academic standing, improved conduct, and increased personal maturity. Admissions authorized by the Academic Board will be subject to space being available in the class and program for which admission is sought.

Students may be readmitted to the Academy at the start of the fall semester, the spring semester, annual training cruise, cadet shipping, or co-operative. An application for readmission must be completed by the following dates for consideration:

- Fall semester - July 1
- Spring semester - October 15
- Training cruise - March 1

The application must be accompanied by such additional information as required by the Director of Admissions to establish justification for favorable consideration. Applying for readmission requires:

1. a completed application for readmission and \$15 fee prior to the deadlines stated above;
2. a typed resume to include a description of what you have done during your absence.
Include: employment, schools attended, courses taken, and a statement for why you wish to return to MMA;

3. two (2) letters of recommendation from MMA faculty members and/or administrators;
4. a letter of recommendation from a recent employer;
5. an official transcript from each school attended since last enrolled at MMA;
6. written proof from the MMA chief financial officer stating that you are in satisfactory financial standing with the college.

Students seeking readmission will be required to personally appear before the Readmission Board at the time applications are reviewed. Once your application is complete, the Director of Admissions will contact you with specific arrangements concerning your interview with the board.

MMA will try to meet the returning students course selection requests. However, pre-registration by currently enrolled students may result in desired courses being at capacity. See the [Academic Policies](#) section for Priority for Course Registration.

- NOTE: All students must submit an updated physical examination as a criterion for readmission. Depending on how long you have been out of school, you may be required to have additional immunizations. Should you have additional questions regarding your immunizations, contact the Director of Health Services at 207-326-2295 or by e-mail at susan.mcdonald@mma.edu. You must satisfy all physical and immunization requirements prior to registration.

A \$100 deposit is required of all returning students to reserve their position in the class. Failure to notify the Director of Admissions by the appropriate date may result in loss of place.

In cases of a negative decision, applicants may submit a written appeal to the President within ten days of notification. The request should stipulate the basis for appeal.

Students who resign from the Marine Maritime Academy/Bath Iron Works Associate Degree programs may apply for readmittance to the program only by contacting the Director of Admissions at Maine Maritime Academy. The application must include a supporting endorsement from the Industry Site Director. A student who has continued to take Academy-administered courses as a requirement for participation in Bath Iron Works Corporation's apprentice training program may, upon readmission to the program, request recognition of grades received while in a disenrolled status. Retroactive recognition will be granted for courses completed in the year preceding the request.

Special Circumstances

- Former students who have received their undergraduate degrees at MMA and now wish to pursue a second undergraduate degree at MMA should apply using the readmission application. To be a candidate for a second undergraduate degree, a student must have the recommendation of the department chair of the major.
- Students seeking readmission who wish to change their majors may indicate the desired new major on the application for readmission. If approved, this procedure eliminates the need for the student to complete a Change of Major request after enrollment.
- Students who have attended other institutions of higher learning since their last enrollment at MMA must have an official transcript from each institution attended submitted directly to the Director of Admissions. These transcripts must be received and satisfactory performance must be indicated before approval for registration will be granted. Failure to report any schools attended will result in your application not being accepted. In cases where the courses are in progress and transcripts will not be available in time, a progress report from the course instructor(s) must be submitted. If readmitted, a student will not necessarily be awarded transfer credit work taken at another institution after dismissal from MMA.
- Co-op students on an official work term and also taking courses at MMA are not required to apply for readmission if they withdraw from all courses during the work term. Their enrollment status is retained as a co-op student at work.
- Students who have been dismissed as a consequence of disciplinary infractions may only be readmitted after a period of documented exemplary good conduct. Students who have been dismissed for academic failure will be considered only upon evidence of improved academic potential. As a matter of general policy, a student who has resigned rather than face a disciplinary hearing for an infraction of student regulations will not be considered for readmission.

Leave of Absence

Students may be granted a leave of absence (LOA) for financial or personal reasons not related to academic or disciplinary issues. A leave of absence for a specific period of time -- not to exceed one year -- will be granted by the Registrar upon the endorsement of the Vice President for Enrollment Management, Dean of Student Services, or the Vice President for Academic Affairs.

Requests to return from a Leave of Absence <http://admissions.mainemaritime.edu/readmitapp.php> can be made through the Director

of Admissions. Students may return to MMA at the start of the fall semester, the spring semester, annual training cruise, cadet shipping, or co-operative. The request to return must be completed by the following dates for consideration:

- Fall semester - July 1
- Spring semester - November 1
- Training cruise/Cooperative - March 1

If an LOA expires (extends beyond one year), you must apply for readmission through the Office of Admissions. Be aware that this situation may impact your academic class standing and graduation requirements. Contact the Director of Admissions for further details.

Administrative Dismissal

From time to time, a student fails to comply with an administrative requirement of the Academy. Such requirements include, but are not limited to, financial obligations, required documentation for medical needs, or necessary immigration documentation. Failure to comply with such administrative requirements may be cause for dismissal by the Vice President for Academic Affairs, Vice President for Finance/Administrative/Governmental Affairs, Dean of Student Services, or their designee. A student so dismissed may appeal that dismissal to the President.

Such an appeal must be made in writing within three work days of notification of dismissal and include a clearly stated rationale for appeal. The President may choose not to consider the appeal, to hear the appeal with the student present, or grant the appeal outright. The President will respond to the appeal in writing within 10 working days, not counting days the President may not be on campus. There is no appeal of the President's decision.

Affording MMA

THE DECISION to attend college requires both a personal and financial commitment. Maine Maritime Academy believes that this important undertaking should not be constrained by financial considerations. The college strives to make a Maine Maritime Academy education affordable to all qualified applicants and enrolled students whenever possible.

More than seventy percent of our students currently receive need-based financial aid. Federal, State, and campus-based programs are available to help defray the cost of education. The typical length of matriculation for on-campus, residential students is 4 or 5 years for a B.S. degree, 2 years for an A.S. degree, and 1 year for a M.S. degree. Maine Maritime Academy achieves a graduation rate for all first-time B.S. students of 69% within 6 years (based on the 1997-2001 cohort years and as reported to the Integrated Post-Secondary Education Data System/IPEDS; most recent year datum, 2001 cohort, is 64% within 6 years). Ninety-eight percent of MMA students enrolled in the unlimited license programs pass the U.S. Coast Guard license exam upon their first attempt, based on data for the 2008 academic year.

Based on the graduating class of 2008, the average student indebtedness was \$36,396.00.

Any enrolled student who qualifies for aid will receive it to the extent that funds are available. The amount of the award is dependent upon financial need and, therefore, reflects the family's or individual's financial circumstances. Maine Maritime Academy treats all such information as confidential.

In general, you are eligible for undergraduate financial aid at Maine Maritime Academy if you:

1. Are a U.S. citizen or an eligible non-citizen
2. Are making satisfactory academic progress as defined in the catalog
3. Are not in default on a prior loan or do not owe a refund on a grant or scholarship
4. Registered with the Selective Service (males only)
5. Demonstrate financial need.

Federal, State, and campus aid is awarded on the basis of need. Need is the difference between your costs (tuition, room, board, books, supplies, and personal expenses) and the amount that you and your family are expected to pay as determined by a standard formula established by Congress and regulated by the Department of Education. This amount is called the Expected Family Contribution (EFC). Thus, $COST - EFC = NEED$. The basis for determining the expected family contribution at Maine Maritime Academy is the [Free Application for Federal Student Aid](#) (FAFSA), provided by the U.S. Department of Education.

Students applying for financial assistance should submit a FAFSA to the Federal Student Aid Programs Office as soon as possible after January 1 of the application year, but not later than April 15. Applications are available from your high school guidance office or Maine Maritime Academy, or online at www.fafsa.ed.gov. Re-application for financial aid is required for each academic year that the student wishes to be considered for financial assistance. Parent and student tax returns and a verification worksheet may be required. Call or write the Financial Aid Office with any questions regarding the financial aid process (207) 326-2205. The Financial Aid Office is located in The Robert S. Walker Admissions and Financial Aid Center.

[Sources of Aid](#)

Private Scholarships

Private organizations offer financial assistance to thousands of qualified individuals each year. High schools, community organizations, professional associations, businesses, and industries frequently offer scholarships to students. Some are based on need or scholastic achievement, but many are not. High school guidance counselors and public libraries have lists of organizations offering these scholarships, and there are several free scholarship search sites on the Internet.

State Scholarships

Most states administer scholarship programs. Check with your guidance counselor to find out how to apply for these funds. State administered awards are generally designed to help full-time, undergraduate students working toward their first degree, and who have financial need. In many state programs, only the FAFSA is required.

Federal Financial Aid Programs

[Supplemental Educational Opportunity Grants](#) (SEOG) are awarded by the college to undergraduate students who demonstrate extraordinary financial need. The awards range from \$400 to \$1,000 per year and do not have to be repaid. Perkins Loans offer low interest rates. These loan funds are made available by the college to students who demonstrate exceptional financial need. The maximum amount a student with high need may borrow is \$4,000 a year, \$20,000 lifetime.

Students with demonstrated financial need who are awarded Federal College Work-Study funds may work up to 20 hours each week, on campus or in community service, during the academic year. Specific work schedules are arranged around class time. Work-Study awards generally range from \$500 to \$1,500 per year. Students will be paid minimum wage or a maximum of \$10.25 per hour. Pay range is determined by the student's supervisor.

Students may become eligible for the Federal Pell Grant by completing the FAFSA each year until the completion of the bachelor's degree. These federal grants currently range from \$976 to \$5,350 per year and do not have to be repaid. Amounts vary each year and are determined by the Department of Education.

Stafford Loans (subsidized) are available to students with verified need enrolled in a degree-seeking program. Applications may be obtained at the Financial Aid office as well as most banks or lenders. Loan funds are disbursed in two payments. A student with demonstrated need who is enrolled on at least a half-time basis is eligible for the following Stafford Loan amounts: \$3,500 in the first academic year of an undergraduate program; \$4,500 in the second year; and \$5,500 per academic year thereafter until successful completion of an undergraduate degree. Graduate and professional students are eligible for \$8,500 subsidized Stafford funds per year. The lifetime maximum Stafford Loan amount is \$23,000 for undergraduates; graduate students demonstrating financial need may borrow up to a maximum amount of \$138,000, including loans received at the undergraduate level. Unsubsidized Stafford Loans requiring interest payments while the student is in college are available in the same amounts for students who do not qualify for the Stafford loan (determined by the FAFSA).

A variety of parent and other alternative loans are available. Contact the Financial Aid Office for specific recommendations.

Veterans Educational Assistance

Maine Maritime Academy programs are approved for the enrollment of military personnel, veterans, and their eligible dependents under the various educational assistance programs (GI Bills). Programs are approved by the State Approving Agency for Veterans Education Programs. Students who plan to receive veterans' education benefits must see the Registrar.

Institutional Scholarship, Grant, and Loan Programs

Limited institutional scholarships, grants, and loan programs are available through the generosity of friends and alumni of Maine Maritime Academy, each with criteria developed by donors and awarded annually to students with financial need; academic progress also may be taken into consideration. In order to be considered for such funds, a student must submit a FAFSA. Recipients will be expected to write thank you notes to the donors.

Extended Payment Program

The Academy has an agreement with Tuition Management Systems (TMS) which offers a monthly payment plan. Tuition Management Systems offers a 10-month plan with equal payments due July 1 - April 1. This plan can be used to cover all MMA costs or to supplement final costs after financial aid. Tuition Management Systems offers a 10-month plan in coordination with loans as well, for those who want to lower their monthly payments. Information is sent directly to entering first year students from TMS, or contact the Finance Office at (207-326-2243) for details.

NROTC College and Scholarship Programs

The [Naval Reserve Officer Training Corps](#) (NROTC) Program is divided into two major categories of students, those who are on Navy scholarship (Scholarship Program) and those who are not (College Program). Four-year Navy or Marine Corps ROTC scholarships are awarded to prospective first-year college students annually by Chief of Naval Education and Training on a competitive basis nationwide. These scholarships provide full tuition, fees, a \$375 book allowance, uniforms, and a \$250-\$400 subsistence allowance per month depending on the year of the student. Four-year national scholarship winners who attend Maine Maritime Academy are also provided by MMA free room and board while at MMA, or a stipend of \$1,000 per semester in lieu of room and board if not residing in the dormitory.

NROTC students who are not on scholarship are enrolled in the NROTC College Program. College Program students receive uniforms and books for Naval Science courses for the entire time they are enrolled, and a subsistence allowance of \$350 per month during the junior year and \$400 per month during the senior year. College Program students may compete for scholarships

during their first two years at college. If selected for scholarship, College Program students will receive the same benefits as four-year national scholarship recipients, but not the room and board gratuity from MMA. The length of these scholarships (3.5, 3, 2.5, or 2 years) is dependent on when the student is selected for the scholarship and becomes physically qualified. College Program students incur no obligation to the Navy until they begin their junior year or are awarded and accept a scholarship.

NROTC graduates receive active duty commissions in the Navy or Marine Corps. Please refer to the section on [Naval Service Commissioning Programs](#) in this catalog for more information. Accepting an NROTC scholarship after accepting standard financial aid may result in an adjustment of financial aid funds.

Merchant Marine Reserve/U.S. Navy Reserve Program

All physically qualified Maine Maritime Academy students enrolled in the U.S. Coast Guard unlimited license program, and who are between the ages of 17 and 25, are eligible to compete for this reserve program. The Maritime Administration is presently funding \$8,000 yearly for four years to qualified students. Students admitted to this program who are awarded the federal incentive payment will be obligated to apply for, be offered, and to have accepted a Midshipman status in the U.S. Navy Reserve, (Merchant Marine Reserve, USNR) and simultaneously to have applied for and have been accepted for Enlisted Reserve status.

Please see the section on [Naval Service Commissioning Programs](#) in this catalog for more information.

These funds are considered a resource and are expected to be used for educational funding. Financial aid awards may need to be revised after a student accepts the MMR agreement.

Regular Student Wage and Off-Campus Employment Programs

Students who do not receive funds under the Federal College Work-Study program may seek employment on campus up to 20 hours each week during the academic year. On campus employment for regular student wages is limited. A website is available where jobs are posted on a regular basis. (<http://studentjobs.mma.edu/>)

Financial Aid Policies

Independent Student Status

To qualify for independent status, a student must be able to meet the Department of Education Criteria for Independency.

A student is automatically independent if the student:

1. Is 24 years old by January 1 of the academic year he/she is going to enter college; or
2. Is working on a Master's Degree; or
3. Is married; or
4. Has dependent children that receive more than half of their support from the student; or
5. Has dependents (other than your children or spouse) who live with the student and who receive more than half of their support from the student; or
6. Is a veteran of the U.S. Armed Forces (Served two years of active duty). A DD214 will be required; or
7. Is currently serving on active duty in the U.S. Armed Forces for purposes other than training; or
8. At any time since turning 13, both parents were deceased, and the student was in foster care or a dependent or ward of the court; or
9. Is an emancipated minor as determined by a court in the state of legal residence; or
10. Is in legal guardianship as determined by a court in the state of legal residence; or
11. At any time on or after July 1, 2008, the high school or school district homeless liaison determines that the student was an unaccompanied youth who was homeless; or

12. At any time on or after July 1, 2008, the director of an emergency shelter or transitional housing program funded by the U.S. Department of Housing and Urban Development determines that the student was an unaccompanied youth who was homeless; or
13. At any time on or after July 1, 2008, the director of a runaway or homeless youth basic center or transitional living program determines that the student was an unaccompanied youth who was homeless or self-supporting and at risk of being homeless.

Documentation may be required for any yes answers.

The Director of Financial Aid, using professional judgment, may consider a student with documented unusual circumstances as independent. A parent's unwillingness to contribute to his/her child's education is not grounds for independent status.

Falsification

Parents and students must supply accurate and complete information on all financial aid applications. Willful falsification or omission of information is a criminal offense punishable under Maine and federal laws. Intentional omission or falsification may result in withdrawal of all financial assistance or repayment of any assistance granted by the Academy's Financial Aid Office.

Director of Financial Aid Discretion

In some cases, the Director of Financial Aid may adjust the expected family contribution derived from the federal methodology system if the officer has documented reason to believe that the original contribution calculated does not accurately reflect the student's or parents' ability to contribute to the cost of attendance. This is called a Request for Review and will require full documentation.

Financial Aid and Academic Standing

Students receiving financial assistance are expected to maintain satisfactory progress toward a degree. Any student meeting the following criteria will automatically be considered as making sufficient satisfactory academic progress for financial aid purposes:

- A minimum cumulative grade point average of 1.80 and successful completion of at least 24 semester credit hours after 2 semesters;
- A minimum cumulative grade point average of a 2.0 and completion of 48 semester credit hours after 4 semesters;
- A minimum cumulative grade point average of a 2.0 and completion of 72 semester credit hours after 6 semesters;
- A minimum cumulative grade point average of a 2.0 and completion of 96 semester credit hours after 8 semesters.

Students not meeting the above conditions will be considered on a case-by-case basis by the Director of Financial Aid to determine if satisfactory progress is being made.

In no instance will an undergraduate student be eligible for financial assistance beyond six years of study, or if the minimum cumulative grade point average of 2.0 has not been met after completing four semesters as a full-time student. Financial Aid includes all federal and state grants, all federal and institutional loans, work study and all institutional scholarships.

Governance

The above and all other policies governing the administration of financial aid at Maine Maritime Academy are in accordance with federal and state laws regulating federal and state aid programs which were current at the time of publication.

Students have the right to appeal any financial aid decisions to the Financial Aid Review Committee which is comprised of the Director of Admissions, the Director of Financial Aid, the Registrar, the Director of Residential Life, and a faculty representative. Appeals must be made in writing and submitted to the Director of Financial Aid.

Tuition and Fees

Tuition

Tuition rates normally are established each February for the next academic year by the Board of Trustees.

For the Fall semester of 2009, undergraduate tuition is as follows:

The Undergraduate Academic Program

Majors

The Academy offers the following baccalaureate degree academic majors at its Castine campus:

- Interdisciplinary Studies
- International Business and Logistics
- Marine Biology
- Marine Engineering Operations*
- Marine Engineering Technology*
- Marine Systems Engineering* (License Track)
- Marine Systems Engineering** (Non-License Track)
- Marine Transportation Operations*
- Marine Science
- Power Engineering Operations
- Power Engineering Technology
- Small Vessel Operations

The Academy offers the following associate degree academic majors at its Castine campus:

- Small Craft Design***
- Small Vessel Systems***
- Small Vessel Operations

*These majors lead to a U.S. Coast Guard unlimited license and require participation in the Regiment of Midshipmen. See the catalog section entitled [Student Life](#) for information on the Regiment.

**Marine Systems Engineering (Non-License Track) requires first-year students to participate in the Regiment of Midshipmen and the first-year cruise.

***Small Craft Design and Small Vessel Systems are offered as Associate Degree Programs by Maine Maritime Academy in association with The Landing School of Boatbuilding and Design in Kennebunkport, Maine. Residence at Maine Maritime Academy is required for the first year at Castine and at The Landing School in Kennebunkport for the second year of the program.

Undeclared Major

This option of an undeclared major is only available for the Spring term and is designed primarily for transfer students. The following semester, students must declare a major and select courses in consultation with an advisor to meet the requirements of a declared major. Students may enroll as non-declared for one semester only.

MMA/General Dynamics Corporation Programs

In addition to the fifteen undergraduate majors listed above, two other majors leading to an Associate in Science degree are offered to employees of General Dynamics Corporation at Bath Iron Works Shipyard:

Bath Iron Works Shipyard

Two Associate in Science majors, Ship Design and Ship Production, are offered via a satellite program for apprentices of General Dynamics Corporation's Bath Iron Works Shipyard in Bath, Maine. In these programs, courses are offered on-site in Bath. These majors are administered by the Engineering Department at MMA.

Selecting a Major and Changing Majors

It is necessary to select an academic major prior to registering for the fall semester of the first year. Thereafter, it is possible to change a major after consultation with appropriate academic advisors and the respective program coordinator, as may be necessary. A change of major must be approved by the faculty coordinator of the new major and may be restricted by the student's academic performance as well as the capacity of the new program. Students who request a change in major must meet Academy and programmatic requirements that are in place. A change of major requires careful scheduling and may necessitate attending summer classes or additional semesters to complete all required courses. If a circumstance arises which in the opinion of the student or the Vice President for Academic Affairs causes undue hardship on the student or the school in fulfilling the obligations created by a situation such as those addressed here, it may be resolved by the Vice President for Academic Affairs in consultation with the student, the student's advisor and/or the Department Chair involved. Students changing majors are subject to the Priority for Course Registration of the [Academic Policies](#) chapter and may not be on "track".

Academic Policies

Responsibilities

It is the student's responsibility to fulfill all academic requirements to achieve his or her selected academic major. It is the responsibility of the faculty and staff to advise the student and to facilitate the student's effort.

Pre-Requisites

Pre-requisites for courses may be waived by consent of the instructor, unless the catalog specifically states that the pre-requisite may not be waived. A minimum grade may be included as part of each pre-requisite.

Grades

Grades with their quality points are reported as described below. The grade point average (GPA) is determined by multiplying the quality points by the credit hours attempted for each course, then summing these products for all courses and dividing by the total credit hours attempted, including those courses with failing grades.

Quality Points

A	4.0
A-	3.7
B+	3.3
B	3.0
B-	2.7
C+	2.3
C	2.0
C-	1.7
D+	1.3
D	1.0
D-	0.7
F	0.0 Failure (no credit received).
S	Satisfactory completion of a course. Not included in the computation of grade point average (GPA) but credit hours are applicable toward graduation requirements.
U	Unsatisfactory completion of a course. No quality points for computation of GPA and no assignment of credit hours.
W	Withdrawal from a course after the add/drop period, but before the seven calendar days following the midpoint of the course. Withdrawal from a half-semester course will be possible only within the first two weeks of the course.
I	Incomplete may be given at the discretion of the instructor and with the approval of the Academic Dean if a student, because of an incapacitating illness or exceptional circumstances beyond his or her control, fails to take a final examination or to complete a major assignment. In the absence of special circumstances, a student who receives an incomplete when grades are recorded will receive a failing grade for the course unless the deficiency is rectified within two weeks of the conclusion of the semester.
AUDIT	Course taken for no credit.

Students may initiate withdrawal from a course prior to the seventh calendar day following the midpoint of the course by obtaining the appropriate form from the Registrar and complying with the instructions stated thereon.

Faculty may assign withdrawal grades in a course after the add/drop period, but before the seventh calendar day following the midpoint of the semester. The faculty member will contact the student in question in advance of taking this action and inform the student that he/she is in jeopardy of being withdrawn. At this time, alternatives to withdrawal will be discussed. If a faculty member decides that it is in the best interest of the student and/or the Academy to withdraw a student from a course, the faculty member

Degree Requirements

To be eligible for the Bachelor of Science or Associate in Science Degree from Maine Maritime Academy, a candidate must complete all courses of the major program, including specified elective courses, with a cumulative grade point average of not less than 2.0. Specific major programs may additionally require a grade point average of 2.25 in designated core courses in each program. In addition, candidates in the [four majors leading to a US Coast Guard \(USCG\) unlimited license](#) are required to successfully complete the professional USCG examination and satisfactorily participate in the [Regiment of Midshipmen](#).

The various major programs have differing credit requirements, which are described in detail in the [Curricula](#) section of this catalog. It is the responsibility of the student to demonstrate completion of all requirements and to enroll in the prescribed courses. All degrees will be awarded through action of the Board of Trustees.

The graduation date appearing on the student transcript and diploma will be one of the following as applicable:

1. The scheduled commencement date for students who have completed all degree requirements by the end of the spring semester;
2. The day following the submission of a passing grade in the Junior Cruise (Cr-303) or other required summer co-op experience in the case of those seniors who have completed all other requirements;
3. The end of the fall semester for all other students. Students who graduate at this time will have their class standing based on and be considered part of the class graduating in the next scheduled spring commencement. This will not, however, preclude license-program students obtaining Coast Guard licenses upon completion of all degree requirements even if the graduation date occurs at a later time.

Degree Honors

Significant scholastic achievement in the undergraduate programs will be recognized by appropriate endorsement of the degree diploma in the following categories:

Summa Cum Laude:	3.75 - 4.00 GPA
Magna Cum Laude:	3.50 - 3.74 GPA
Cum Laude:	3.30 - 3.49 GPA

Credit for Life Experience

“Life Experience Credit” is credit for learning that individuals have acquired that has not been transcribed as a result of completed coursework in a college or university. The experience is evaluated at MMA to determine whether or not it is comparable in rigor, content and outcomes with coursework taught at MMA. If such learning is deemed comparable, the student may receive credit for the experience.

Assessment of life experience is a process accomplished by assessment of a portfolio prepared by the student. Students who wish to make a case for life experience begin initially by contacting the Academic Dean’s office. It is there that the screening process begins. If it is determined that the student is a candidate for life experience, the student is advised how to describe, organize and document his/her materials to create a case for life experience. Subsequently, the student makes an appointment with the appropriate Department Chair to discuss these materials. The Department Chair decides whether the student’s prior learning experience warrants referral and further consideration by a faculty evaluator.

For four-year students, a maximum of 16 credits may be earned in the life experience program; for two-year students a total of 8 credit hours may be earned for life experience. Credits may be applied toward an undergraduate degree or licensure. Upon approval of the Academic Dean, the applicant’s transcript will be marked to show credit hours earned, with a notation that the credit hours were earned for life experience. A fee equivalent to one-half the regular charge per credit hour will be assessed for life experience credits. Note: These credits do not fill the residency requirements for the degree.

Study Abroad

The Academy has agreements with several other colleges and universities for study abroad. Students may inquire into this possibility from their respective Department Chairs through their advisors. Program possibilities vary from major to major. All such

**Various other certifications as required by national and international regulations are covered in these degrees as well. These majors meet the applicable International Standards for Training, Certification and Watchkeeping (STCW).

Summer sessions are required for all majors in this department. Training cruises and cooperative work experiences are an integral part of a student's education. The college organizes the various summer sessions and assists in all aspects of planning to ensure a successful summer learning experience.

Marine Transportation Operations and Small Vessel Operations Program Outcomes

MTO and SVO graduates will have the ability to:

1. Understand traditional and modern seamanship skills
2. Safely and correctly apply seamanship skills
3. Understand the topic of terrestrial and celestial navigation
4. Correctly calculate terrestrial and celestial navigation problems
5. Recognize and demonstrate the skills associated with leadership and command
6. Write and speak effectively
7. Demonstrate effective and appropriate problem solving and critical thinking

Minor programs in Marine Transportation Operations and Small Vessel Operations are also offered by this department.

Naval Science

Faculty: Capt. Buterbaugh (Chair), Cdr. Reese, Capt. Troughton, Lt. Goocey, Lt Morin, GySgt Higgs.

Naval and Marine Corps officers are commissioned from Maine Maritime Academy in two categories -- active duty through the [Naval Reserve Officers Training Corps \(NROTC\) program](#) and inactive duty reservists through the [Merchant Marine Reserve \(MMR\) program](#). NROTC program graduates continue on to assignments in Naval Aviation, Surface Warfare, Submarine Warfare, Special Warfare, or the U.S. Marine Corps. The MMR program is designed to ensure the United States has a strong Merchant Marine to serve as a naval auxiliary in time of national emergency. Each of the two commissioning programs has its own academic and military service requirements commensurate with the amount of support and training received. Both programs require completion of certain Naval Science courses which are taught by the active duty officers assigned to the Department of Naval Science. A minor program in Naval Science is offered by this department.

Ocean Studies

Professors Barlow (Academic Dean), Boucher (Associate Dean), Sahl; Associate Professors Cleveland (Chair), McKenna, Verde; Assistant Professors Harakas, Muhlin.

The Corning School of Ocean Studies provides skills essential to pursuing science-related careers. Our programs of study instill intellectual curiosity, develop critical thinking, inform over multiple scientific disciplines, enhance individual communication abilities, and give direct, meaningful experiences with a range of scientific instruments including those devoted to oceanographic and marine biological research. Our programs integrate scientific instruction with shipboard experiences and training. The department maintains faculty with expertise in the essential areas of marine science and the facilities that enable students to benefit from faculty experience.

The Department of Ocean Studies offers two majors leading to a Bachelor of Science degree: Marine Biology and Marine Science. A minor program in Oceanography and a concentration in Marine Biology are offered by this department.

The Marine Science major prepares students in the field of marine science, with an emphasis on problem solving and decision making in an ocean setting. This broad-based marine science curriculum encompasses the study of chemistry, biology, physics, geology, writing and communications, computer science, mathematics, humanities, and social sciences. Graduates of the program may pursue employment in the various fields of ocean sciences (resource management, aquaculture, research, environmental protection, science education, or oceanography) or graduate education.

The Marine Biology major focuses its training and experiences on the biological component of Ocean Studies. This major provides instruction in essential biology courses (biology, ecology, physiology, cell biology, and genetics) as well as more specialized topics relevant to marine organisms. Graduates of this program may pursue graduate education as well as careers in fisheries, aquaculture, environmental management, consulting, and public education.

Both Marine Science and Marine Biology majors may elect to participate in the Teaching Certification Program, which is offered in collaboration with the College of Education at the University of Maine. This program prepares students to teach science in secondary school. By selecting appropriate electives, students may be certified to teach life or physical sciences.

Participation in the Regiment is optional when enrolled in these programs. Students in non-license majors may elect to participate in First Year Cruise as long as they meet the prerequisites listed in the course description for First Year Cruise, and subject to the [Priority for Registration Policy](#). A passport and TWIC (transportation worker identification credential) card are required to go on cruises.

Physical Education Requirement

Adjunct Instructors: C. Dagan, K. Dagan, Dyer, Evans, G. Hassett, Jennings, C. McKenney, Murphy, Watson.

The Department of Athletics offers a variety of courses in physical education and coaches varsity athletic teams in Men's and Women's Basketball, Men's and Women's Cross Country, Men's Golf, Football, Men's Lacrosse, Men's and Women's Soccer, Softball, and Women's Volleyball.

All full-time undergraduate students who are candidates for the Bachelor of Science degree are required to register for a minimum of two credit hours of physical education, normally during their first year at the Academy. This requirement should be met by taking courses that provide for one credit hour in both the fall and spring semesters. All baccalaureate candidates are required to take at least one swimming-related course. Associate in Science degree candidates are required to register for a sailing and a swimming course. Varsity athletes may satisfy up to 1 credit hour in Physical Education for participating in their sport.

The physical education curriculum consists of a variety of courses focused on developing adult recreational competence, an understanding of physical activity and its contribution to the individual and society, and desirable attitudes toward physical activity, a healthy lifestyle and wellness. Significant emphasis is placed on water activities such as sailing, swimming, skin and scuba diving, and ocean survival.

Curricula

The following curricula list the required courses of the major programs. To be eligible for graduation, all courses must be either successfully completed at the Academy or completed by transfer from an accredited college, as approved by the Registrar.

Arts and Sciences Major

- [Interdisciplinary Studies](#)

Engineering Majors

The Department of Engineering offers six majors leading to a Bachelor of Science degree and two leading to an Associate of Science degree via a satellite program in Bath, Maine, for apprentices of General Dynamics Corporation's Bath Iron Works Shipyard.

- [Marine Engineering Operations](#)
- [Marine Engineering Technology](#)
- [Marine Systems Engineering \(License Track\)](#)
- [Marine Systems Engineering \(Non-License Track\)](#)
- [Power Engineering Operations](#)
- [Power Engineering Technology](#)
- [Ship Design](#)
- [Ship Production](#)

International Business and Logistics Major

- [International Business and Logistics](#)

Marine Transportation Majors

The William F. Thompson School of Marine Transportation offers four majors. The Marine Transportation Operations major leads to a Bachelor of Science degree. The Small Vessel Operations major offers both an Associate in Science degree and a Bachelor of Science degree. The Small Craft Design and Small Vessel Systems majors offer an Associate in Science degree, and require students to spend one year at the Castine campus of Maine Maritime Academy and one year in residence at The Landing School of Boat Building and Design in Kennebunkport, Maine.

- [Marine Transportation Operations](#)
- [Small Vessel Operations](#)
 - [Maritime Management and 200 Ton Limited License*](#)
- [Small Craft Design](#)
- [Small Vessel Systems](#)

* A 30 month program is available at the graduate level for qualified applicants intending to pursue the 200 Ton Limited License simultaneously with the M.S. degree in Maritime Management. [Please contact the graduate school for more information.](#)

Ocean Studies Majors

The Corning School of Ocean Studies offers two majors that lead to a Bachelor of Science Degree.

- [Marine Biology](#)
- [Marine Science](#)

Interdisciplinary Studies Major

1. A student electing this major will be required to:
 - a. Apply to MMA and, if accepted, be assigned to the Interdisciplinary Studies's coordinator.
 - b. Submit a proposal statement that outlines the academic/career oriented goal and courses of interest that will form the foundation of the curriculum plan.
 - c. Develop a curriculum plan with the faculty advisor who will propose a sequence of courses and prerequisites to meet the degree requirements.
2. Approval of application and admittance to this major will be conducted by a committee consisting of:
 - a. At least two faculty members representing the curriculum areas in the proposed plan.
 - b. A faculty member recommended by the program coordinator and appointed by the Academic Dean to serve as that student's academic advisor.
3. Curriculum requirements include:
 - a. Minimum credit hours for BS degree – 120 credit hours
 - b. General Education, BS minimum requirements (41 credit hours)
 - i. Humanities
 - ii. Social Sciences
 - iii. Math and Natural Sciences
 - c. Curriculum plan that integrates choices from TWO existing majors consisting of introductory to advanced level courses (approximately 34 credit hours in each of two areas, 68 total) OR
 - d. Curriculum plan that integrates choices from THREE existing majors consisting of introductory to advanced level courses (approximately 24 credit hours in each of three areas – 72 total).

The following tables outline the course options for a student in Interdisciplinary Studies.

General Education recommendations:

Composition	3 credit hours
Humanities I, II	6
Hum/SS Electives	9
Lab Science	4
Math to Calc I	4
Computer Science	3
Advanced Writing	3
Physical Education	2
Electives*	
Gen. Ed Subtotal	34
Plus Electives	18 or 14 credit hours*

*In addition to the general education requirements, students will be required to choose free electives to bring the total credit hours to at least 120. Therefore, in a program that focuses on 2 areas of study, a student needs to take 18 credit hours in electives, and in a program with 3 areas of study, a student needs to take 14 credit hours in electives.

Interdisciplinary Studies

20+ credit packages (integrates choices from three existing majors)

International Business & Logistics Options:

A. Logistics Management Package

Ec-102 Microeconomics	3
Hc-232 Management Communication	3
Lo-301 Business Logistics	3
Lo-313 Freight Transportation	3
Lo-334 Global Purchasing and Material Handling	3

Ns-221 Meteorology	3
Ns-262 Navigation Rules I	3
Ns-282 Celestial Navigation I	3
Ns-292 Electronic Navigation	3
Ns-382 Celestial Navigation II	3
Ns-461 Casualty Analysis	3
Yt-210 Marine Systems	3
Yt-211 Introduction to Marine Surveying	3

ANY ONE OF THE FOLLOWING:

Ns-301 Stability	3
Ns-341 Auxiliary Sail Vessel Operations	3
Ns-342 Workboat Operations	3
Ns-345 Shiphandling	3

ANY TWO MTO OR SVO MAJOR COURSES NOT OTHERWISE DESCRIBED IN THE PACKAGE LISTED ABOVE.

Total credits:	41-43
----------------	-------

Marine Engineering Operations

The Marine Engineering Operations program is concerned primarily with the operation and maintenance of marine and industrial steam and diesel power plants and with related electrical and refrigeration plants. Classroom studies are closely coordinated with practical experience aboard ship and in laboratories. Successful completion of the program leads to the Bachelor of Science degree and, after passing a federal examination, a Third Assistant Engineer's license. In addition to meeting the college requirement for graduation with at least a 2.0 grade point average for the B.S. degree, graduating students are required to have a minimum grade point average of 2.25 in the MEO program core courses. For the MEO program, core courses are defined as courses with the prefixes Cr, Eg, Et, Ms, Na, and Ps. Students majoring in this program may enroll in any of the minor programs offered at the college. Graduates of this program are eligible to apply for a Maine Third Class Stationary Power Plant Operator's license. Graduates are employed by shipping firms throughout the world, and by power generation and energy production companies.

The following table outlines the normal sequence of courses taken by students majoring in Marine Engineering Operations:

FIRST-YEAR STUDENTS

Fall Semester

Eg-101	Fundamentals of Engineering Operations	2
Hc-111	Composition	3
Ms-101	Pre-calculus Mathematics	4
Ns-101	Introduction to Nautical Science	2
Et-101	Graphics	3
Pe	Physical Education	0.5
Pe-114	Ocean Survival	0.5
	Total Credits	15

Each first-year student must pass Pe-114.

Spring Semester

Cs-150	Structured Problem Solving With Computers	3
Hc-112	Humanities I	3
Ms-110	Technical Calculus I	4
Na-152	Ship Structure and Stability	3
Ps-102	Technical Physics I	4
Pe	Physical Education	1
Mt-12E	Maintenance 4 th Class	
	Total Credits	18

Summer

Cr-103	First-Year Cruise	4
Mt-13E	Summer Maintenance 4 th Class (Optional)	

SOPHOMORES

Fall Semester

Eg-261	Steam Generators I	3
Eg-292	Diesel Power I	3
Et-201	Fluid Power	3

Hc-211	Humanities II	3
Ps-201	Technical Physics II	4
Mt-21E	Maintenance 3 rd Class	
	Total Credits	16

Spring Semester

Eg-234	Power Equipment Laboratory	2
Eg-252	Machine Tool Operations I	2.5
Eg-392	Diesel Power II	3
Et-211	Thermodynamics I	3
Et-371	Electrical Power I	4
Et-452	Technical Communications	3
	Total Credits	17.5

Summer

Ce-203	Sophomore Cruise (Cadet Shipping)	4
--------	-----------------------------------	---

JUNIORS

Fall Semester

Eg-321	Steam Turbines I	3
Eg-243	Welding	2
Eg-351	Machine Tool Operations II	2.5
Eg-372	Electrical Power II	3
	Free Elective I	3
	Humanities/Social Science Elective I	3
	Total Credits	16.5

Spring Semester

Ch-301	Chemical Principles	4
Eg-382	Steam Power Systems I	3
Md-310	Basic Shipboard Medicine	3
	Free Elective II	3
Mt-32E	Maintenance 2 nd Class	
	Total Credits	13

Summer

Ce-303	Junior Cruise	4
Mt-33E	Summer Maintenance 2 nd Class (Optional)	

SENIORS

Fall Semester

Eg-481	Marine Refrigeration and Air Conditioning	2.5
Eg-491	Diesel Power III	3
Et-401	Automation and Control	3

Oc-101	Introduction to Ocean Science	3
	Humanities/Social Science Elective II	3
Mt-41E	Maintenance 1 st Class	
	Total Credits	14.5

Spring Semester

Eg-422	Steam Power Systems II	3
	Free Elective III	3
Eg-431	Gas Turbines	3
Et-377	Engineering Economics	3
	Free Elective IV	3
	Technical Elective	1-3
	Total Credits	16-18

Credits Required for Graduation: 138.5 -140.5

Additional requirements for graduation:

- a. Complete practical training and regimental requirements as published.
- b. Pass both practical and written portions of USCG lifeboatman examination and the USCG Third Assistant Engineer's examination.
- c. Complete sea time requirements as required for the USCG license.
- d. Core classes within the MEO Program have STCW competencies within the course, and students are required to achieve a minimum of 70% grade to obtain credit for these competencies.

Marine Engineering Technology

The Marine Engineering Technology program includes all of the practical shipboard work and most of the required courses of the Marine Engineering Operations program with additional required courses in mathematics, writing and communications, and technical sciences. In addition to meeting the college requirement for graduation with at least a 2.0 grade point average for the B.S. degree, graduating students are required to have a minimum grade point average of 2.25 in the MET program core courses. For the MET program, core courses are defined as courses with the prefixes Cr, Eg, Et, Ms, Na, and Ps. The program provides the graduate with a background for work in many areas of the maritime industry, both at sea and ashore, as well as in non-maritime industries such as public utilities and manufacturing. Successful completion of this major leads to the same degree and licenses as the Operations program, with additional eligibility to sit for the Fundamentals of Engineering Examination. Graduates are employed at sea and ashore throughout the world.

The Objectives of the Marine Engineering Technology major are as follows:

Three to five years after receiving their B.S. from Maine Maritime Academy, typical Marine Engineering Technology graduates are expected to be:

- Versatile engineering technologists with the technical and managerial skills necessary to enter a variety of different careers in the marine engineering technology areas of operations, maintenance, and manufacturing.
- Engineering technologists with competencies in analytical thinking, problem solving, teamwork, communications, and with the ability, and hands-on experience, to apply these skills to support design applications and to solve existing and emerging problems.
- Engineering technologists who recognize the need for, and who have the ability to, remain current in their chosen field. This will include understanding professional ethics, knowledge of contemporary issues, and the pursuit of lifelong learning.

The Outcomes of the Marine Engineering Technology major are as follows:

Students will demonstrate the following through the Marine Engineering Technology program of study at the Academy:

- a. An appropriate mastery of the knowledge, techniques, skills and modern tools of their disciplines.
- b. An ability to apply current knowledge and adapt to emerging applications of mathematics, science, engineering and technology.
- c. An ability to conduct, analyze and interpret experiments and apply experimental results to improve processes.
- d. An ability to apply creativity in the design of systems, components or processes appropriate to program objectives.
- e. An ability to function effectively on teams.
- f. An ability to identify, analyze and solve technical problems.
- g. An ability to communicate effectively.
- h. A recognition of the need for, and an ability to engage in lifelong learning.
- i. An ability to understand professional, ethical and social responsibilities.
- j. A respect for diversity and a knowledge of contemporary professional, societal and global issues.
- k. A commitment to quality, timeliness, and continuous improvement.

The Marine Engineering Technology program is accredited by the Technology Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202, phone: 410-347-7700.

The following table outlines the normal sequence of courses taken by students majoring in Marine Engineering Technology.

FIRST-YEAR STUDENTS

Fall Semester

Eg-101	Fundamentals of Engineering Operations	2

Credits Required for Graduation: 141.5

Additional requirements for graduation:

- Complete practical training and regimental requirements as published.
- Pass both practical and written portions of USCG lifeboatman examination and the USCG Third Assistant Engineer's

examination.

- c. Complete sea time requirements as required for the USCG license.
- d. Core classes within the MET Program have STCW competencies within the course, and students are required to achieve a minimum of 70% grade to obtain credit for these competencies.

Marine Systems Engineering

This major is offered in two tracks: the five year License Track and the four year Non-License Track. In addition to meeting the college requirement for graduation with at least a 2.0 grade point average for the B.S. degree, graduating students are required to have a minimum grade point average of 2.25 in the MSE program core courses. For the MSE program, core courses are defined as courses with the prefixes Cr, Eg, Et, Es, Ms, Na, and Ps.

The Objectives of the Marine Systems Engineering major are as follows:

Three to five years after receiving a B.S. from Maine Maritime Academy, the typical Marine Systems Engineering License Track graduate is expected to:

- Be competent and confident in his or her professional career and able to freely choose between graduate engineering education and design engineering careers.
- Have demonstrated the professionalism, technical competence and versatility to be moving into positions of technical responsibility.
- Recognize that his or her undergraduate education at Maine Maritime Academy has provided a solid basis for assuming technical responsibilities and opportunities for continued career development.
- Understand the importance of social and ethical responsibilities in his or her engineering career.

The Outcomes of the Marine Systems Engineering major are as follows:

Students will demonstrate the following through the Marine Systems Engineering program of study at the Academy:

- a. An ability to apply knowledge of mathematics, science, and engineering.
- b. An ability to design and conduct experiments, as well as to analyze and interpret data.
- c. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety.
- d. An ability to function on multi-disciplinary teams.
- e. An ability to identify, formulate, and solve engineering problems.
- f. An understanding of professional and ethical responsibility.
- g. An ability to communicate effectively.
- h. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
- i. A recognition of the need for, and an ability to engage in life-long learning.
- j. A knowledge of contemporary issues.
- k. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Marine Systems Engineering is accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202, phone: 410-347-7700.

Marine Systems Engineering – License Track

The Marine Systems Engineering - License Track program combines many of the technical courses of the Engineering Operations and the Engineering Technology programs with a 10-course calculus-based design and analysis sequence. In addition to the 180 days of industrial practice at sea offered by the other programs, "Systems" also includes a three-to-four month co-op term in a shoreside industrial or government engineering facility.

The complete program takes five years, with the opportunity to sit for the U.S. Coast Guard Third Assistant Engineer's License in the fourth year and for the Fundamentals of Engineering examination at the completion of the first semester of the fifth year. Students in this program may apply for a Bachelor of Science degree with a major in Engineering Operations after four years of study, with automatic eligibility to return to commence the fifth year within a three-year period after graduation. (With this four-year track, Probability and Statistics for Engineering and Science (Ms-251) is not required.)

Successful completion of the 5-year program leads to a Bachelor of Science degree with a major in Marine Systems Engineering - License Track, and prepares the graduate for a career as a sea-going merchant marine engineering officer, or in applied or design

engineering, engineering consulting, or for a management position in maritime, industrial power, or general engineering fields. Graduates of Marine Systems Engineering - License Track are also well prepared to pursue advanced study at graduate school in numerous engineering disciplines.

The program in Marine Systems Engineering - License Track is designed for students with a strong mathematical and analytical ability as well as interest in practical engineering. It is the most academically rigorous course of study at Maine Maritime Academy. Only a few engineering programs in the United States offer a comparable curriculum. The synergy of the 10-course design/analysis sequence with a strong hands-on marine component is the hallmark of the MSE license track.

The following table outlines the normal sequence of courses taken by students majoring in Marine Systems Engineering – License Track:

FIRST-YEAR STUDENTS

Fall Semester

Cs-151	Introduction to Engineering Programming	3
Eg-101	Fundamentals of Engineering Operations	2
Es-180	Engineering Design I	2
Hc-111	Composition	3
Ms-150	Calculus I	4
Ns-101	Introduction to Nautical Science	2
Pe	Physical Education	0.5
Pe-114	Ocean Survival	0.5
	Total Credits	17

Each first-year student must pass Pe-114.

Spring Semester

Eg-243	Welding	2
Et-101	Graphics	3
Hc-112	Humanities I	3

	Total Credits	13

Spring Semester

Es-510	Engineering Test Laboratory	2
Es-599	Capstone Design Project	3
Et-432	Power Control Electronics	3
	Humanities/Social Science Elective I	3
	Free Elective I	1-3
	Total Credits	12-14

Credits Required for Graduation: 175.5-177.5

Additional requirements for graduation:

- Complete practical training and regimental requirements as published.
- Pass both practical and written portions of USCG lifeboatman examination and the USCG Third Assistant Engineer's examination.
- Complete sea time requirements as required for the USCG license.
- Core classes within the MSE Program have STCW competencies within the course, and students are required to achieve a minimum of 70% grade to obtain credit for these competencies.

Marine Systems Engineering – Non-License Track

The Non-License Track of Marine Systems Engineering is a four-year Bachelor of Science program including all the humanities, math, science, and engineering analysis and design courses of the 5-year Marine Systems Engineering program, but without many of the engineering operations courses required by the 5-year program. It does not lead to eligibility to sit for the USCG Third Assistant Engineer's license. Membership in the Regiment of Midshipmen for first-year students only and participation in the first-year cruise are required.

The MSE Non-License Track program is one of the more academically rigorous courses of study at Maine Maritime Academy. Comparable to the mechanical engineering curricula of other institutions, MSE Non-License Track is distinguished by its grounding in marine applications and naval architecture.

Successful completion of the 4-year program leads to a Bachelor of Science degree in Marine Systems Engineering – Non License Track, and prepares the graduate for careers in engineering design, consulting, or management in maritime, industrial power, or general engineering fields. Graduates of this non-license track are also well prepared to pursue advanced study at graduate school in numerous engineering disciplines.

The following table outlines the normal sequence of courses taken by students majoring in Marine Systems Engineering – Non-License Track:

FIRST-YEAR STUDENTS

Fall Semester

Cs-151	Introduction to Engineering Programming	3

Power Engineering Operations

The Power Engineering Operations program is concerned primarily with the operation and maintenance of industrial steam and gas turbine power plants and with related electrical systems. Classroom studies are closely coordinated with practical experience in laboratories. Successful completion of the program leads to the Bachelor of Science degree and, after passing a State of Maine examination, a 4th-Class Stationary Engineer's license. In addition to meeting the college requirement for graduation with at least a 2.0 grade point average for the B.S. degree, graduating students are required to have a minimum grade point average of 2.25 in the PEO program core courses. For the PEO program, core courses are defined as courses with the prefixes Co, Eg, Et, Ms, and Ps. Students majoring in this program may enroll in any of the minor programs offered at the college. Graduates are employed by power generation and energy production companies.

The following table outlines the normal sequence of courses taken by students majoring in Power Engineering Operations:

Note that this program accepted its first students in the Fall 2008 Semester and the first graduates will complete the program no earlier than 2012.

FIRST-YEAR STUDENTS

Fall Semester

Cs-150	Structured Problem Solving With Computers	3
Eg-101	Fundamentals of Engineering Operations	2
Hc-111	Composition	3
Ms-101	Pre-calculus Mathematics	4
Pe	Physical Education	1
	Total Credits	13

Each first-year student must pass a swim-based PE Class.

Spring Semester

Et-101	Graphics	3
Hc-112	Humanities I	3
Ms-110	Technical Calculus I	4
Ps-102	Technical Physics I	4
Pe	Physical Education	1

Et-482	Heating, Ventilation, & Air Conditioning	2
	Free Elective IV	3
	Technical Elective	1-3
	Total Credits	13-15

Credits Required for Graduation: 126 -128

Additional requirement for graduation:

Complete all requirements for and pass the State of Maine Fourth Class Stationary Engineer License Exam.

Power Engineering Technology

The Power Engineering Technology major is based on the body of knowledge inherent in Marine Engineering Operations, but it is oriented toward the shore-side power industry rather than marine power plants. It also includes additional studies in writing and communications, mathematics, and technical sciences. In addition to meeting the college requirement for graduation with at least a 2.0 grade point average for the B.S. degree, graduating students are required to have a minimum grade point average of 2.25 in the PET program core courses. For the PET program, core courses are defined as courses with the prefixes Ch, Co, Eg, Et, Ms, and Ps. Students are required to participate in approved industrial co-op programs in shore-side power plants. Participation in the Regiment is optional when enrolled in this program. However, students electing to participate in First Year Cruise (Cr-103) must have been in the Regiment for the year and meet the following prerequisites: 4/C Maintenance; Ship's Orientation, Ocean Survival (Pe-114); Fire Training, and Ns-101.

Successful completion of this major leads to the Bachelor of Science degree. Graduates are eligible to sit for the State of Maine Third Class Engineer (stationary plant engineer) license, and the Fundamentals of Engineering Examination. Graduates are employed in power generation and related industries throughout the United States of America.

The Objectives of the Power Engineering Technology major are as follows:

Three to five years after receiving their B.S. from Maine Maritime Academy, typical Power Engineering Technology graduates are expected to be:

- Versatile engineering technologists with competencies in existing and emerging power production technologies, analytical thinking, problem solving, teamwork, communications, and with the ability, and hands-on experience, to apply these skills to solve existing and emerging problems and to evaluate, maintain, and develop energy conversion systems.
- Engineering technologists who recognize the need, and who have the ability, to remain current in their chosen field. This will include understanding professional ethics, knowledge of contemporary issues, and the pursuit of lifelong learning.

The Outcomes of the Power Engineering Technology major are as follows:

Students will demonstrate the following through the Power Engineering Technology program of study at MMA:

- a. Mastery of the knowledge, techniques, skills and modern tools of the power industry.
- b. Ability to apply current knowledge and adapt to emerging applications of mathematics, science, engineering and technology.
- c. Design and conduct experiments and analyze and interpret data.
- d. Support the design of a system, component, or process to meet desired needs.
- e. Function effectively on teams.
- f. Ability to identify, analyze and solve technical problems.
- g. Communicate effectively through oral, written, visual, and graphical methods.
- h. Recognize the need for self-improvement through continuing education and lifelong learning.
- i. Ability to understand professional, ethical and social responsibilities.
- j. Respect for diversity and a knowledge of contemporary professional, societal and global issues.
- k. Commitment to quality, timeliness, and continuous improvement.

The Power Engineering Technology program is accredited by the Technology Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202, phone: 410-347-7700.

MAINE MARITIME ACADEMY/BATH IRON WORKS

SHIP DESIGN AND SHIP PRODUCTION

Note: The Bath Iron Works Apprentice Program in Ship Design and Ship Production is offered only in Bath, Maine. Not all Student Life Services on the Castine campus are available in Bath, Maine.

The objective of the BIW apprenticeship is to train highly skilled, versatile, and educated mechanics and designers through both classroom instruction and hands-on experience. The program strives to develop proficiency and knowledge in:

- Engineering principles and problem-solving techniques
- Organizational, communication, and leadership skills
- Trade or discipline-based skills and safe work practices

Successful completion of this program leads to the Associate in Science degree.

OJT	On the Job Training	12

MAINE MARITIME ACADEMY/BATH IRON WORKS

SHIP PRODUCTION

The Bath Iron Works (BIW) Apprentices Program in Ship Production is offered only in Bath, Maine. Not all Student Life services on the Castine campus are available in Bath, Maine.

The objective of the BIW apprenticeship is to train highly skilled, versatile, and educated mechanics and designers through both classroom instruction and hands-on experience. The program strives to develop proficiency and knowledge in:

- Engineering principles and problem-solving techniques
- Organizational, communication, and leadership skills
- Trade or discipline-based skills and safe work practices

Successful completion of this program leads to the Associate in Science degree.

CURRICULUM BY CONCENTRATION/DEGREE

Ship Production Majors

SHIP PRODUCTION – Laboratory Technician Concentration

Course Number	Course Name		Credits
CH101	Chemistry	3	
CH102	Chemistry Lab	1	
CS201	Introduction to Computing	2	
EC102	Principles of Economics	3	
EG102	Introduction to Marine Engineering	2	
EG120	Mechanical Drawing I	3	
EG280	Basic Electricity	2	
EG202	Confined Space Safety	1	
ET206	Mechanics I	3	
ET230	Strength of Materials	3	
ET235	Material Properties and Testing I	3	
ET236	Material Properties and Testing II	1	
HC110	Business Communications	3	
HC113	Oral Communications Skills	3	
MA230	Organizational Behavior	3	
MS105	Mathematics I	3	
MS205	Mathematics II	3	
NA151	Ship Building Process	3	
PS103	Physics I	3	
PS203	Physics II	3	
OJT	On the Job Training	12	

SHIP PRODUCTION - Machinist Concentration

Course Number	Course Name		Credits
CS201	Introduction to Computing	2	
EC102	Principles of Economics	3	
EG102	Introduction to Marine Engineering	2	
EG120	Mechanical Drawing I	3	
EG255	Machine Shop Theory I	3	
EG355	Machine Shop Theory II	2	
ET206	Mechanics I	3	
ET306	Mechanics II	2	
ET230	Strength of Materials	3	
ET235	Material Properties and Testing I	3	
HC110	Business Communications	3	
HC113	Oral Communications Skills	3	
MA200	Labor History	2	
MA230	Organizational Behavior	3	

MS105	Mathematics I	3
MS205	Mathematics II	3
NA151	Ship Building Process	3
PS103	Physics I	3
PS203	Physics II	3
OJT	On the Job Training	12

SHIP PRODUCTION - Maintenance Concentration
(Includes Maintenance Carpenter, Mechanic, and Pipefitting)

Course Number	Course Name	Credits
CS201	Introduction to Computing	2
EC102	Principles of Economics	3
EG120	Mechanical Drawing I	3
EG250	Mechanical Drawing II	3
ET206	Mechanics I	3
ET306	Mechanics II	2
ET230	Strength of Materials	3
ET235	Material Properties and Testing I	3
HC110	Business Communications	3
HC113	Oral Communications Skills	3
MA200	Labor History	2
MA230	Organizational Behavior	3
MS105	Mathematics I	3
MS205	Mathematics II	3
NA151	Ship Building Process	3
PS103	Physics I	3
PS203	Physics II	3
OJT	On the Job Training	12

SHIP PRODUCTION - Maintenance Electrician Concentration
(Includes Maintenance HVAC)

Course Number	Course Name	Credits
CS201	Introduction to Computing	2
EC102	Principles of Economics	3
EG120	Mechanical Drawing I	3
EG280	Basic Electricity	2
EG281	Electricity II	3
EG282	Electricity III	1
EG283	Electricity IV	3
ET200	Basic Electronics	2
ET207	Electronics II	2
ET208	Electronics III	3
ET209	Electronics IV	3
ET235	Material Properties and Testing I	3
HC110	Business Communications	3
HC113	Oral Communications Skills	3
MA200	Labor History	2
MA230	Organizational Behavior	3
MS105	Mathematics I	3
MS205	Mathematics II	3

International Business and Logistics

The Loeb-Sullivan School of International Business and Logistics undergraduate program blends international business education with contemporary business logistics management skills. Intended primarily for full-time residential students, graduates of the program develop critical thinking, communication and analytical skills. Courses in core functional areas of business provide a solid foundation for upper level courses dealing with the complexities of doing business internationally. Specialized courses that deal with the challenges of domestic and global supply chain management constitute the uniqueness of the program. Experiential learning, the fundamental ethos of a Maine Maritime Academy education, is a significant component of the program and includes voluntary internships and a mandatory cooperative education program. The IBL department offers minor programs in the areas of Business Management and Logistics Management.

The sequence of courses for the Bachelor of Science degree in International and Business Logistics is as follows:

FIRST-YEAR STUDENTS

Fall Semester

Cs-150	Structured Problem Solving With Computers	3
Ge-200 or Po-230	World Regional Geography I or Contemporary World Politics I	3
Hc-111	Composition	3
Ma-101	Introduction to Business & Supply Chain Management	3
Ms-141	Finite Mathematics	4
Pe	Physical Education	1
	Total Credits	17

Spring Semester

Ec-102	Microeconomics	3
Ge-210 or Po-330	World Regional Geography II or Contemporary World Politics II or General Education Elective	3
Hc-112	Humanities I	3
Ms-151	Business Calculus	4
Pe	Physical Education	1
	Social Science Elective	3
	Total Credits	17

SOPHOMORES

Fall Semester

Ch-301/Ps-102/ Ps-162/Oc-101	Lab Science Elective	3-4
Ec-201	Macroeconomics	3
Ge-200 or Po-230	World Regional Geography I or Contemporary World Politics I	3
Hc	Foreign Language I	3
Ma-211	Financial Accounting	3
	Total Credits	15-16

Spring Semester

Ge-210 or Po-330	World Regional Geography II or Contemporary World Politics II or General Education Elective	3
Ma-222	Marketing Management	3
Ma-242	Managerial Accounting	3
Ma-332	Business Law	3
Ms-253	Statistics for Business and Management	3
	Total Credits	15

Summer Semester

Lo-200	IBL Cooperative Industrial Field Experience (Dept. Elective; optional)	3
--------	--	---

JUNIORS

Fall Semester

Hc-211	Humanities II	3
Lo-301	Business Logistics	3
Ma-303	Financial Management	3
Ma-312	Production and Operations Management	3
	General Education Elective	3
	Total Credits	15

Spring Semester

Hc-232	Management Communication	3
Lo-313	Freight Transportation	3
Lo-334	Global Purchasing and Material Handling	3
Ma-342	International Human Resource Management	3
	General Education Elective	3
	Total Credits	15

Summer Semester

Lo-400	Co-op Educational Experience in IBL	3-4
--------	-------------------------------------	-----

SENIORS

Fall Semester

Lo-411	Logistics Information System	3
Lo-432	Strategic Supply Chain Management	3
Ma-401	Organizational Behavior	3
Ma-403	International Business	3
	Free Elective	3
	Total Credits	15

Spring Semester

Lo-422	International Logistics	3
Ma-422	International Business Law	3

Departmental Elective	3
Departmental Elective	3
General Education Elective	3
Total Credits	15

Total Credits: 127-132 (127 for those who take Oc-101 and a 3-credit co-op).

Foreign Language courses may be substituted for General Education electives. Cs-150, Cs-210, or Cs-220 may be substituted for Cs-100. Ms-110 or Ms-150 may be substituted for Ms-151.

A minimum of fifty percent of business and logistics credit hours required for the IBL major must be earned at Maine Maritime Academy. In addition to meeting the college requirement for graduation with at least a 2.0 grade point average for the B.S. degree, graduating IBL majors are required to have a minimum grade point average of 2.25 in the IBL program core courses. For the IBL program, core courses are defined as courses with the prefixes Ec, Lo, and Ma.

Participation in the Regiment is optional when enrolled in this program. However, students electing to participate in First Year Cruise (Cr-103) are subject to the [Priority for Course Registration](#) policy, must have been in the Regiment for the year and meet the following prerequisites: 4/C Maintenance; Ship's Orientation; Ocean Survival (Pe-114), Fire Training, and Ns-101.

Marine Transportation Operations

The Marine Transportation Operations curriculum is organized to develop those skills and abilities that are necessary in pursuing a professional career at sea. Students majoring in this program also may participate in any minor/concentration programs. Successful completion of this program leads to a Bachelor of Science degree and the opportunity to sit for a federal examination for the U.S. Coast Guard Third Mate's unlimited license. In addition to meeting the college requirement for graduation with at least a 2.0 grade point average for the B.S. degree, graduating students are required to have a minimum grade point average of 2.25 in the MTO program core courses. For the MTO program, core courses are defined as courses with the prefix Ns.

The following table outlines the normal sequence of courses taken by students majoring in Marine Transportation Operations:

FIRST-YEAR STUDENTS

Fall Semester

Cs-150	Structured Problem Solving With Computers	3
Eg-101	Fundamentals of Engineering Operations	2
Hc-111	Composition	3
Ms-101	Pre-calculus Mathematics	4
Ns-101	Introduction to Nautical Science	2
Pe	Physical Education	0.5
Pe-114	Ocean Survival	0.5
	Total Credits	15

Each first-year student must pass Pe-114.

Spring Semester

Hc-112	Humanities I	3
Ms-110	Technical Calculus I	4
Ns-102	Ship Structure	3
Ns-241	Seamanship	2
Ps-102	Technical Physics I	4
Mt-12D	Maintenance 4 th Class	
	Total Credits	16

Summer

Cr-103	First-Year Cruise	4
Mt-13D	Summer Maintenance 4 th Class	

SOPHOMORES

Fall Semester

Ns-122	Cargo I	3
Ns-271	Terrestrial Navigation I	3
Ns-272	Terrestrial Navigation I Lab	1
Oc-101	Introduction to Ocean Science	3
Ps-201	Technical Physics II	4
	General Education Elective	3
Mt-21D	Maintenance 3 rd Class	

Total Credits 17

Spring Semester

Ns-131	Introduction to Marine Transportation	3
Ns-210	Tanker Operations	4
Ns-262	Navigation Rules I	3
Ns-282	Celestial Navigation I	3
Ns-292	Electronic Navigation	3
	Total Credits	16

Summer

Cd-203	Cadet Shipping	4
--------	----------------	---

JUNIORS

Fall Semester

Hc-211	Humanities II	3
Ns-301	Stability	3
Ns-345	Ship Handling	3
	Free Elective I	3
	General Education Elective	3
Pe	Physical Education	1
	Total Credits	16

Spring Semester

Ns-221	Meteorology	3
Ns-332	Marine Communications	3
Ns-381	Terrestrial Navigation II	3
	Free Elective II	3
	Free Elective III	3
Mt-32D	Maintenance 2 nd Class	
	Total Credits	15

Summer

Cd-303	Junior Cruise	4
Mt-33D	Summer Maintenance 2 nd Class	

SENIORS

Fall Semester

Ns-420	Ship's Business	3
Ns-461	Casualty Analysis	3
Ns-491	Advanced Navigation	3
Ns-499	Topics in Marine Transportation	2
	Technical Elective	3

Mt-41D	Maintenance 1 st Class	
	Total Credits	14

Spring Semester

Hc-232	Management Communications	3
Md-310	Basic Shipboard Medicine	3
Ns-498	Watchkeeping	3
	Free Elective IV	3
	Technical Elective	3
	Total Credits	15

Credits Required for Graduation: 136

Additional requirements for graduation:

- a. Complete practical training and regimental requirements as published in the Regimental Manual.
- b. Pass both practical and written portions of USCG lifeboatman examination and the USCG Third Mate's examination.
- c. Complete sea time requirements as required for the USCG license.
- d. Fulfill one elective with Po-230 (Contemporary World Politics I), Ec-102 (Microeconomics), Ec-201 (Macroeconomics), Ge-200 (World Regional Geography I), or Ge-210 (World Regional Geography II).

Small Vessel Operations

The Small Vessel Operations curriculum is designed to prepare students for positions of responsibility in the operation and management of a variety of private and commercial vessels. The program is organized in a two-plus-two format offering a two-year Associate in Science degree and a four-year Bachelor of Science degree. U.S. Coast Guard licenses also are available.

Four academic semesters, plus a cooperative work experience during the summer following the first year, lead to an Associate in Science degree. Four additional academic semesters plus two additional cooperative work experiences and a training cruise, lead to a Bachelor of Science degree.

A student completing the A.S. degree requisites and an appropriate cooperative work experience, and meeting the applicable USCG requirements, may be eligible to sit for the USCG examination for a license as mate of vessels not more than 200 tons, operating in near-coastal waters, up to 200 miles offshore.

A student completing the B.S. degree requisites, two additional cooperative work experiences on appropriately-sized vessels, and a training cruise, and meeting the USCG requirements, may be eligible to sit for the USCG examination for a license as mate of vessels not more than 500 tons, near coastal or oceans.

Participation in the Regiment of Midshipmen is optional when enrolled in this program. However, students electing to participate in First Year Cruise on the Training Ship *State of Maine* are subject to the [Priority for Course Registration](#) policy, must have been in the Regiment for the year and meet the following prerequisites: 4/C Maintenance; Ship's Orientation; Ocean Survival (Pe-114), Fire Training, and Ns-101. In addition to meeting the college requirement for graduation with at least a 2.0 grade point average for the A.S. and B.S. degrees, graduating students are required to have a minimum grade point average of 2.25 in the SVO program core courses. For the SVO program, core courses are defined as courses with the prefix Ns, Yt, and Yo.

The following table outlines the normal sequence of courses taken by students majoring in Small Vessel Operations.

FIRST-YEAR STUDENTS

Fall Semester

Cs-150	Structured Problem Solving With Computers	3
Hc-111	Composition	3
Ms-101	Pre-calculus Mathematics	4
Ns-101	Introduction to Nautical Science	2
Pe-100	Basic Sailing	0.5
Pe-114	Ocean Survival	0.5
Yo-103	Boatyard Operations	2
	Total Credits	15

Spring Semester

Hc-112	Humanities I	3
Ns-241	Seamanship	2
Ps-102	Technical Physics I	4
Yt-102	Small Craft Technology	3
Yt-105	Small Craft Construction	3

Ns-491	Advanced Navigation	3
Ns-497	Watchkeeping Limited Tonnage	3
Ns-499	Topics in Marine Transportation	2
	Department Elective	3
	General Education Elective III	3
	Total Credits	14

Spring Semester

Md-310	Basic Shipboard Medicine	3
Hc-232	Management Communications	3
Ns-461	Casualty Analysis	3
	Business Elective	3
	General Education Elective IV	3
	Total Credits	15

Total for Bachelor of Science Degree 132 credit hours.

UPDATED 6/17/2009

Maritime Management and 200 Ton Limited License

A 30 month program is available at the graduate level for qualified applicants intending to pursue the 200 Ton Limited License simultaneously with the M.S. degree in Maritime Management. [Please contact the graduate school for more information.](#)

Small Craft Design

The Small Craft Design program leads to an Associate of Science degree that is offered jointly by Maine Maritime Academy in Castine and The Landing School of Boatbuilding and Design in Kennebunkport, Maine. Students spend one year at Maine Maritime Academy as residential students in Castine and one year at The Landing School in Kennebunkport. Students must meet admission criteria for both institutions to be accepted in this degree program.

The objectives of the Small Craft Design major are to provide students with a structured learning environment in which they can become knowledgeable and proficient in the practical application of the fundamental principles of small craft design, and develop the skills to communicate effectively with other industry professionals by graphical and other methods as appropriate.

The following table outlines the normal sequence of courses taken by students majoring in Small Craft Design:

FIRST-YEAR at Maine Maritime Academy

Fall Semester

Cs-150	Structured Problem Solving With Computers	3
Hc-111	Composition	3
Ms-101	Pre-calculus Mathematics	4
Ns-101	Introduction to Nautical Science	2
Pe-100	Sailing	0.5
Pe-114	Ocean Survival	0.5
Yo-103	Boatyard Operations	2
USCG-1	Fire Fighting	
	Total Credits	15

Spring Semester

Et-101	Graphics	3
Hc-112	Humanities I	3
Ps-102	Technical Physics I	4
	Major Elective	3
	Free Elective	3
	Total Credits	16

Summer

Yo-203 or Yo-213	Small Vessel Ops. Coop. Work Experience	3
	Small Craft Design Coop. Work Experience	2

Total at Maine Maritime Academy 33 - 34 credit hours

SECOND-YEAR at The Landing School

First Quarter

Ct-101	Construction 1	2.5
De-101	Design 1	3.5
St-101	Strength 1	2

Td-101	Topics in Design 1	0.5
	Total Credits	8.5

Second Quarter

Cd-101	CAD 1	2
Ct-102	Construction 2	2
De-102	Design 2	2
St-202	Strength 2	2
Td-102	Topics in Design 2	0.5
	Total Credits	8.5

Third Quarter

Cd-201	CAD 2	1
Ct-201	Construction 3	3
De-201	Design 3	3
Td-201	Topics in Design 3	0.5
	Total Credits	7.5

Fourth Quarter

Cd-301	CAD 3	1
Ct-202	Construction 4	3
De-202	Design 4	2
Td-202	Topics in Design 4	0.5
	Total Credits	6.5

Total at The Landing School 31 credit hours

Total credit hours to complete the Associate in Science degree in Small Craft Design 64 - 65.

Small Vessel Systems

The Small Vessel Systems program leads to an Associate of Science degree that is offered jointly by Maine Maritime Academy in Castine and with The Landing School of Boatbuilding and Design in Kennebunkport, Maine. Students spend one year at Maine Maritime Academy as residential students in Castine and one year at The Landing School in Kennebunkport. Students must meet admission criteria for both institutions to be accepted in this degree program.

The Small Vessel Systems program emphasizes the interface of marine systems with boat design and construction while practicing the actual installation of these systems in a real world setting.

The following table outlines the normal sequence of courses taken by students majoring in Small Vessel Systems:

FIRST-YEAR STUDENTS at Maine Maritime Academy

Fall Semester

Cs-150	Structured Problem Solving With Computers	3
Hc-111	Composition	3
Ms-101	Pre-calculus Mathematics	4
Ns-101	Introduction to Nautical Science	2
Pe-100	Sailing	0.5
Pe-114	Ocean Survival	0.5
Yo-103	Boatyard Operations	2
USCG-1	Fire Fighting	
	Total Credits	15

Spring Semester

Hc-112	Humanities I	3
Ns-241	Seamanship	3
Ps-102	Technical Physics I	4
	Major Elective	3
	General Education Elective	3
	Total Credits	16

Summer

Yo-203	Small Vessel Ops. Coop. Work Experience	3
--------	---	---

Total at Maine Maritime Academy 34 credit hours

SECOND-YEAR STUDENTS at The Landing School

First Quarter

	Shop Practices, Methods and Materials	2
	Composites	2
	Propulsion I	2
	DC Electrical I	3
	Total Credits	9

OCEAN STUDIES MAJORS

The Corning School of Ocean Studies offers two majors leading to a Bachelor of Science degree. A minor program in Oceanography is offered by this department. A concentration in Marine Biology is also offered, which may be elected by Marine Science majors.

Marine Science and Marine Biology majors may elect to participate in the Teaching Certification Program. This program prepares students to teach at the secondary school level.

Participation in the Regiment of Midshipmen is optional when enrolled in these programs. However, students electing to participate in First Year Cruise must have been in the Regiment for the year and meet the following prerequisites: 4/C Maintenance; Ship's Orientation; Ocean Survival (Pe-114), Fire Training, and Ns-101. A passport and TWIC (transportation worker identification credential) card are required in order to go on cruises. The [Priority for Course Registration](#) policy applies to cruise courses.

Marine Science

The Marine Science major prepares students in the field of marine science, with an emphasis on problem solving and decision making in an ocean setting. This broad-based marine science curriculum encompasses the study of chemistry, biology, physics, geology, writing and communications, computer science, mathematics, humanities, and social sciences. Graduates of the program may pursue employment in the various fields of ocean sciences (resource management, aquaculture, research, environmental protection, science education, or oceanography) or graduate education.

The sequence of courses shown below will be taken by candidates for the Bachelor of Science in Marine Science. Some Marine Science courses are only offered in alternate years, so curricula for students entering in an even or odd year are both shown.

FIRST-YEAR STUDENTS - For Students Entering in An Even Year

Fall Semester

Bi-101	General Biology I	4
Ch-210	General Chemistry I	4
Hc-111	Composition	3
Os-101	Introduction to Marine Science	4
	Total Credits	15

*SVO double majors could consider taking Ns-101

Spring Semester

Bi-102	General Biology II	4
Ch-220	General Chemistry II	4
Ms-150	Calculus I	4
Os-001	Ocean Studies Seminar I	0.5
Pe	Swim Related*	0.5-1
	Humanities/Social Science Elective I	3
	Total Credits	16-16.5

*Each first-year student must pass one of Pe-102, 103, 113 or 114.

SOPHOMORE YEAR

Fall Semester

Bi-220	Marine Botany* or HH/SS Elective II	3-4
--------	-------------------------------------	-----

Ms-160	Calculus II	4
Ns-101	Introduction to Nautical Science	2
Os-002	Ocean Studies Seminar II	0.5
	Physical Education Elective	0.5
	Free Elective I	3-4
	Total Credits	13-15

**Student is required to either take Bi-220 Marine Botany or Bi-210 Marine Zoology. Student not taking Bi-220 Marine Botany should take a HH/SS Elective.*

Spring Semester

Bi-210	Marine Zoology** or HH/SS Elective II	3-4
Os-003	Ocean Studies Seminar III	0.5
Os-203	Design and Applied Statistics in Science	4
Os-212	Marine Geochemistry	3
Ps-162	Physics I	4
	Total Credits	14.5-15.5

***Student is required to either take Bi-210 or Bi-220. Student not taking Bi-210 should take a Free Elective.*

JUNIOR YEAR

Fall Semester

Os-004	Ocean Studies Seminar IV	0.5
Os-204	Physical Geology	4
Ps-261	Physics II	4
	HH/SS Elective III	3
	Department Elective I	3-4
	Physical Education Elective	0.5
	Total Credits	15-16

Spring Semester

Hc-112	Humanities I	3
Os-005	Ocean Studies Seminar V	0.5
Os-211	Marine Geology	3
Os-400	Research Preparation	4
	Department Elective II	3-4
	Free Elective II	3-4
	Total Credits	16.5-18.5

SENIOR YEAR

Fall Semester

Hc-211	Humanities II	3
Oc-210	Physical Oceanography	4
Os-006	Ocean Studies Seminar VI	0.5
Os-401	Research Project	4
	Department Elective III	3-4
	Physical Education Elective	0.5

Total Credits 15-16

Spring Semester

Department Elective IV	3-4
Free Elective III	3-4
Free Elective IV	3-4
Free Elective V	3-4
Total Credits	12-16

Credits required for Graduation: 117-128.5

FIRST-YEAR STUDENTS - For Students Entering in An Odd Year

Fall Semester

Bi-101	General Biology I	4
Ch-210	General Chemistry I	4
Hc-111	Composition	3
Os-101	Introduction to Marine Science	4
	Total Credits	15

*SVO double majors could consider taking Ns-101

Spring Semester

Bi-102	General Biology II	4
Ch-220	General Chemistry II	4
Ms-150	Calculus I	4
Os-001	Ocean Studies Seminar I	0.5
Pe	Swim Related*	0.5-1
	Humanities/Social Science Elective I	3
	Total Credits	16-16.5

*Each first-year student must pass one of Pe-102, 103, 113 or 114.

SOPHOMORE YEAR

Fall Semester

Ms-160	Calculus II	4
Ns-101	Introduction to Nautical Science	2
Os-002	Ocean Studies Seminar II	0.5
Os-204	Physical Geology	4
	Physical Education Elective	0.5
	Free Elective I	3-4
	Total Credits	14-15

Spring Semester

Bi-210	Marine Zoology* or HH/SS Elective II	3-4
Os-003	Ocean Studies Seminar III	0.5
Os-203	Design and Applied Statistics in Science	4

Os-211	Marine Geology	3
Ps-162	Physics I	4
	Total Credits	14.5-15.5

**Student is required to either take Bi-210 Marine Zoology or Bi-220 Marine Botany. Student not taking Bi-210 Marine Zoology should take a Free Elective.*

JUNIOR YEAR

Fall Semester

Bi-220	Marine Botany** or HH/SS Elective II	3-4
Os-004	Ocean Studies Seminar IV	0.5
Os-210	Physical Oceanography	4
Ps-261	Physics II	4
	Department Elective I	3-4
	Physical Education Elective	0.5
	Total Credits	15-17

***Student is required to either take Bi-220 or Bi-210. Student not taking Bi-220 should take a HH/SS Elective.*

Spring Semester

Hc-112	Humanities I	3
Os-005	Ocean Studies Seminar V	0.5
Os-212	Marine Geochemistry	3
Os-400	Research Preparation	4

	Free Elective III	3-4
	Free Elective IV	3-4
	Free Elective V	3-4
	Total Credits	12-16

Credits required for Graduation: 117-128.5

Course Descriptions

Each course's abbreviation, number, title, description, prerequisites (if any), and credits are listed below. Courses offered at the Bath Iron Works Shipyard as part of the Ship Design and Ship Production majors and at The Landing School as part of the Small Craft Design program are listed at the end of this section.

Course Abbreviations

Bi Biology	Md Medicine
Ch Chemistry	Ms Mathematics
Co Cooperative Education	Ns Nautical Science
Cr Cruise	Na Naval Architecture
Cs Computer	Nv Naval Science
Ec Economics	Oc Ocean Studies
Eg Engineering Operations	Os Ocean Studies
Es Engineering	Pd Personal Development
Et Engineering Technology	Pe Physical Education
Ge Geography	Po Political Science
Hc Humanities & Communications	Ps Physics
Hy History	Py Psychology
LI Lifelong Learning	Ym Small Vessel Management
Lo Logistics	Yo Small Vessel Operations
Ma Management	Yt Small Vessel Technology

Cr = credit hour; Lab = Laboratory hours; Rec = Recitation or lecture hours.

BIOLOGY

Bi-101: GENERAL BIOLOGY I - An introductory course in modern biology covering the following topics: evolution and the diversification of life, including principles of taxonomy and diversity of form; function and structure of plants including transport, nutrition, sensory systems, reproduction, and defense; function and structure of animals including nutrition, digestion, gas exchange, circulation, excretion, chemical and electrical signals, reproduction, and the immune system; ecology, including behavior, population ecology, species interactions, community ecology, and ecosystems. Rec. 3, Lab. 3, Cr. 4.

Bi-102: GENERAL BIOLOGY II - Introduction to the concepts and principles of modern biological thought with coverage of the following topics: the chemical basis of life including atoms, molecules, organic macromolecules, and cellular structure and function; cell division, including mitosis and meiosis; the fundamentals of Mendelian genetics, gene structure and expression, and current research in the field of genetics; developmental biology and cellular differentiation; evolutionary patterns and processes. Prerequisite: Bi-101. Rec. 3, Lab. 3, Cr. 4.

Bi-201: ECOLOGY - An introductory course in ecology. A study of the interactions of organisms with each other and with their abiotic environment. Topics include environmental factors, population ecology, community ecology, and ecosystem energetics. Emphasis is on illustration of basic principles using the local marine ecosystem. Prerequisite: Bi-102. Rec. 3, Lab. 3, Cr. 4.

Bi-210: MARINE ZOOLOGY - An overview of animal biology in the marine environment. Physiology, behavior, ecology, and evolution of marine unicellular and multicellular animals will be presented. The laboratory portion of the course will focus on the diversity and habitats of marine animals in the Gulf of Maine region. Prerequisite: Bi-102. Lec. 3, Lab. 3, Cr. 4.

Bi-218: ANIMAL BEHAVIOR - The evolution and ecology of animal behavior is explored in detail. The evolution and diversity, as well as the ecological consequences, of behavior will be studied. Topics include the genetics and physiology of behavior, perceptual systems, integration and storage of information, ecology of reproduction, feeding behavior, habitat selection and migration, and social behavior. Prerequisite: Bi-102. Rec. 3, Cr. 3.

Bi-220: MARINE BOTANY - An introduction to the taxonomic, physiological, chemical, and ecological aspects of

Eg-392: DIESEL POWER II - Continuation of material from Eg-292, with emphasis on theory and operation of air intake systems, fuel injection systems, governors, and lubrication systems. Characteristics of available lubricants and factors affecting lubrication and combustion are covered in detail. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisite: Eg-292 or Yt-102. Rec. 2, Lab. 2, Cr. 3.

Eg-400: SPECIAL TOPICS IN ENGINEERING OPERATIONS - An upper-level course in engineering operations and related topics. Topics to be determined based on student or faculty proposals. Prerequisites to be determined based on course level and content or approval of department chair and instructor. Cr. 1-3.

Eg-422: STEAM POWER SYSTEMS II - Covers operations, testing, and components of steam power plants through lectures and laboratories that include work with a steam plant simulator and an operating steam plant. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisites: Eg-382, and Et-371 or Es-371. Rec. 2, Lab. 2, Cr. 3.

Eg-426: STATIONARY DIESEL POWER SYSTEMS - A study of diesel engine principles, construction, and operation with concentration on diesel engines used for power generation. Rec. 2, Lab. 3, Cr. 3.

Eg-431: GAS TURBINES - The design, operation, and maintenance of marine and industrial gas turbines and their systems. Prerequisites: Et-211 and Eg-321. Rec. 3, Cr. 3.

Eg-442: ADVANCED WELDING - The theory and practice of specialized types of welding such as tungsten inert gas, aluminum, and pipe welding. Includes specialized fabrication problems encountered aboard ship. Prerequisite: Eg-243. Lab. 3, Cr. 1.

Eg-481: MARINE REFRIGERATION AND AIR CONDITIONING - Refrigeration processes encountered in the marine field and industry. Includes the design, operation, and maintenance of the principal refrigeration cycle components, reciprocating and rotary centrifugal compressors, and the refrigerants used. Prerequisite: Et-211 or Es-251. Rec. 2, Lab. 1, Cr. 2.5.

Eg-491: DIESEL POWER III - A review of marine diesel engines of all types including the design, operation and maintenance, indicator card analysis, and emergency repair of large diesel engines. Prerequisite: Eg-392. Rec. 2, Lab. 2, Cr. 3.

Eg-492: DIESEL POWER III (NO LAB) - A review of marine diesel engines of all types including the design, operation and maintenance, indicator card analysis, and emergency repair of large diesel engines. Prerequisite: Eg-392. Rec. 2, Cr. 2.

Eg-495: DIESEL ENGINE FUNDAMENTALS - Designed to give the deck officer an understanding of the operation and theory of diesel machinery. Rec. 3, Cr. 3.

Eg-497: POWER ENGINEERING OPERATIONS CAPSTONE I - The course will introduce concepts of power plant operations, which build on previous PEO curriculum material. This will include fossil power plant operations and technologies, electrical grid operation and current topics of interest in the power generation industry. This course is a communications intensive course. Prerequisites: Eg-382 and Eg-431. Rec. 3, Lab. 2, Cr. 4.

Eg-498: POWER ENGINEERING OPERATIONS CAPSTONE II - The course will develop concepts of power plant operations, which build on previous PEO curriculum material. This will include combined cycle power plant operations and technologies, environmental considerations, professional ethics and current topics of interest in the power generation industry. This course is a communications intensive course. Prerequisite: Eg-497. Rec. 3, Lab. 2, Cr. 4.

ENGINEERING

Es-180: ENGINEERING DESIGN I - A first course in "structured" conceptual design of engineering systems. Lectures emphasize methods of creating alternate approaches to solve a given "open ended" engineering problem, and identifying the most promising solutions. This communications intensive course includes a conceptual design project and simple computer application. Students will work in design teams devising, evaluating, and defending a feasible solution to a design problem. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisite: Cs-150 or taken concurrently. Rec. 2, Cr. 2.

Es-205: ENGINEERING STATICS - The study of forces applied to structures. Includes an introduction to vector mechanics,

static equilibrium, two and three-dimensional force systems, distributed forces, and friction. Structures studied include trusses, frames, and beams. Prerequisites: Ms-110 or Ms-150 and Ps-102 or Ps-162. Rec. 3, Cr. 3.

Es-235: ENGINEERING STRENGTH OF MATERIALS - A study of stresses and strains in structures due to tension, compression, shear, torsion, bending, and combined stresses. Stress transformation and introduction to three-dimensional stresses. Applications include beams, columns, and indeterminate structures. Prerequisite: Es-205. Rec. 3, Cr. 3.

Es-245: ENGINEERING FLUID MECHANICS - An engineering-level extension to Et-201 Fluid Power. Topics include fluid statics and dynamics as applied to ship stability, series and parallel pipe flow, open channel flow, and inviscid flow around solid objects. Application of curve fits and dimensional analysis to experiment design and data reduction. Prerequisites: Et-201, Es-205, Ms-252. Rec. 3, Cr. 3.

Es-251: ENGINEERING THERMODYNAMICS I - Introduction to thermodynamic properties, phases, and processes and the concepts of energy, work, and heat. The First and Second Laws of Thermodynamics are developed. Entropy and availability are developed through Second Law analysis. Computer application and problem solving are emphasized and design and open-ended problems are presented as design experiences. Prerequisites: Ms-110 or Ms-150, Ps-102 or Ps-162, and Cs-150. Rec. 3, Cr. 3.

Es-352: ENGINEERING THERMODYNAMICS II - Engineering applications of the First and Second Laws of Thermodynamics, entropy and availability to the following topics: analysis of power and refrigeration cycles, gas mixtures, psychometrics and flow through nozzles, and blade passages, and combustion processes. Heat transfer principles are introduced. Engineering design and computer applications are emphasized. Prerequisites: Es-251, Ms-120 or Ms-160, and Ps-201 or Ps-261. Rec. 3, Cr. 3.

Es-371: ENHANCED ELECTRICAL POWER I - An expanded version of Et-371, for students planning to take the Engineering-in-Training (EIT) examination. Includes additional topics in AC and DC circuit theory, transient analysis in DC circuits, Norton's and Thevenin's Theorems, loop current and node voltage analysis, and complex notation analysis of AC circuits. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisites: Ps-201 or Ps-261, Ms-110 or Ms-150. Rec. 3, Lab. 2, Cr. 4.

Es-380: ENGINEERING DESIGN II - A second course in engineering design, integrating "engineering science" to design the optimum embodiment of a selected concept. Topics and techniques discussed include sensitivity analysis, engineering project management, cost estimation and reduction, design for assembly, and design for reliability/maintainability. This communications-intensive course includes computer modeling and analysis and a significant design project. Prerequisites: Es-180, Cs-150, Ms-252; or consent of instructor. (Students are expected to have completed or to be taking Et-230/Es-235 and Es-245 concurrently.) Rec. 3, Cr. 3.

Es-400: SPECIAL TOPICS IN ENGINEERING - An upper-level course in engineering design or related topics. Topics to be determined based on student or faculty proposals. Prerequisites to be determined based on course level and content or approval of department chair and instructor. Cr. 1-3.

Es-420: ENGINEERING DYNAMICS - A vector-based study of linear and angular kinematics, linear and angular kinetics, energy methods, impulse, momentum and kinetics of simple three dimensional motions. Prerequisites: Es-205 and Ms-260. Rec. 3, Cr. 3.

Es-425: ENGINEERING DYNAMICS II - An upper-level course in engineering mechanics. Topics include a detailed study in the kinematics and kinetics of a rigid body, vibration theory, Lagrangian mechanics, and the Hamiltonian function. Application of these techniques to the solution of practical engineering problems will be emphasized. Prerequisite: Es-420. Rec. 3, Cr. 3.

Es-430: MACHINE DESIGN - Application of the basic concepts of engineering statics, strength of materials, and dynamics to the design of machine elements. Analytical and empirical techniques are presented for the design and analysis of a variety of mechanical components including fasteners, springs, bearings, gears, shafts and couplings. Lubrication principles are introduced through bearing analysis. Prerequisites: Es-235 and Es-420 or permission of the instructor. Rec. 3, Cr. 3.

Es-490: NUMERICAL AND COMPUTER METHODS FOR ENGINEERING - A variety of numerical algorithms and techniques which may be employed in the solution of engineering problems. Topics may include solution of nonlinear equations, zeroes of polynomials, interpolation and approximation, curve fitting, numerical differentiation and integration, matrix manipulations, linear simultaneous equations, solution of first and higher order (and systems of) differential equations, finite difference approximation for derivatives, and mathematical modeling. Prerequisites: Cs-150, Ms-252; Es-380 (concurrent). Rec. 3, Cr. 3.

Es-491: INTRODUCTION TO RELIABILITY ENGINEERING - This course investigates the relationship between design, manufacture, and the likelihood of failure at the component and system levels. Topics include a study of reliability mathematics, reliability testing, risk analysis, human factors, design of experiments, and reliability management. Application of these techniques to the solution of marine systems problems will be emphasized. Prerequisites: Es-380 and Ms-260. Rec. 3, Cr. 3.

Es-501: ENGINEERING MATERIALS - An introduction to the structure and structural characteristics of materials used in engineering, including metallic alloys, ceramics, polymers, and composites. Methods of processing are emphasized. Prerequisites: Et-230 or Es-235 and Ch-301 or Ch-352. Rec. 3, Cr. 3.

Es-510: ENGINEERING TEST LABORATORY - A laboratory experience through which students learn the basics of engineering testing. This communications-intensive course includes experiment design, instrument selection and calibration, data collection, analysis of data, and report writing and presentation. Prerequisites: Es-235, Es-245, Es-251. Lab. 3, Cr. 2.

Es-520: APPLICATIONS IN ENGINEERING PROGRAMMING - An upper-level course in engineering programming. This course introduces engineering students to solving complex engineering problems using computational tools. General computational and numerical techniques are explored using Matlab computational software. Other programming tools will also be utilized when appropriate. Implementation of numerical integration, numerical control, data acquisition, filtering and FFT's, FEA, CFD and CNC applications may comprise topics for this course. Prerequisite: Es-490. Rec. 3, Cr. 3.

Es-598: CAPSTONE DESIGN PREPARATION - Preparation for the major design project required in the final semester of all Marine Systems Engineering students. Each student or student team will work with an engineering faculty member to select a problem, collect reference materials, develop design objectives and specifications, select a design approach and methodology, and devise a detailed project plan. This course is communications intensive. (In special cases, course requirements may be satisfied through independent study.) Prerequisite: Marine Systems Engineering final year status or permission of the major Coordinator. Rec. 1, Cr. 1.

Es-599: CAPSTONE DESIGN PROJECT - A communications-intensive project course in which the student, individually or as part of a team, applies his/her knowledge of engineering operations, engineering science, engineering design, and technical communications to analyze and create, communicate, and defend design solutions to an open-ended problem of practical interest approved by an engineering faculty member. Prerequisite: Es-598. Rec. 1, Cr. 3.

ENGINEERING TECHNOLOGY

Et-101: GRAPHICS - Study and practice in lettering, use of tools, methods of geometric construction, multiview projection, orthographic representation, and delineation applied to marine technology and engineering. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Rec. 2, Lab 2, Cr. 3.

Et-201: FLUID POWER - An introduction to applied fluid mechanics, including properties, hydrostatic pressure, flow and pressure, flow and pressure measurements, forces on areas, continuity equation, Bernoulli and general energy equations, analysis of piping systems for losses, and pump selection. These principles are applied to a variety of typical engineering problems in fluid systems. This course is designed to develop each student's ability to analyze engineering problems. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisites: Ms-101 and Cs-150 (or equivalent). Rec. 2, Lab. 2, Cr. 3.

Et-202: STATICS AND DYNAMICS - Study of static force systems, equilibrium, friction, and moments, and their application to structures, including trusses. Also includes study of simple dynamic systems, including kinematics of rectilinear and angular motion, force and inertia, work, energy, and power, the basics of oscillatory motion, and impulse and momentum. Prerequisites: Ms-110 or Ms-150, Ps-102 or Ps-162. Rec. 4, Cr. 4.

Et-211: THERMODYNAMICS I - An introduction to heat and work processes that covers units, properties, energy, and the first and second laws of thermodynamics applied to ideal gas and steam processes. Prerequisite: Et-201. Rec. 3, Cr. 3.

Et-212: THERMODYNAMICS II - Power and refrigeration cycles, heat transfer, and contemporary problems in energy conversion. Prerequisite: Et-211. Rec. 2, Lab. 2, Cr. 3.

Et-230: STRENGTH OF MATERIALS - Study of stresses and strains produced in materials due to tension, compression, shear, and torsion. Prerequisite: Et-202. Rec. 3, Cr. 3.

Et-351: THERMO/FLUIDS LABORATORY - Experiments in thermodynamics, heat transfer, and fluid mechanics, standard experimental techniques, data analysis, and report writing. Communications intensive. Prerequisite: Et-211. Lab. 3, Cr. 2.

Et-362: NATURE AND PROPERTIES OF MATERIALS - This course introduces materials used in engineering applications along with guidelines for determining the appropriate materials for a given application. It also introduces fundamental science that determines the properties of materials, such as bonding types and atomic/molecular structures. Mechanical and physical properties of materials will be examined in the lectures and in laboratory exercises. Includes standard experimental techniques, mechanical and computerized data acquisition and analysis, and report writing. Communications intensive. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisites: Ch-301, Et-230, and Et-452. Rec. 2, Lab. 2, Cr. 3.

Et-371: ELECTRICAL POWER I - Extension of electromagnetic principles to AC and DC circuits, including balanced three-phase AC, and their application to the analysis of DC and AC circuits. Includes meters, transformers, batteries, and three-phase AC. Introduction to practical operation of shipboard and industrial electrical systems. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisite: Ps-201 or Ps-261. Rec. 3, Lab. 2, Cr. 4.

Et-377: ENGINEERING ECONOMICS - A study of economic theories and principles as applied to engineering decision making. It includes methods of compound interest, annual worth, and present worth, rate of return, benefit/cost ratio, capital allocation, depreciation, and risk analysis. Other topics will include revenue requirements, price level changes, and minimum attractive rate of return. Rec. 3, Cr. 3.

Et-378: COMPUTER APPLICATIONS FOR POWER - A practical study of typical engineering software used in industry. Examples include the use of spreadsheet for economic studies, computer aided drafting, power plant controls, moving data from one analysis to another, and special topics chosen by the instructor. Prerequisite: Cs-150. Rec. 2, Lab. 3, Cr. 3.

Et-390: ADVANCED TECHNOLOGY FOR SURFACE TRANSPORTATION SYSTEMS - A course covering high technology innovations in engines, electronics, and hydraulic systems as applied to modern road and rail vehicles, and including computerized vehicle management systems that optimize vehicle performance and handling. Prerequisites: Ps-201, Eg-392, and Et-371 or Es-371. Rec. 3, Cr. 3.

Et-399: SPECIAL TOPICS IN ENGINEERING TECHNOLOGY - An upper-level course in engineering technology and related topics. Topics to be determined based on student or faculty proposals. Prerequisites to be determined based on course level and content or approval of department chair and instructor. Cr. 1-3.

Et-401: AUTOMATION AND CONTROL - A study of principles and hardware for control and automation systems as applied to processes in marine and shoreside power plants. Media studied include pneumatic, hydraulic, mechanical, and electrical/electronic. Prerequisites: Eg-372, Ce-203 or Co-200 or Co-201 or Co-203. Rec. 3, Cr. 3.

Et-432: POWER CONTROL ELECTRONICS - Operational theory, applications and troubleshooting of basic electronic components used to control electrical power, including thermionic tubes, CRTs, diodes, transistors, SCRs and related components. Circuits studied include rectifiers, oscillators, amplifiers, inverters, stabilized power supplies, counters, sensors for speed, motion and position, logic circuits, memories and Bistable devices. Applications are taken from automation, AC and DC control circuits, battery charging systems and power supplies, microwave ovens, communications and digital logic and memory systems. Prerequisite: Eg-372. Rec. 3, Cr. 3.

Et-452: TECHNICAL COMMUNICATIONS - Extension of the theory and practice of communications tasks of a working engineer or technologist, including engineering proposals and reports; mechanism and process description; instructions, accident or casualty reports; technical specifications; and progress reports. Application of effective visual aids to both oral and written communications will be emphasized. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Rec. 3, Cr. 3.

Et-455: ENGINEERING ETHICS: CONCEPTS - A preparatory course for engineers in formulating decision-making guidelines and solving technical problems while considering ethical ramifications. Includes professionalism and codes of ethics as related to moral and virtue issues. Responsibility of engineers as well as risk safety and liability associated with decision-making processes as they affect the environment and societal norms are also included. Prerequisite: senior standing or permission of the instructor. Rec. 3, Cr. 3.

Et-482: HEATING, VENTILATION, & AIR CONDITIONING - A study of the components, functions, and operating principles of an air conditioning system with particular attention focused on the influence of temperature, humidity, and air motion as related to human comfort. Topics include psychometrics, air quality, capacity calculations for heat gain and loss, air distribution, and elementary refrigeration systems. Rec. 2, Cr. 2.

Et-498: POWER ENGINEERING TECHNOLOGY CAPSTONE I - A course in which the student, individually, applies his/her knowledge of computer methods, engineering operations, engineering science and technical communications to analyze, create, communicate and defend a written technical project. Additionally, the course will introduce concepts of power plant operations, which build on previous PET curriculum material. This will include fossil power plant operations and technologies, using a power plant simulator, electrical grid operation and current topics of interest in the power generation industry. This course is a communications intensive and computer intensive course. Prerequisites: Et-378, Eg-382 and Eg-431. Rec. 3, Lab. 2, Cr. 4.

Et-499: POWER ENGINEERING TECHNOLOGY CAPSTONE II - A course in which the student, individually, and as part of a team, applies his/her knowledge of computer methods, engineering operations, engineering science and technical communications to analyze, create, communicate and defend a written project. At least one formal presentation will be included in this project. Additionally, the course will develop concepts of power plant operations, which build on previous PET curriculum material. This will include combined cycle power plant operations and technologies, using a power plant simulator, environmental considerations, professional ethics and current topics of interest in the power generation industry. This course is a communications intensive and computer intensive course. Prerequisite: Et-498. Rec. 4, Lab. 2, Cr. 5.

GEOGRAPHY

Ge-200: WORLD REGIONAL GEOGRAPHY I - This course surveys the physical, economic, and historical patterns of the U.S., Canada, Latin America, Europe, Russia, and states of the former Soviet Union. Each of these regions will be explored with respect to landforms, resources, and cultures, as well as evolving economic and political systems. Rec. 3, Cr. 3.

Ge-210: WORLD REGIONAL GEOGRAPHY II - This course surveys the physical, economic, and historical patterns of the Middle East, North Africa, Asia, Japan, Australia, New Zealand, and the Pacific Islands. Each of these regions will be explored with respect to landforms, resources, and cultures, as well as evolving economic and political systems. Rec. 3, Cr. 3.

HUMANITIES AND COMMUNICATIONS

Hc-111: COMPOSITION - This course helps students develop a flexible writing process that can be applied to a variety of rhetorical situations. Critical thinking and argumentation are emphasized and basic research skills are introduced. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Rec. 3, Cr. 3.

Hc-112: HUMANITIES I - An interdisciplinary examination of the cultural roots of modern global society from the first civilizations through the middle Renaissance. Prerequisite: Hc-111. Rec. 3, Cr. 3.

Hc-151/152/153: BAND - A campus program that aims to promote music education for students who participate and perform as musicians in the college band. Active participation in band activities and written assignments in music will be required. Cr. 1. (Students may re-elect this course in two subsequent semesters to earn a total of 3 credits which would satisfy a humanities elective requirement.)

Hc-200: AMERICAN LITERATURE - A seminar course that will investigate major authors, themes, and works of American literature. Students will participate in class discussions and present individual projects. Rec. 3, Cr. 3.

Hc-211: HUMANITIES II - An interdisciplinary examination of the cultural roots of modern global society from the late Renaissance to the present. Prerequisite: Hc-111. Rec. 3, Cr. 3.

Hc-232: MANAGEMENT COMMUNICATION - Students apply basic writing skills to produce various types of business communication, such as short and long reports, letters of inquiry, transmittals, proposal preparation, and organization of information for oral presentation using modern technological communication systems. Prerequisite: Hc-111. Rec. 3, Cr. 3.

Hc-300: INDEPENDENT STUDY - An independent research project or course to be arranged between the instructor and advanced student pursuing a humanities minor. Regular seminar meetings and an extensive research project required. Prerequisite: permission of instructor and advisor. Rec. 3, Cr. 3.

Hc-311: TECHNOLOGY AND SOCIETY I - A survey of the history of technology and an examination of the impact of

inventions and innovations on Western society from ancient times to the present. Rec. 3, Cr. 3.

Hc-312: TECHNOLOGY AND SOCIETY II - An examination of the ethical and organizational impacts of technology on contemporary society. Course topics include ethical standards; the nature, sources and effects of technological change; the relationship of science to technology; the diffusion of technology; technology, energy and the environment; technology and the transformation of work; and the shaping and control of technology. The impacts of specific technologies, such as communication and medical technologies are also examined. Rec. 3, Cr. 3.

Hc-321: EXPERIENCE, HISTORY, AND ANALYSIS OF FILM - This course traces historical developments in film production (including types of framing, the introduction of camera motion, lens effects, the introduction of sound, etc.) and shows how these techniques lead to cinematic meaning. Rec. 3, Cr. 3.

Hc-331: SPECIAL TOPICS IN HUMANITIES - An upper-level course allowing students to pursue various topics in the humanities. Topics might include: thematic or imagistic studies, or work of specific genres, or individual authors, philosophers, composers and/or artists. Proposals may be student or instructor initiated. Prerequisites: Hc-112 and Hc-211 and approval of department chair and instructor. Rec. 3, Cr. 3.

Hc-333: BASIC DRAWING - This course helps students understand the language of drawing, a means of communicating literal or imaginative pictorial ideas. Students will develop a vocabulary for drawing, and learn how to accurately represent on paper what one sees. This course will stress learning about the power of line, and perspective on a 2 dimensional surface so the work tells the viewer what the artist wants to say and that the drawing aspires to be art rather than a diagram. Rec. 3, Cr. 3.

Hc-334: ETHICS AND SCIENCE - This course will examine a number of contemporary social issues that are scientific in nature and present ethical dilemmas. It begins by examining the nature of ethics and a description of an ethical dilemma. This is followed by readings that explore the development of three major ethical philosophies. While developing these ethical systems, the scientific background of several controversial issues is also examined. Students are then asked to propose solutions to the controversies using ethical reasoning and scientific fact. Topics will be current and varied. Prerequisites: Hc-111. Rec. 3, Cr. 3.

Hc-339: PHOTOGRAPHY - This course is an introduction to the art and science of photography. Primary emphasis is placed on photographic fundamentals and skill development in the use of the 35mm camera and in printing photographs in the black-and-white darkroom. Principles and essentials for users of digital technology are also included. Attention to composition is stressed. Rec. 3, Cr. 3.

HISTORY

Hy-260: AMERICAN HISTORY 1500 - 1877 - Beginning with early civilizations in North America, this course recounts the settlement of the continent, the colonial and revolutionary periods, the early national period, sectionalism, the Civil War and Reconstruction. Rec. 3, Cr. 3.

Hy-270: AMERICAN HISTORY 1877 TO THE PRESENT - This course examines both the internal growing pains of American society beginning in 1877 as well as the sometimes rocky U.S. rise to global power, tracing the country's initial reluctance to enter world affairs to its status, at the end of the twentieth century, as the cultural, political, and economic leader of the world – the last superpower. Rec. 3, Cr. 3.

Hy-300: PUBLIC HISTORY - This course looks at the presentation of historical information in popular culture. Through film, historical novels, museums, monuments, and web sites, students will examine the nature of the information provided and learn to critically evaluate the quality of what is presented. Prerequisite: Either Hy-210, Hy-220, Hy-260, Hy-270, or permission of the instructor. Rec. 3, Cr. 3.

Hy-310: CIVIL WAR AND RECONSTRUCTION - The American Civil War still stands as the most destructive in this nation's history. Resolving issues left untouched by the Declaration of Independence, the Revolutionary War, and the Constitution, the Civil War was a bitter and bloody fight to define and extend rights promised by the Founding Fathers. This course examines events leading to war, four years of armed conflict, and the Reconstruction period. Prerequisite: Either Hy-260, Hy-300, or permission of instructor. Rec. 3, Cr. 3.

Hy-335: THE ATLANTIC WORLD: 1400-1825 - The events and processes initiated by the Christopher Columbus's voyage in 1492 transformed the world. The Atlantic Ocean – obstacle, frontier, and highway – connected and continues to shape the cultures and societies created by this Columbian exchange. This course examines the circumstances of European encounters with Africa and America, beginning with European voyages of exploration through the abolition of the slave trade in the nineteenth century. Rec. 3, Cr. 3.

LIFELONG LEARNING

LI-101: 100 TON MASTER/MATE - For operating on Inland or Near Coastal Waters. The 90 Hour Captain's and Mate's License course combines classroom time with on the water practical training. The course is broken down into three modules: Rules of the Road, General Subjects and Navigation. Classroom time yields officer level training covering a broad range of topics, including hands-on chart work, and training in the use of reference materials. Seamanship, sea rescue maneuvers, emergency drill procedures, and performing USCG vessel inspections are also covered in the classroom. Prerequisites: Permission of the instructor. Rec. 2, Cr. 2.

LI-102: MARITIME SECURITY FOR MILITARY, FIRST RESPONDERS AND LAW ENFORCEMENT PERSONNEL - This two day course is designed to provide military, first responder and law enforcement personnel with an understanding of enhancements to security in the maritime arena and the unique circumstances and operational conditions that prevail therein. Those who successfully complete the course should better be able to undertake their duties and responsibilities in the port, maritime and intermodal context. Direct observation of Academy waterfront security procedures will enhance classroom lectures. Students who successfully complete the course will receive the relevant USCG approved course certificate. Prerequisite: permission of the instructor. Rec. 0.5, Cr. 0.5.

LI-103: VESSEL AND COMPANY SECURITY OFFICER COURSE - This three and one-half day course provides the information necessary to those who may be designated to perform the duties and responsibilities of a Company Security Officer and/or a Vessel Security Officer. Content includes the duties and responsibilities with respect to the security of a ship, for ensuring the development of a ship security assessment, for developing, implementing, maintaining and updating a Ship Security Plan, and for coordinating with Vessel, Company and Facility Security Officers. Those who successfully complete this course should be able to undertake the duties and responsibilities of a Vessel or Company Security Officer and will receive the relevant USCG approved course certificate for each position. Prerequisite: Permission of the instructor. Rec. 0.5, Cr. 0.5.

LI-104: FACILITY SECURITY OFFICER - This three and one-half day course provides the knowledge necessary to those who may be designated to perform the duties and responsibilities of a Facility Security Officer and in particular, the duties and responsibilities with respect to the security of a port facility, for ensuring the development of a Facility Security Assessment, for ensuring the development, implementation, maintenance, and updating of a Facility Security Plan and for coordinating with Vessel Security Officers and with Company Security Officers. Those who successfully complete this course should be able to undertake the duties and responsibilities as Facility Security Officer and will receive the relevant USCG approved course certificate. Prerequisite: Permission of the instructor. Rec. 0.5, Cr. 0.5.

LI-105: INTERNATIONAL MARITIME SECURITY LAW - This five day course examines the important and rapidly developing regime of maritime security in international law, with emphasis upon measures to combat the proliferation of weapons of mass destruction (WMD) as well as terrorism, piracy and other violent criminal acts in the maritime domain. A brief history of the subject will be followed by an exposition of the applicable principles of customary international law as these apply to Flag States and Coastal States as well as persons. The growing body of conventional international law and the international organizations involved in this development will be reviewed, as will the problems of and a variety of strategies for national enforcement of international maritime security law. Finally, the implications for the future of international maritime transport will be discussed. Prerequisite: Permission of the instructor. Rec. 1, Cr. 1.

NOTE:

Lifelong Learning ("LI") courses are offered through the [Office of Continuing Education](#).

LOGISTICS

Lo-200: IBL COOPERATIVE INDUSTRIAL FIELD EXPERIENCE - See Cooperative Education course listings.

Lo-301: BUSINESS LOGISTICS - An introduction to the field of business logistics and with a focus on inventory and its various components such as materials management, physical distribution, traffic management, warehousing, purchasing, inventory management, outsourcing, and logistics organization; an exposure to current trends and developments in logistics management. Also includes study of inventory management, including consideration of automated information and smart-buying techniques; distribution centers, warehousing, plant location, including optimization techniques and transport mode considerations. The course will serve as a complement to Lo-313 and a base for upper level logistics courses. Prerequisites: Cs-150, Ma-101 or Ma-211, and Ms-251 or Ms-253 or Os-203. Rec. 3, Cr. 3.

Lo-313: FREIGHT TRANSPORTATION - Theory and case analysis pertaining to modal, intermodal and multimodal freight transportation with coverage of road, rail, air and water modes of transportation. Course focuses on the role of transportation in the

logistics and supply chain processes including industry structure, capabilities, financial performance, key player analysis, and the contractual and pricing interface between shippers and carriers. Prerequisites: Cs-150, Ma-101 or Ma-211 or Ym-222, Ms-110 or Ms-150 or Ms-151, Ms-251 or Ms-253 or Os-203, and any one course in economics (Ec-102 or Ec-201). Rec. 3, Cr. 3.

Lo-334: GLOBAL PURCHASING AND MATERIAL HANDLING - Acquisition of necessary goods, materials and services in exchange for funds or other remuneration. Locating qualified vendors, seeking alternative sources, and negotiating favorable terms are considered. Emphasis is placed on contemporary and emerging strategic considerations such as partnering with suppliers to design, develop and service product lines, and establishment of long-term prime vendor contracts. Also includes study of the material handling and packaging for goods and materials in the warehouse, production operation, and related inbound and outbound transportation. Prerequisites: Cs-150, Lo-301, Ma-101 or Ma-211, Ms-110 or Ms-150 or Ms-151, and Ms-251 or Ms-253 or Os-203. Rec. 3, Cr. 3.

Lo-400: CO-OP EDUCATIONAL EXPERIENCE IN IBL - See Cooperative Education course listings.

Lo-411: LOGISTICS INFORMATION SYSTEMS - Introduction to the application of information technology in logistics organizations, roles of managers and staff professionals in developing and using information systems based on current and future technology. Includes using computer packages Microsoft Access, Microsoft Visio, Microsoft Map Point, and Microsoft Excel to solve logistics and transportation problems, and study of logistics related technologies using electronic data interchange and electronic identification systems. Prerequisites: Cs-150, Lo-301, Ma-101 or Ma-211, Ms-110 or Ms-150 or Ms-151, and Ms-251 or Ms-253 or Os-203. Rec. 3, Cr. 3.

Lo-422: INTERNATIONAL LOGISTICS - A study of the various components of international logistics system such as import/export procedures and documentation, international commercial and payment terms, world shipping markets, air and ocean freight management, third party logistics service providers, and cargo and financial risk management issues. Prerequisites: Cs-150, Lo-313, Ma-101 or Ma-211, Ma-403, Ms-110 or Ms-150 or Ms-151, and Ms-251 or Ms-253 or Os-203. Rec. 3, Cr. 3.

Lo-432: STRATEGIC SUPPLY CHAIN MANAGEMENT - The study of logistics and supply chain potential future shifts and the drivers for those changes. Explores current events in supply chain, structural issues, and development of future direction, options and alternatives with roles that current students may play in that environment including inter-firm logistics integration, planning, sourcing, production, order management, distribution, administration, and customer relations that can be strategically harnessed to leverage strategic competitive advantage across multiple companies. Includes integrated supply chain metrics and performance measurement. The case method will be used to provide experience in integrating material from this and prior courses in the International Business and Logistics program. Prerequisites: Cs-150, Lo-301, Lo-313, Lo-332, Lo-411, Ma-101 or Ma-211, and Ms-251 or Ms-253 or Os-203. Rec. 3, Cr. 3.

MANAGEMENT

Ma-101: INTRODUCTION TO BUSINESS & SUPPLY CHAIN MANAGEMENT - A foundation course that provides an overview of the fundamentals of business management in the context of global logistics and supply chain. It includes a conceptual framework for the managerial functions and challenges within and between companies in the creation and distribution of tangible goods, as well as the nature of contemporary business, current issues, and career opportunities. Rec. 3, Cr. 3.

Ma-211: FINANCIAL ACCOUNTING - An introduction to the preparation, use, and analysis of the four basic financial statements with an emphasis placed on the study of various financial transactions. Rec. 3, Cr. 3.

Ma-222: MARKETING MANAGEMENT - Focuses on the process of creating and fulfilling consumer and organizational needs through strategies involving the conception, pricing, promotion and distribution of ideas, goods and services in a market economy. The interrelationship of planning and marketing is explored throughout the course. Prerequisites: Ma-101 or Ym-222 and any one course in economics (Ec-102 or Ec-201), or by permission of instructor. Rec. 3, Cr. 3.

Ma-242: MANAGERIAL ACCOUNTING - An introduction to management decision making involving such topics as: cost/volume relationships, budgets and variances, the allocation of costs, and job costing and process costing. Prerequisite: Ma-211. Rec. 3, Cr. 3.

Ma-303: FINANCIAL MANAGEMENT - An introduction to the study of asset pricing, risk management, project evaluation, and debt and dividend policies. Prerequisites: Cs-150, Ma-101 or Ma-211; Ms-110 or Ms-150 or Ms-151; and Ms-251 or Ms-253 or Os-203. Rec. 3, Cr. 3.

Ma-312: PRODUCTION AND OPERATIONS MANAGEMENT - Building and managing world-class operations through Total Quality Management; designing, building, planning, and controlling Fast Response Organizations including demand management,

process design, capacity strategy, facility location and layout, inventory management, performance measurement, and global enterprise integration. Prerequisites: Cs-150, Ma-101 or Ma-211, Ms-110 or Ms-150 or Ms-151, and Ms-251 or Ms-253 or Os-203. Rec. 3, Cr. 3.

Ma-332: BUSINESS LAW - Course will examine elements of business law including its ethics and the U.S. judicial system. Topics to be covered include contract and employment law, business regulations, and corporate governance issues, and related case studies. Prerequisites: Cs-150, Ma-101 or Ma-211, Ms-110 or Ms-150 or Ms-151, and Ms-251 or Ms-253 or Os-203. Rec. 3, Cr. 3.

Ma-342: INTERNATIONAL HUMAN RESOURCE MANAGEMENT - Students examine the challenges in managing and motivating a multicultural work force in the globally interconnected economy. Topics such as legal, cross-cultural issues, motivation, job analysis, recruitment, staffing, performance appraisal, and compensation systems are explored. Prerequisites: Cs-150, Ma-101 or Ma-211 or Ym-222, Ms-110 or Ms-150 or Ms-151, and Ms-251 or Ms-253 or Os-203. Rec. 3, Cr. 3.

Ma-401: ORGANIZATIONAL BEHAVIOR - This course introduces students to the processes and stakeholders that characterize and create the dynamics of contemporary organizational life. Topics such as organizational culture, conflict, group interaction, and structure are addressed from both a theoretical and "real world" perspective. Relevant case studies are considered to develop and broaden insight and analytical skills that are vital to manage, navigate, and lead organizations through change and growth. Prerequisites: Cs-150, Lo-400, Ma-101 or Ma-211, Ms-110 or Ms-150 or Ms-151, and Ms-251 or Ms-253 or Os-203, or by permission of instructor. Rec. 3, Cr. 3.

Ma-403: INTERNATIONAL BUSINESS - An introductory survey course to doing business globally. Course will focus on country differences, theories and issues in cross-border trade and investment, and global monetary system and competing in the global marketplace, with special emphasis on entry strategies and modes. Prerequisites: Cs-150, Ec-201, and Ma-303. Rec. 3, Cr. 3.

Ma-421: INTERNATIONAL MARKETING - This course focuses on the theory and practice of marketing across national borders with special emphasis on the development of appropriate marketing strategies that target a country or countries within a selected region of the world. Students review historical, cultural, technological, risk and security, and socioeconomic variables that influence marketing decision-making. The course involves a final integration project and presentation based on case study and review of the region that is under consideration. Prerequisites: Cs-150, Ma-101 or Ma-211, Ma-222, Ms-110 or Ms-150 or Ms-151, Ms-251 or Ms-253 or Os-203, or by permission of instructor. Rec. 3, Cr. 3.

Ma-422: INTERNATIONAL BUSINESS LAW - The role of law in transnational commerce; traditional business law subjects (sales, commercial paper, etc.) as well as environmental subjects (trade regulations, employment, ethics, and others) are studied to assist managers in competing successfully in competitive global markets through development of skills to make judgments about the political and business risk of doing business internationally. Prerequisites: Cs-150, Ma-101 or Ma-211, Ma-332, Ma-403, and Ms-251 or Ms-253 or Os-203. Rec. 3, Cr. 3.

Ma-470: FREE ENTERPRISE SERVICE LEARNING - A community outreach program that aims to promote free enterprise and business principles while enhancing written and oral communication, leadership, self-discipline, and teamwork skills. Will provide hands-on learning experience for students in business and economics, and also opportunities to network with local and national business leaders. Students in Free Enterprise involvement and project team participation required. Cr. 0.5-4.

Ma-498: SPECIAL TOPICS IN INTERNATIONAL BUSINESS AND LOGISTICS - A course allowing students to pursue advanced topics of international business and logistics not offered in the curriculum. Topics of study will depend on the interests of the student and supervising faculty member(s). Approval by Department Chair is required. Cr. 1-3.

MEDICINE

Md-310: BASIC SHIPBOARD MEDICINE - A study of the assessment, recognition and treatment of various diseases and injuries that may be encountered in the workplace. This course includes first aid, CPR and blood borne pathogens. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Rec. 3, Cr. 3.

Md-311: MEDICAL PERSON-IN-CHARGE (ADVANCED SHIPBOARD MEDICINE) - A course including didactic and mostly practical skills. Included will be IVs, medication administration, skeletal and spinal immobilization. Prerequisite: Md-310. Rec. 3, Cr. 3.

Md-312: EMERGENCY MEDICAL TECHNICIAN - A 120-hour course which follows the DOT curriculum. This course meets

twice a week and 4 complete weekend days. This course includes didactic and practical skill instruction. Upon successful completion of the course the student may take the NREMT national boards which would allow the student to apply for a Maine State EMS license to work as an EMT-B on an ambulance. Text and completion of associated workbook are required. Rec. 6, Cr. 5.

MATHEMATICS

Ms-101: PRE-CALCULUS MATHEMATICS - Includes linear and quadratic equations, inequalities, simultaneous linear equations, matrices, graphs, composite and inverse functions, logarithmic and exponential functions, complex numbers and the complex plane, basic trigonometry, and trigonometric identities and equations. Rec. 4, Cr. 4.

Ms-102: PRE-CALCULUS, PART I - Part 1 of a 2-part pre-calculus sequence. Includes linear and quadratic equations, inequalities, complex numbers, and basic trigonometry. To be followed by Ms-103. Rec. 3, Cr. 2.

Ms-103: PRE-CALCULUS, PART II - Part 2 of a 2-semester pre-calculus sequence. Includes graphs, composite and inverse functions, simultaneous linear equations, matrices, logarithmic and exponential functions, and trigonometric identities and equations. Prerequisite: Ms-102. Rec. 3, Cr. 2.

Ms-110: TECHNICAL CALCULUS I - Differential and integral calculus of algebraic and transcendental functions; applications, including physical problems, graphing and optimization; and basic integration, indefinite and definite integrals. Prerequisite: Ms-101 or equivalent. Rec. 4, Cr. 4.

Ms-120: TECHNICAL CALCULUS II - A second course in calculus, covering further techniques of integration, calculus of transcendental functions, functions of several variables, infinite series, and an introduction to ordinary differential equations. Prerequisite: Ms-110. Rec. 4, Cr. 4.

Ms-141: FINITE MATHEMATICS - A course designed to develop the mathematical skills considered important for business students and prepare them for business calculus. Topics include: algebra review, linear functions, systems of linear equations and matrices, linear programming, the mathematics of finance, logic, sets, elementary probability and statistics, game theory, digraphs and networks, and nonlinear functions. Rec. 4, Cr. 4.

Ms-150: CALCULUS I - Functions, analytic geometry, limits, continuity, derivatives of algebraic functions and applications; study of graphs maxima and minima, methods of approximation; and elementary integration, indefinite and definite integrals. Rec. 4, Cr. 4.

Ms-151: BUSINESS CALCULUS - A course designed to develop the mathematical skills considered important for business students. The primary emphasis is on the calculus for functions of one variable and its applications. Note: It is recommended that students planning to pursue graduate studies or those on an NROTC scholarship should take Ms-150. Prerequisite: Ms-101 or equivalent. Rec. 4, Cr. 4.

Ms-160: CALCULUS II - Applications of the integral, advanced methods of integration, analytic geometry, the calculus of transcendental functions, improper integration, conics and polar coordinates, and the introduction of infinite series and the calculus of several variables. Prerequisite: Ms-150 or permission of the Mathematics Coordinator. Rec. 4, Cr. 4.

Ms-251: PROBABILITY AND STATISTICS FOR ENGINEERING AND SCIENCE - An introductory, calculus-based course in probability and statistics with an emphasis on engineering and scientific applications. Topics include: descriptive statistics; probability (basic probability and discrete and continuous random variables and their distributions); point and interval estimation; hypothesis testing of sample means, proportions, and variances; regression models; use of statistical software. Applications will include reliability and experimental design. Prerequisites: a Computer Science course or evidence of computer literacy, and Ms-150. Rec. 3, Cr. 3.

Ms-252: ENGINEERING MATHEMATICS I - An introduction to applied mathematics useful in applied science and design engineering. Topics include infinite series formation, both functional and numerical, in pursuit of non-analytical solution, numerical techniques with emphasis on error analysis, vector calculus and linear algebra. Applications include, but are not limited to, chemical reaction, electrical circuits, curvilinear regression for experimental data, oscillatory systems, fluid force, coupled systems and mathematical modeling of dynamic systems. Use of computer generated solution is encouraged. Prerequisite: Ms-120 or Ms-160. Rec. 4, Cr. 4.

Ms-253: STATISTICS FOR BUSINESS AND MANAGEMENT - An introductory, algebra-based course in statistics with an emphasis on business and managerial applications. Topics include descriptive statistics; basic probability and random variables; point and interval estimation; hypothesis testing of sample means and proportions; linear regression and correlation; and use of

statistical software. Applications will include decision making, quality management, statistical process control, and time-series forecasting models. Prerequisite: a Computer Science course or evidence of computer literacy. Rec. 3, Cr. 3.

Ms-260: DIFFERENTIAL EQUATIONS - A first course in ordinary differential equations with emphasis on analytic solution. Topics include existence and uniqueness of solution, first order equations, linear and selected nonlinear higher order equations, and solution by Laplace transforms, numerical solution and introduction to solution by series. Applications selected from mechanics, biology, thermodynamics, resonance, electrical networks, automatic control and servomechanisms, epidemiology and ecology. Mathematical formulation and design are stressed in all applications. Prerequisite: Ms-120 or Ms-160. Rec. 3, Cr. 3.

Ms-299: SPECIAL TOPICS IN MATHEMATICS - A course allowing a student to pursue topics or sequences of topics not otherwise offered. Proposals are to be student initiated, in consultation with an instructor. Prerequisite: Department and instructor approval. Rec. 1-3, Cr. 1-3.

Ms-420: GEOPHYSICAL FLUID DYNAMICS - Formulation and study of mathematical models applicable to geophysical fluid dynamics. Development of differential and integral equations of mass, momentum and energy conservation for viscous fluids in a rotating frame. Topics include perturbation theory, canonical transformations, tensor analysis, linearization, LaGrange's equations and state vectors and operators. Knowledge of vector calculus is preferred. Prerequisite: Ms-260. Rec. 3, Cr. 3.

Ms-451: ENGINEERING MATHEMATICS II - A second course in applied mathematics for applied science and design engineering students. Topics include review of eigenvectors, eigenvalues and orthogonality, Taylor series method, Picard's method of iteration, method of Frobenius, Bessel's equation, Legendre's equation, Sturm-Liouville problems, Fourier series and analysis, Gram-Schmidt orthonormalization and self-adjoint differential equations. Partial differential equations such as the heat equation, wave equation and potential equation are formulated using basic physical principles and brought to solution. The Laplacian in rectangular, cylindrical and spherical coordinates is investigated. Application to design analysis and dynamical systems is stressed. Prerequisites: Ms-252 and Ms-260. Rec. 3, Cr. 3.

NAUTICAL SCIENCE

Ns-101: INTRODUCTION TO NAUTICAL SCIENCE - An introduction to nautical science which covers basic skills that would put the student at the able bodied seaman level of knowledge and prepare the student for the U.S. Coast Guard lifeboat examination. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Rec. 2, Lab. 2, Cr. 2.

Ns-102: SHIP STRUCTURE - An introduction to ship construction as it relates to all types of vessels. Basic naval architecture and management functions regarding ship structure are stressed. Topics include hull structure and components, vessel design process, design stresses, tonnage measurements, and load line assignment. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisites: Eg-101 and Ns-101. Rec. 3, Cr. 3.

Ns-122: CARGO I - A study of vessel cargo and the role of the ship in integrated transportation systems. At the introductory level topics include cargo responsibility, fundamental objectives of good stowage, and a survey of cargo gear. The role of the ship's officer is examined and related to various types of vessels and cargo operations. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Rec. 3, Cr. 3.

Ns-131: INTRODUCTION TO MARINE TRANSPORTATION - A current overview of the maritime industry, what it consists of, how it operates, how it is characterized economically, and how it is regulated. Rec. 3, Cr. 3.

Ns-210: TANKER OPERATIONS - This course meets the USCG formal education requirements for Dangerous Liquid Cargo Person In Charge (PIC) (46cfr 13.209) and Tankerman Engineer (46 cfr 13.509). Successful completion of this course will lead to the issuance of the Dangerous Liquid Cargo Certificate and credited with 1 load & 1 discharge toward the Tankerman PIC endorsement. The presentations will highlight areas of principal concern to the junior officers, especially those necessary to minimize the possibility of accidents and pollution. Included are a detailed study of cargo handling procedures, inert gas systems and crude oil washing, and other areas associated with tank vessel operations. Rec. 3, Lab. 2, Cr. 4.

Ns-221: METEOROLOGY - Basic concepts of meteorology with particular emphasis on marine applications. This includes a study of ocean winds and weather with the plotting and analysis of weather maps, weather routing of ships, and familiarization with the various Weather Bureau publications and services. This course supports the marine license program requirements to meet the

Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Rec. 3, Cr. 3.

Ns-241: SEAMANSHIP - Seamanship refers to a body of practical knowledge that is essential to creative solutions at sea, as well as to routine shipboard operations. Through labs and lectures the student will be acquainted with the information and practical skills associated with rigging, mechanical advantage, deck equipment, hardware, maintenance, and line handling and safety procedures. The course includes material appropriate to functioning as an Able Bodied Seaman, as well as to efficiently organizing the work of others. Prerequisite: Ns-101. Rec. 2, Lab 2, Cr. 3.

Ns-262: NAVIGATION RULES I - The International and Inland Rules of the Road for preventing collisions at sea. This includes application, definitions, lights and shapes, steering and sailing rules with sound signals for vessels in meeting, crossing, and overtaking situations, and conduct of vessels in restricted visibility. Rec. 3, Cr. 3.

Ns-271: TERRESTRIAL NAVIGATION I - An introductory navigation course intended for all students pursuing a license for any tonnage class. The rudiments of navigation are covered in lecture format. Topics include: charts, plotting tools and techniques, dead reckoning, gyro and magnetic compasses and their errors, fixes and running fixes, set and drift, tidal and current calculations, navigation publications, and chart correcting and piloting with electronic navigation instruments. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Rec. 3, Cr. 3.

Ns-272: TERRESTRIAL NAVIGATION LAB - Weekly exercises aboard Academy watercraft and in the Academy's Bridge and Navigation Simulator allow the student to practice the skills taught in Ns-271. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisite: Must be taken concurrently with Ns-271. Lab 3, Cr. 1.

Ns-282: CELESTIAL NAVIGATION I - A celestial navigation course intended for students pursuing an unlimited Third Mate's license or an ocean endorsement for a limited tonnage license. This course will cover the basic practices of celestial navigation. Emphasis is placed on solutions of the various celestial navigation calculations involving the sun. Topics covered are: time from a navigational standpoint, essentials of nautical astronomy, time diagrams, the nautical almanac, sight reduction of the sun, time of celestial phenomena, local apparent noon, noon sights, azimuths, and amplitudes of the sun. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisites: Ns-271 and Ns-272. Rec. 4, Cr. 3.

Ns-292: ELECTRONIC NAVIGATION - Introduction to electronic navigation. Instruction in theory, practical operation, and use of R.F.D. Loran-C, GPS, and radio theory and operation of marine radar. Includes uses and interpretation of radar information, and radar plotting. Successful completion of the radar portion of this course and the follow-on course (Ns-498) leads to certification as Radar Observer as approved by the U.S. Coast Guard. Prerequisites: Must be taken concurrently with Ns-271 and Ns-272. Rec. 2, Lab. 2, Cr. 3.

Ns-301: STABILITY - Principles, terms, and procedures used in determination of transverse, longitudinal, and damage stability of ships of all sizes. Examines the physical laws affecting a floating body. Includes the effects of cargo operations, loose water, fuel consumption, grounding, and flooding on vessel stability and examines cases involving loss of stability. Calculating and adjusting trim are also covered. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisite: Ns-102 for MTO students; Yt-105 for SVO students. Rec. 3, Cr. 3.

Ns-321: WEATHER ROUTING - This course will build on the basics of meteorology learned in Ns-221, Meteorology. The student will learn to locate, organize and interpret various weather products from commercial and government sources, including facsimile maps, internet sites and commercial weather software. The student will utilize these products to plan and execute "virtual voyages" in real-time, making vessel routing decisions for chosen vessels on fictitious voyages. Prerequisite: Ns-221. Rec. 2, Lab 2, Cr. 3.

Ns-332: MARINE COMMUNICATIONS - This course offers a comprehensive study of the various maritime communications, stressing distress and safety communications including, but not limited to: radiotelephone procedures GMDSS FCC regulations, and flag and flashing light signaling. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisite: Ns-292. Rec. 2, Lab. 3, Cr. 3.

Ns-341: AUXILIARY SAIL VESSEL OPERATIONS - This course will prepare the student to sail as a deckhand or mate aboard an inspected auxiliary sail vessel, as well as to sit for the USCG Auxiliary Sail License Exam. (Sea experience will have to be documented by the student on his/her own time in order to qualify for the license.) The successful student who earns his/her license will be qualified to sail as mate or master on USCG certified auxiliary sailing vessels such as passenger vessels, charter vessels and training vessels. Subject areas will include sail theory, sail vessel handling, heavy weather sailing, rules and regulations, voyage planning and emergency procedures. Labs will take advantage of the academy-owned sailing yachts and the schooner *Bowdoin*, including one weekend cruise aboard the *Bowdoin*. Prerequisites: Ns-101, Pe-200, Ps-102 or permission of the instructor. Rec. 2, Lab 2, Cr. 3.

Ns-342: WORKBOAT OPERATIONS - This course provides a background in the operation and management of limited tonnage vessels, particularly those used in support of the offshore energy industry. Topics include vessel design, cargo operations, and vessel management. Lab sessions aboard the *M/V Pentagoet* require students to develop proficiency in all aspects of the vessel's operation. Emphasis is placed on advanced close-quarters maneuvering. Prerequisites: Ns-345. Rec. 2, Lab. 3, Cr. 3.

Ns-343: MODERN SAIL VESSEL TECHNOLOGY - This is a lab course which will introduce the student to modern rigging and sail making skills (including concepts and materials) and their application to professional sailors. Topics to be covered include: assembly and maintenance of double/exotic braid running rigging, leading edge sail construction methods and repair, selection of standing rigging, tuning of multi-spreader rigs, handling characteristics associated with rig tune, winches and furling systems, and spars, and safety while working aloft. Prerequisites: Ns-241 and Pe-200. Lab 6, Cr. 3.

Ns-344: TRADITIONAL VESSEL TECHNOLOGY - Through a mixture of lab and lecture, this course addresses the skills and the historical contexts which are part of maintaining and operating traditionally rigged sailing vessels in the present day. These skills include assembly and maintenance of wire and rope rigging, setting up and tuning this rigging, up-rigging and down-rigging of complex rigs safely, including sending heavy spars aloft, caulking wooden hulls and decks, spar making, block maintenance, working aloft, and general rig safety. Prerequisite: Ns-241. Lab 6, Cr. 3.

Ns-345: SHIP HANDLING - During this course, students will develop the knowledge and practical ability needed to be a boat and ship handler. Topics include propulsion systems, ship maneuvering, anchoring, docking and undocking, emergency situations, ship pilots, ship to ship interaction, channel effects and tug use. Classroom lecture, launch and tug use, as well as the shiphandling simulator are used to present the material. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Rec. 2, Lab. 3, Cr. 3.

Ns-381: TERRESTRIAL NAVIGATION II - A continuation of Terrestrial Navigation I. Students will study the Sailings and other material related to voyage planning. Additional topics include fuel consumption calculations, slip, calculating ETAs and tide and current predictions. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisites: Ns-271 and Ns-272. Rec. 4, Cr. 3.

Ns-382: CELESTIAL NAVIGATION II - An intermediate celestial navigation course intended as an elective, designed to enhance and broaden the student's understanding of celestial topics. Particular emphasis will be placed on the theory of celestial navigation. Extensive use will be made of the Kennaday Planetarium. Prerequisite: Ns-282. Rec. 2, Lab. 2, Cr. 3.

Ns-399: INDEPENDENT STUDY IN MARINE TRANSPORTATION AND NAUTICAL SCIENCE - Prerequisite: Permission of instructor. Cr. 1.

Ns-400: INDEPENDENT STUDY IN MARINE TRANSPORTATION AND NAUTICAL SCIENCE - Prerequisite: Permission of instructor. Cr. 3.

Ns-412: ADVANCED TANKER OPERATIONS - An elective course for deck or engine students planning to sail aboard tankers. Examines the theory, principles, and operation of inert gas and crude oil washing systems found aboard modern tankers. Successful completion of the course will lead to the credit of 2 loads & 2 discharges toward the Tankerman PIC endorsement. Prerequisite: Ns-210, or Et-201 and Eg-234. Cr. 3.

Ns-415: RMS TITANIC - The course will explore the history of the *RMS Titanic*, addressing in particular certain aspects of that history which offer lessons for today's mariner. This should give the student a better in-depth understanding of principles he or she is currently studying in other courses. Particular emphasis will be placed on Hollywood's treatment of the subject, bridge team management, lifeboats, stability, and ship's structure. This course will also address social responsibility issues. Rec. 3, Cr. 3.

Ns-420: SHIP'S BUSINESS - This course addresses the administrative aspect of the master's job aboard ship. Subject areas

include applicable U.S. Laws, international codes and conventions, vessel security, shipping articles, logbooks, documents and certificates, Customs and Immigration paperwork, cargo paperwork, charter parties, and dealing with domestic and foreign authorities. Rec. 3, Cr. 3.

Ns-421: HAZARDOUS MATERIALS HANDLING - A study of hazardous materials, chemicals, and substances that are encountered on nearly every worksite: what they are, how to identify them, and how they affect the body. The course progresses into how to work safely with and protect oneself from them, and to react to emergencies. Containment and clean up of spills is also discussed, as is medical surveillance and record keeping. Benzene hazards and petroleum spills and the regulatory requirements relating to them are given special attention. Rec. 3, Cr. 3.

Ns-461: CASUALTY ANALYSIS - Applications of navigation rules with emphasis on the analysis of selected cases and court interpretations. Emphasis on the safety implications of marine casualties as well as casualty management as it relates to applicable federal rules and regulations. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisite: Ns-262. Rec. 3, Cr. 3.

Ns-471: TUG AND BARGE OPERATIONS - Basic theory and practice on towing barges with a tug. Includes types of tugs and their functions, stability and design, towing theory, preparations for tows, interface with regulatory agencies, documentation and safety, and practical towing exercises. Prerequisites: Ns-271, Ns-272, and Ns-345. Rec. 1, Lab. 6, Cr. 3.

Ns-491: ADVANCED NAVIGATION - This course will integrate the components of terrestrial navigation and celestial navigation. Emphasis will be placed on the duties of the second mate. Preparatory instruction for U.S. Coast Guard licensing examinations will additionally take place in this course. Prerequisites: Ns-282 and Ns-381. Rec. 4, Cr. 3.

Ns-497: WATCHKEEPING LIMITED TONNAGE - This course makes extensive use of the simulator to prepare the student to stand a safe navigational watch, performing the required collision avoidance, navigation, communications, and vessel management functions. During the course students are trained and certified in the use of ARPA. Prerequisites: Cr-313, Ns-262, Ns-271, Ns-272, and Ns-292. Rec. 2, Lab. 2, Cr. 3.

Ns-498: WATCHKEEPING - Extensive use of simulator training will occur in this course. Particular emphasis will be placed on radar, ARPA, collision avoidance and bridge team management techniques. Successful completion of this course will result in certification as a Radar Observer as per USCG regulations. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisites: Ns-292, Ns-345, and Cd-203 or Cd-303. Rec. 2, Lab. 2, Cr. 3.

Ns-499: TOPICS IN MARINE TRANSPORTATION - An in-depth review of topics found on the U.S. Coast Guard Third Mate's examination. Mock examinations and quizzes are used extensively. Topics include seamanship, rules and regulations, stability, navigation rules, and ship's business. Rec. 4, Cr. 2.

NAVAL ARCHITECTURE

Na-152: SHIP STRUCTURE AND STABILITY - Presents the principles of naval architecture and their application to modern vessels. Describes the procedures used in the determination of ship characteristics; damaged and undamaged stability including topics like loose water, flooding and grounding; and typical ship construction and ship building procedures, tests, and ship's trials. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Rec. 3, Cr. 3.

Na-321: OFFSHORE TECHNOLOGY - An introduction to the offshore drilling industry. Topics include: structure of the industry, rig design and construction, sub-sea equipment, mooring and anchor handling, supply and logistics, drilling operations and equipment, and stability and loading. Prerequisite: Ns-301 or Na-152 or permission of instructor. Rec. 3, Cr. 3.

Na-372: NAVAL ARCHITECTURE I - Theory and practice of naval architecture, basic principles and design calculations; terminology, hull form geometry, buoyancy, intact and damaged stability and trim, ship strength and powering. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Prerequisites: Et-230 or Es-235, and Et-201 or Es-245. Rec. 3, Cr. 3.

Na-430: NAVAL ARCHITECTURE II - Ship dynamics. This course continues the development of naval architecture topics

including resistance and powering, seakeeping, and maneuvering. In parallel, students will develop a concept design for a small vessel based on a set of mission requirements. Prerequisite: Na-372. Rec. 3, Cr. 3.

NAVAL SCIENCE

Nv-100, 200, 300, 400: NAVAL LEADERSHIP LABORATORIES - A series of laboratories designed to provide student application of leadership techniques, and to prepare NROTC members for leadership positions in the U.S. Navy and Marine Corps. Lab. 2, Cr. 0 (each term).

Nv-101: NAVAL ORIENTATION - This course introduces the student to the organization of the U.S. Navy. It examines the historical development of the Navy, the development of sea power, and the application of sea power in the geopolitical world of today. The course also introduces the student to the career paths available in aviation, surface warfare, nuclear power, and the Marine Corps. An understanding of the responsibilities of a naval officer, the Navy's mission, general military information, and the applications of these concepts within the Navy are also stressed. Prerequisite: Nv-212 or equivalent with permission of Professor of Naval Science. Rec. 3, Cr. 3.

Nv-202: SEAPOWER AND MARITIME AFFAIRS - In this course, students study the influence of sea power, ships, and trade from colonial days to the present. Emphasis will be placed on American naval history since 1775, the evolution of ships from sail to steam, and the effects of war on seagoing America. Rec. 3, Cr. 3.

Nv-211: NAVAL WEAPONS SYSTEMS - This course provides an in-depth study of the theory and principle of operation of contemporary naval weapons systems. It includes coverage of weapon system types, capabilities and limitations, theory of target acquisition, identification and tracking, sonar, and basics of radar theory. Rec. 3, Cr. 3.

Nv-212: NAVAL SCIENCE FOR THE MERCHANT MARINE RESERVIST I - This course introduces the prospective Merchant Marine Reserve (MMR) officer to the organization of the U.S. Naval Service. It also teaches the varied career opportunities, the long-held customs and traditions of the Naval Service, the capabilities of the U.S. Navy, the duties of a junior officer and Navy policies on relative wellness issues. This course is also designed to begin preparing MMR midshipmen for their first experience onboard a Navy ship by imparting basic information concerning shipboard procedures. Prerequisite: Nv-101 or equivalent with permission of Professor of Naval Science. Rec. 3, Cr. 3.

Nv-222: NAVAL SCIENCE FOR THE MERCHANT MARINE OFFICER - A continuation of Nv-212, this course provides prospective Merchant Marine Reserve officers with a fundamental understanding of their role in our national security and familiarizes them with the basic principles and procedures for operating a merchant ship as a naval or military auxiliary in a wartime convoy or independent sailing situation. Specific shipboard techniques and the total sea power objectives will be explored to familiarize the student with particular aspects of naval control of shipping, underway operations, and a variety of organizational relationships. Prerequisite: Nv-101 or Nv-212. Rec. 3, Cr. 3.

Nv-301: NAVAL NAVIGATION - This course provides the student with the fundamental understanding and a practical working capability in safe navigation. Included are a comprehensive treatment of coastal piloting, inland and international rules of the road, and an introduction to meteorology as it pertains to heavy weather conditions at sea. Prerequisite; Ns-271 and Ns-272 or equivalent with permission of Professor of Naval Science. Rec. 3, Cr. 3.

Nv-302: NAVAL OPERATIONS AND SEAMANSHIP - This course familiarizes the student with the functions and responsibilities of the junior naval officer in the areas of shipboard operations and administration. Included are a comprehensive study of relative motion, naval communications, ship operations, formation maneuvering, replenishment at sea, and naval command and control. Rec. 3, Cr. 3.

Nv-310: THE EVOLUTION OF WARFARE - This course traces the development of warfare from the dawn of recorded history to the present, focusing on the impact of major military theorists, strategists, tacticians and technological developments. The student acquires a basic sense of strategy, develops an understanding of military alternatives, and learns the impact of historical precedent on military thought and action. Rec. 3, Cr. 3.

Nv-401: LEADERSHIP AND MANAGEMENT - Naval organization and management practices are examined within the context of American social and industrial organization for logistics, service, support functions, and service of major components of the Navy and Marine Corps shipboard organization. Rec. 3, Cr. 3.

Nv-402: LEADERSHIP AND ETHICS - The purpose of this course is to sharpen the student's understanding of some important issues about morality and to develop moral reasoning ability. The course integrates an intellectual exploration of Western moral traditions and ethical philosophy with topics and issues confronting newly commissioned officers as military leaders. The

course provides a foundation in major moral traditions, including Utilitarianism, Kantian ethics, Constitutional Law, Natural Law theory, and virtue ethics. In addition, students will discuss the ethics of war through discussions of the Just War Theory (*Jus Ad Bellum*) and the Conduct of War (*Jus Ad Bello*). Readings will be from various fields, including leadership, ethics, philosophy, theology, and law and will be enhanced through case studies, video segments, and current issues in the news. It is recommended that students be in their junior or senior year; however they need not be in the NROTC program. Rec. 3, Cr. 3.

Nv-410: AMPHIBIOUS WARFARE - A historical survey of the development of amphibious doctrine and the conduct of amphibious operations. Emphasis is placed on the evolution of amphibious warfare in the 20th century, especially during World War II. Present day potential and limitations on amphibious operations, including the rapid deployment forces concept, are explored. Prerequisite: Nv-310 or instructor permission. Rec. 3, Cr. 3.

Nv-442: NAVAL SCIENCE FOR THE MERCHANT MARINE RESERVIST II - This course is designed to familiarize the prospective Ensign with naval policies, procedures, protocols, and responsibilities as they relate to the Merchant Marine Reserve (MMR) Program. Included are a comprehensive discussion of commissioning responsibilities, planning for and completing the first annual training, and the operation and mission of the MMR Program. Prerequisites: Nv-212 and Nv-222. Rec.1, Cr. 1.

OCEAN STUDIES

Oc-101: INTRODUCTION TO OCEAN SCIENCE - An introduction to the concepts of physical, geological, chemical, and biological ocean science. Rec. 2, Lab. 2, Cr. 3.

Oc-210: PHYSICAL OCEANOGRAPHY - An introduction to ocean circulation and physical aspects of the ocean's water. Ocean physics exerts important controls on marine life so this course is designed for all students interested in the ocean as a system. Rec. 3, Lab. 3, Cr. 4.

OCEAN STUDIES

Os-001, Os-002, Os-003, Os-004, Os-005, Os-006: OCEAN STUDIES SEMINAR - A seminar format course covering topics in the ocean sciences and related areas of interest. Designed to develop communication and critical thinking skills, the course utilizes group discussion and library research to understand and interpret presentations by invited speakers. Topics will be addressed with increasing depth and sophistication as students progress through the series. All Marine Biology and Marine Science majors are required to enroll in this sequence for every semester in residence except the first-year fall and fourth-year spring semesters. Rec. 1, Cr. 0.5.

Os-101: INTRODUCTION TO MARINE SCIENCE - An introduction to the physics, chemistry, geology, and biology of the oceans. Laboratory emphasis is on sampling and sensing methods, data analysis, and the interaction of marine environmental phenomena. Rec. 3, Lab. 3, Cr. 4.

Os-203: DESIGN AND APPLIED STATISTICS IN SCIENCE - This course instructs the student in the practical application of statistical methods in the sciences. Topics include: introduction to statistical methodology and software, how to select appropriate statistical techniques for data description or hypothesis testing, how to analyze statistical output; how to design laboratory and field experiments, how to design sampling programs, and how to communicate the results of statistical analyses in oral, written, and graphical methods. Rec. 3, Lab. 3, Cr. 4.

Os-204: PHYSICAL GEOLOGY - An introduction to geology. The minerals and sedimentary, metamorphic, and igneous rocks that make up the earth are examined. The course includes a survey of the processes that shape the earth, such as: plate tectonics, wind, water, glaciers, volcanism, and mass wasting. Processes internal to the earth such as earthquakes, and effects of these processes, such as faulting and folding are also examined. Rec. 3, Lab. 3, Cr. 4.

Os-211: MARINE GEOLOGY - The geology of the deep ocean and continental margins is examined including the formation of these provinces and modification through sedimentation. Presents the role of plate tectonics in shaping the oceans and the role of biology and chemistry in sedimentation. Prerequisite: Os-204 or Os-308. Rec. 3, Cr. 3.

Os-212: MARINE GEOCHEMISTRY - An introduction to the chemistry of marine systems and the processes that regulate their chemistry. Topics include: chemistry of the water molecule; fundamentals of solution chemistry; the concepts and measurement of salinity, pH, and alkalinity; and the behavior of selected elements and compounds in sea water and marine sediments including gases, major ions, trace elements, and nutrients, with an emphasis on the physical and biological processes that govern their distribution. Prerequisite: Ch-220. Rec. 3, Cr. 3.

Os-307: SEDIMENTOLOGY - A first course in sediments and sedimentary environments. Topics covered will include the

physics of sediment transport processes, deposition, and environments of deposition. The laboratory will focus on techniques used to study sediments, and on a study of local sedimentary environments. Prerequisite: Os-204. Rec. 3, Lab 3, Cr. 4.

Os-308: THE EARTH - An introduction to geology. The minerals and sedimentary, metamorphic, and igneous rocks that make up the earth are examined. The course includes a survey of the processes that shape the earth, such as: plate tectonics, wind, water, glaciers, volcanism, and mass wasting. Processes internal to the earth such as earthquakes, and effects of these processes, such as faulting and folding are also examined. Rec. 3, Cr. 3.

Os-309: OCEAN CIRCULATION AND THE PROPERTIES OF SEAWATER - An introduction to large scale ocean circulation, wind driven flow, tides and waves. This course also covers the seawater properties important to circulation, sound speed and light in the ocean. Rec. 3, Cr. 3.

Os-321: COASTAL RESOURCE MANAGEMENT - This course provides students with a comprehensive overview of the coastal environment, its resources and uses. In addition students will learn about federal, state and local coastal planning and management issues. The first part of the course examines the existing management framework. The latter half of the course focuses on specific coastal resource management issues such as coastal pollution, coastal hazards, ocean dumping, offshore oil development, fisheries management and marine and coastal protected areas. Rec. 3, Cr. 3.

Os-325: TROPICAL MARINE SCIENCE - An introduction to marine ecosystems in the tropics. Although marine science in the tropical setting will be broadly considered, emphasis will be on the biological and ecological aspects of tropical systems. The course will examine five tropical marine habitats in detail: coral reefs, sea grass beds, mangrove communities, intertidal beaches, and hypersaline habitats. Prerequisites: Bi-210 or Bi-220, Os-101. Rec. 2, Lab. 3, Cr. 3.

Os-400: PREPARATION FOR RESEARCH IN MARINE SCIENCE - This course introduces students to the details of conducting research in marine science and marine biology. Both theoretical and practical components of scientific research will be presented. Subsequently, students receive individual instruction in the development of their own research proposal. Prerequisites: Marine Biology majors: Bi-201, Bi-210, Bi-220, Bi-301, Os-101 and Os-203. Marine Science majors: Bi-210 or Bi-220, Oc-210, Os-101, Os-203, Os-204, and Os-212. Rec. 3, Lab 3, Cr. 4.

Os-401: RESEARCH PROJECT - This course requires students to complete a self-designed study that results in an undergraduate thesis. This thesis can be an independent research project or a discrete component of an ongoing research program directed by a faculty member. Research projects may be conducted under the supervision of a researcher not associated with Maine Maritime Academy, but an Ocean Studies faculty member must serve as an internal sponsor and overseer of the project. Prerequisite: Os-400. Rec. 3, Lab 3, Cr. 4.

Os-499: SPECIAL TOPICS IN OCEAN STUDIES - A course allowing students to pursue topics not normally offered in the curriculum, and may be any combination of lecture and laboratory. Departmental approval required. Cr. 1-3 as appropriate.

PERSONAL DEVELOPMENT

Pd-101 & Pd-102: PERSONAL LEADERSHIP DEVELOPMENT - These courses focus on the fundamentals of personal leadership. Students will study characteristics of effective leadership, and the evolution of leadership behaviors. The course contains an introduction to leadership principles and examines the concept of leadership styles, traits, and types. Students will conduct assessments of their own unique set of leadership traits to identify strengths and weaknesses of their own styles and learn how to effectively employ their leadership abilities. Students will analyze leadership roles in the regiment and in the college's student organizations to expand their leadership "tool bag" and to demonstrate that leadership is both an art and a science. Each course is Rec. 1, Cr. 0.5.

Pd-201 & Pd-202: ORGANIZATIONAL LEADERSHIP/PROFESSIONAL DEVELOPMENT - This course is designed to expose sophomore students to organizational leadership tenants and to assist them in their development of good positive leadership traits. The roles and responsibilities of a leader in the maritime environment are always changing, but one thing remains the same - behind every success in the maritime industry there is a leader who is willing to embrace and conquer challenges. The course will identify the different styles, techniques, and images of a successful leader while incorporating how to develop and fine tune students' leadership skills. Each course is Rec. 1, Cr. 0.5.

PHYSICAL EDUCATION

Pe-100: BASIC SAILING - Nomenclature, terminology, and sailing techniques for Mercury class boats. Certification in Mercury class boats is possible upon completion of this course. Lab 3, Cr. 0.5.

* Pe-102: BASIC WATER SKILLS - Covers swimming skills such as stroke mechanics, breath control, diving, as well as drown proofing techniques and hypothermia. This course is ranked as "satisfactory" or "unsatisfactory" and is not computed in the student's QPA. Lab 3, Cr. 0.5.

* Pe-103: SKIN AND SCUBA DIVING - Basic techniques in use of equipment. Covers safety procedures and physiological aspects of diving. National Association of Underwater Instructors' certification is available, but not mandatory, upon completion of established requirements. Prerequisite: Demonstration of swimming ability. Lab 3, Cr. 1.

Pe-104: TENNIS - Covers basic skills of serving, ground strokes, volley and overhand, as well as strategy, tennis customs and traditions, and rules of the game. Lab 3, Cr. 0.5.

Pe-105: RACQUETBALL - Rules, court strategy, and various shot combinations. Grip, stance, ball control, and other fundamental techniques. Patterns of play for singles and doubles. Lab 3, Cr. 0.5.

Pe-106: HANDBALL - Rules, court strategy, and various shot combinations. Grip, stance, ball control, and other fundamental techniques. Patterns of play for singles and doubles. Lab 3, Cr. 0.5.

Pe-108: PHYSICAL FITNESS - The course enables the student to experience the various components of physical fitness, e.g., endurance, strength, ability, balance, flexibility, and speed. Theories on weight control are discussed. Opportunities to prepare oneself to meet the physical demands of daily life are presented. Lab 3, Cr. 0.5.

Pe-111: VOLLEYBALL - Individual skills and how these skills are used in team play. This includes strategy, rules, and scoring. Lab 3, Cr. 0.5.

*Pe-113: LIFEGUARD TRAINING - This course is designed to teach lifeguard candidates the skills and knowledge needed to prevent and respond to aquatic emergencies. It offers instruction in accident prevention, water rescue skills, First Aid, and CPR. American Red Cross Lifeguard certification is available. Prerequisite: Demonstration of swimming ability. Lab 3, Cr. 1.

*Pe-114: OCEAN SURVIVAL - A cold water safety and survival course to familiarize students with the planning and steps necessary to work, recreate, and supervise safety on or around cold water. This course supports the marine license program requirements to meet the Standards for Training, Certification and Watchkeeping (STCW). The course may have embedded assessment requirements that must be completed in addition to the class requirements. Lab 3, Cr. 0.5.

Pe-120: CONTEMPORARY HEALTH ISSUES: SUBSTANCE USE AND ABUSE - The main course objective is to impart information about substance use and abuse that is correct and current; includes independent study. Rec. 3, Cr. 0.5.

Pe-130: SPECIAL TOPICS IN PHYSICAL EDUCATION - This course allows students to pursue various topics in physical education that might not be offered regularly in the PE curriculum. Prerequisite: approval of Athletic Department Chair. Lab 3, Cr. 0.5.

Pe-200: INTERMEDIATE SAILING - This half-semester course will follow Pe-100, Basic Sailing, and labs will be taught in Mercurys and sloops of up to 30 feet. Topics will include use of the spinnaker, precise maneuvering under sail and power, including mooring, anchoring and docking, and heavy weather sailing in sloops. A grade of A or B will earn the student a MMA Intermediate Sailing Certification for sailing outside of classes. Prerequisite: a grade of A or B in Pe-100, or certification in Mercury sloops, or permission of the instructor. Lab 3, Cr. 0.5.

Pe-401: ADVANCED SAIL VESSEL HANDLING - A follow-on course to Intermediate Sailing and Auxiliary Sail Vessel Operations. This course will give the student substantial vessel handling under sail on vessels 25-45'. Students will be challenged with advanced sailing maneuvers with and without the instructor on board. Participants will take part in activities focused around various career options available to professional sailors. Course work is comprised of weekly labs and sailing activities scheduled by the student outside of lab time. Prerequisite: Pe-200, Ns-341, or Maine Maritime Academy certification as skipper of 20-30 foot sloops. Lab 3, Cr. 1.

*Each first-year student must participate in one of the following: Pe-102, 103, 113, or 114.

POLITICAL SCIENCE

Po-200: AMERICAN GOVERNMENT - A survey of the characteristics and functions of the American political system with emphasis on the origins and activities of the institutions of the American national government. Rec. 3, Cr. 3.

Po-230: CONTEMPORARY WORLD POLITICS I - This course is an introductory survey of the field of international relations with an emphasis on the interaction of global political, social, and economic interaction. Rec. 3, Cr. 3.

Po-330: CONTEMPORARY WORLD POLITICS II - This upper level course allows students to pursue more in-depth study of particular areas of foreign relations. Topics might include modern development of Latin America, the Middle East, South Asia, the Pacific Rim or Western Europe. Prerequisite: Po-230 or permission of the instructor. Rec. 3, Cr. 3.

PHYSICS

Ps-102: TECHNICAL PHYSICS I - An introductory college physics course without calculus. Emphasis is on Newtonian mechanics with problem solving using algebra, geometry and trigonometry. Lab work is included. Prerequisite: Ms-101 or Ms-102 with a grade of a C or better (Ms-103 concurrently). Rec. 3, Lab. 2, Cr. 4.

Ps-162: PHYSICS I - A calculus based physics course treating mechanics, energy, rotation, and simple harmonic motion. Prerequisite: Ms-120 or Ms-150 taken concurrently. Rec. 3, Lab. 2, Cr. 4.

Ps-201: TECHNICAL PHYSICS II - A continuation of Ps-102 with emphasis on electricity and magnetism, and other related topics as time permits. Prerequisite: Ps-102. Rec. 3, Lab. 2, Cr. 4.

Ps-211: COSMOS - This introductory course in cosmology is a study of the latest data and theories about the evolution of the physical universe. Although largely descriptive, understanding of Newtonian mechanics, basic algebra, and geometry is required. Each student must have easy access to the Internet, either through the MMA network or via a home connection. Prerequisite: Ps-102 or Ps-162 with a grade of C- or above. Rec. 3, Cr. 3.

Ps-220: SPECIAL TOPICS IN PHYSICS - A course allowing students to pursue topics not normally offered in the curriculum. Proposals may be student initiated, in consultation with an instructor, and may be any combination of lecture and laboratory. Departmental approval required. Prerequisite: permission of instructor. Cr. 1-3 as appropriate.

Ps-261: PHYSICS II - A continuation of Ps-162 with emphasis on electricity, magnetism, electromagnetic induction, and radiation. Prerequisite: Ps-162 or permission of the instructor. It is recommended that Ms-160 be taken concurrently if not already taken. Rec. 3, Lab. 2, Cr. 4.

Ps-299: INDEPENDENT STUDY IN PHYSICS - A course allowing students to pursue advanced topics not normally offered in the curriculum. Proposals are student initiated in consultation with the instructor. May be repeated for credit. Prerequisite: permission of instructor. Cr. 1-3 as appropriate.

Ps-300: MODERN PHYSICS - Modern physics introduces the student to the special theory of relativity, quantum mechanics, nuclear and elementary particle physics. It is a survey course with applications. Problem solving requires basic understanding of calculus and differential equations. Prerequisites: Ps-261 or Ps-201 and Ms-160. Rec. 3, Cr. 3.

PSYCHOLOGY

Py-200: INTRODUCTION TO PSYCHOLOGY - This course provides an introduction to psychology – theories, research and practice. Emphasis will be on human behaviors, the brain, perception, principles of learning and therapies. Rec. 3, Cr. 3.

Py-210: HUMAN RELATIONS AND GROUP DYNAMICS - This course is designed to help students understand, critique, analyze and integrate the major theories, research and application of dyadic and small group processes. It will emphasize group effectiveness for completion of tasks and communication. Diversity, including gender, ethnicity and culture, will be examined. Status and power will be examined from both worker and supervisor perspectives. Students will participate in structured group activities in an environment that facilitates candid and authentic communication. Prerequisite: Py-200. Rec. 3, Cr. 3.

Py-220: PSYCHOLOGY OF GENDER - The course explores what it means to be male and female. It 'unpacks' gender stereotypes, society's gender expectations and looks at diversity in other cultures as well. Projects encourage students to research figures from our past who have been traditionally overlooked in history textbooks. Prerequisite: Py-200. Rec. 3, Cr. 3.

Py-240: DEVELOPMENTAL PSYCHOLOGY - The course explores human growth and development from conception to death. In life span development, every state is examined by looking at physical growth, socioemotional growth and cognitive growth. Projects in the course are designed to give students hands on experience conducting small research studies to demonstrate the theories. Prerequisite: Py-200. Rec. 3, Cr. 3.

SMALL VESSEL MANAGEMENT

Ym-222: SMALL BUSINESS MANAGEMENT - An introduction to small business management from an entrepreneurial perspective. The challenges associated with starting a small business will be explored, with emphasis on creating and maintaining a sustainable competitive advantage. Social responsibilities, accounting and marketing are some of the topics covered. A major part of the course work is focused on the development of an individual business plan. Rec. 3, Cr. 3.

SMALL VESSEL OPERATIONS

Yo-103: BOATYARD OPERATIONS - An introductory course designed to familiarize the student with the fundamentals of safely handling a small vessel around dockside facilities, and to haul, launch and service these vessels. Basic boat handling skills such as docking, anchoring and towing will be practiced. Emphasis is placed on boatyard, shop and personal safety issues. Operation of the travel lift and fork lift are also covered. The lab portion of this course is integrated into the operation of the MMA waterfront facility. Rec. 2, Lab. 2, Cr. 2.

Yo-222: YACHT MANAGEMENT - This course is designed to address the major challenges facing those who manage and typically captain both privately owned and chartered yachts. Topics covered include an overview of the yacht industry and the captain's responsibilities for fiduciary obligations, crew management, trip planning, and offshore passage making. Shipyard/haul out planning and management are also addressed. A major project for the course is the development of an individual trip plan. Prerequisite: Consent of instructor. Rec. 3, Cr. 3.

Yo-298: TOPICS IN SMALL VESSEL OPERATIONS - A capstone course intended to further prepare 200 ton license candidates for positions of responsibility aboard a limited tonnage vessel. This course will expand the student's knowledge of vessel design, construction, stability, emergency maneuvers and operations. Attention is also given to crew management, regulatory issues, and the variety of decisions that a professional mariner may expect to face. Prerequisite: Ns-241. Rec. 2, Cr. 2.

Yo-299: 200 TON LICENSE PREPARATION - Course to assist senior license candidates in preparing to write the appropriate USCG license examination. Sample tests will be used, test-taking techniques studied and study guides reviewed. The use of CFRs and other references will be covered. Rec. 2, Cr. 1.

SMALL VESSEL TECHNOLOGY

Yt-102: SMALL CRAFT TECHNOLOGY - Introduction to the fundamentals of the engine and drive-train typically found aboard small craft. Emphasis is on the high speed marine diesel engine, the theory of its operation and the understanding of its associated components. Fuel, air, lubrication, and cooling systems are covered. The lab includes the disassembly, inspection, re-assembly and running of a small diesel engine. Rec. 2, Lab. 3, Cr. 3.

Yt-105: SMALL CRAFT CONSTRUCTION - An introduction to the fundamentals of building small craft. While the major focus will be on wooden boat plans and construction, the course will also cover steel, aluminum and fiberglass construction methods. Vessel construction terminology, the process of lofting, and scantling requirements are discussed. The lab is focused on the building of a 14 foot flat bottomed wooden skiff. Rec. 2, Lab. 2, Cr. 3.

Yt-210: MARINE SYSTEMS - Electrical and mechanical system fundamentals, associated with yachts and small commercial vessels, are examined. These include: DC electrical theory and installation standards, storage batteries, multi-meter use, AC electricity, pumping systems, refrigeration, reverse-osmosis water makers and hydraulics. ABYC standards and CFR requirements are covered. The lab explores DC circuits, wiring standards, systems operation, installation and maintenance. Prerequisite: Yt-102. Rec. 2, Lab. 2, Cr. 3.

BATH IRON WORKS COURSES

The following courses are taught at the Bath Iron Works Shipyard in Bath, Maine, and are available only to BIW apprentices.

CHEMISTRY

CH101: CHEMISTRY - This course will emphasize the basic laws and theories of chemistry and their derivation from experimental evidence. It presents the qualitative and quantitative aspects of matter's composition and changes and their unifying principles. It includes physical and chemical properties, periodicity of elements, stoichiometry, current atomic and bonding theories, laws and theories of physical states and changes of state, solution chemistry, and thermochemistry. Rec. 3, Cr. 3.

CH102: CHEMISTRY LAB - Laboratory experiments to emphasize the empirical basis for the principles discussed in lecture and

the proper gathering and interpretation of experimental data. Corequisite: CH101. Rec. 3, Lab 3, Cr. 1.

COMPUTER SCIENCE

CS201: INTRODUCTION TO COMPUTING - This course is designed to introduce the student to personal computer use in a modern business environment. Emphasis is on skill development in a variety of applications, including word processing, spreadsheets, and relational databases, working in a local area network, and corporate systems. Rec. 4, Cr. 2.

ECONOMICS

EC102: PRINCIPLES OF ECONOMICS - Topics include supply and demand; business organizations; money and credit; the banking system; government finance; business and public investment; emergency economics; depression and inflation; the federal government and economic development abroad. Rec. 3, Cr. 3.

ENGINEERING

EG102: INTRODUCTION TO MARINE ENGINEERING - A study of marine systems with emphasis on new construction. The course is designed to provide the student with an overview of marine systems and the techniques used to install, test and align these systems. A review of ship construction manufacturing technique is also covered. Rec. 3, Cr. 2.

EG103: INTRODUCTION TO NONDESTRUCTIVE EXAMINATION METHODS - This course will contain introductory information on the basis of nondestructive testing, including all aspects of visual inspection. This will include discussion of typical sources of material manufacturing discontinuities in raw stock, forgings, castings, tubing/pipe, as well as discontinuities due to grinding, heat treating, welding, and fatigue. This course will also provide training in the visual inspection process, including the basis of visual perception, equipment, and acceptance/rejection criteria. Rec. 2, Cr. 1.

EG105: LIQUID PENETRANT AND MAGNETIC PARTICLE EXAMINATION METHODS - This course is designed to provide the necessary training required to perform liquid penetrant (PT) and magnetic particle (MT) testing on various base materials and weld configurations, and to then evaluate the results. Training in each method will be provided such that base material or weld discontinuities can be detected, and then evaluated to determine if they are acceptable or unacceptable. Rec. 2, Cr. 1.

EG120: MECHANICAL DRAWING I - An introduction to the basics of mechanical drawing, including equipment and general drawing techniques; geometric construction; multiview (orthographic) drawings; basic isometrics; section views; descriptive geometry; and auxiliary views. Rec. 3, Cr. 3.

EG201: ULTRASONIC TEST METHODS - This course is designed to provide the necessary training required to perform ultrasonic testing (UT) on various base metals and weld configurations, and then to evaluate those results. Training will be provided on ultrasonic theory and instrument operation, with application to thickness gauging and flaw detection. Further training will be provided on interpreting data to determine discontinuity shape, identity and location, and then evaluating these results to determine acceptability. Rec. 2, Cr. 2.

EG202: CONFINED SPACE SAFETY - This course will provide instruction in the various methods, processes, and concepts required to recognize, evaluate, and control confined space hazards. Students will understand the duties associated with the testing of confined spaces. Students will also recognize key uses and limitations of testing instrumentation. Training will include certification as a designated Shipyard Competent Person (OSHA). Rec. 4, Cr. 1.

EG203: RADIOGRAPHIC TEST METHODS - This course is designed to provide the necessary training required to perform radiographic (RT) testing on various base materials and weld configurations, and to then evaluate the results. Radiological safety measures will be stressed (including state certification). Instruction will include the necessary inspection techniques, film handling, etc. to ensure adequate film contrast and clarity. Further instruction will be provided on interpreting, identifying, and evaluating radiographic film discontinuities. Rec. 2, Cr. 2.

EG215: BLUEPRINT READING METHODS - A study of the sketches and blueprints used by the structural trades. Rec. 3, Cr. 1.

EG216: SHEET METAL METHODS - A study of the blueprints and procedures used in the sheet metal trade. Rec. 3, Cr. 1.

EG217: PIPEFITTING METHODS - A study of the blueprints and procedures used in the pipefitting trade. Rec. 3, Cr. 1.

EG218: ELECTRICAL METHODS - A study of the blueprints and procedures used in the electrical trade. Rec. 3, Cr. 1.

EG219: OUTSIDE MACHINIST METHODS - A study of the blueprints and procedures used in the outside machinist trade. Rec. 3, Cr. 1.

EG240: WELDING TECHNOLOGY - A course designed to provide insight into the technical aspects of standard welding techniques and practices. It includes a review of the welding processes (SMAW, GTAW, GMAW, SAW) weld procedure essential elements, weld distortion control, VT and NDT requirements, and causes of weld defects. Rec. 3, Cr. 1.

EG241: WELDING SYMBOLS - Introduction to recognizing, reading, interpreting, and drawing welding symbols. Rec. 2, Cr. 1.

EG250: MECHANICAL DRAWING II - A continuation of Mechanical Drawing I, including parallel and radial line developments as well as triangulation in the drawing of ventilation and piping systems. Practical ventilation, piping, and shipboard application problems are also studied. Prerequisite: EG120. Rec. 3, Cr. 3.

EG255 and EG355: MACHINE SHOP THEORY I and II - A study of the tools, materials, machinery and technology used in the machine shop. Rec. 3 and 3, Cr. 3 and 2.

EG280: BASIC ELECTRICITY - Introduction to the nature of electricity: resistance, current, voltage, Ohm's law, network theorems, and AC. Rec. 3, Cr. 2.

EG281: ELECTRICITY II - A continuation of Basic Electricity, introduces inductive and capacitive circuits, meters and transformers. Prerequisite: EG280. Rec. 3, Cr. 3.

EG282: ELECTRICITY III - Topics include construction and troubleshooting of AC and DC generators and motors. Prerequisite: EG281. Rec. 3, Cr. 1.

EG283: ELECTRICITY IV - Topics include development and layout of motor control circuits and uses individual and team labs involving hot and de-energized motor control circuits. Prerequisite: EG282. Rec. 3, Cr. 3.

ENGINEERING TECHNOLOGY

ET200: BASIC ELECTRONICS - Introduction to the nature of electronics, semi-conductor fundamentals, diodes, zener diodes, and their use in power supply and regulator circuits. Rec. 3, Cr. 2.

ET206 and ET306: MECHANICS I and II - The study of forces applied to structures. Introduces vector mechanics, static equilibrium, two and three dimensional force systems, distributed forces and friction, linear and angular kinematics, linear and angular kinetics, energy methods, impulse, momentum, kinetics of three-dimensional motions, and vibrations. Structures studied include plane and three-dimensional trusses, frames, beams, and cables. Rec. 3 and 3, Cr. 3 and 2.

ET207: ELECTRONICS II - A continuation of Basic Electronics, introduces bi-polar transistor operation and characteristics, field effect transistors, thyristors, and optoelectric devices. Prerequisite: ET200. Rec. 3, Cr. 2.

ET208: ELECTRONICS III - Topics include digital concepts: number systems, semiconductor devices for digital circuits, integrated, digital integrated, and digital logical circuits. Boolean algebra and arithmetic circuits will be covered as time permits. Prerequisite: ET207. Rec. 3, Cr. 3.

ET209: ELECTRONICS IV - Topics in counter circuits, shift registers, timers, analog interfacing, memories, microprocessors, fundamentals, and programmable logic controllers will be covered as time permits. Prerequisite: ET208. Rec. 3, Cr. 3.

ET230: STRENGTH OF MATERIALS - A study of stresses and strains in structural members including tension, compression, shear, torsion, bending, and combined stresses. Stresses and strains in beams, columns, and indeterminate structure are also examined. Rec. 3, Cr. 3.

ET235: MATERIAL PROPERTIES AND TESTING I - A foundation course designed to acquaint the student with the properties and testing procedures of today's common industrial materials used in ship building. Materials science, application considerations, and analysis of properties of metals, plastics, ceramics and composites will be covered through classroom and laboratory activity. Destructive and non-destructive testing procedures will be performed to identify and determine mechanical, physical and other properties for specific industrial and ship building applications. Rec. 3, Cr. 3.

ET236: MATERIAL PROPERTIES AND TESTING II - This class is an in-depth study of the principles explored in ET235 for students in the Structural Fitter and Welder disciplines. Individual students will demonstrate the practical application of these principles by building separate components of a physical class project. Decisions regarding selection of materials, details of product design and selection of manufacturing processes will be made by each student. Completed components must meet functional requirements, and will be subjected to physical testing. Prerequisite: ET235. Rec. 3, Cr. 1.

ET280 and ET380: FUNDAMENTALS OF MARINE DESIGN I and II - An intensive introduction to marine design. Emphasis is placed on the application of the design processes used in the shipbuilding industry. Interactive group and individual instruction focuses on the importance of sound working relationships among the design disciplines. A Design Control Composite project leads to development of individual design-specific production drawings. The course is divided into three (3) modules. Module one (1) consists of several presentations of cross-discipline topics spanning about six (6) weeks. Module two (2) is comprised of approximately 23 weeks of discipline specific topics. Module three (3) is an application exercise where the students do actual work on a class project. Rec. 2 and 2, Cr. 2 and 2.

ET282: DESIGN PRACTICES - The goal of this course is to give students the skills required to make sound decisions when developing any design. Emphasis will be on concept development while considering manufacturing processes, cost, material selection, standardization, design evaluation and prototype development. Students will also develop skills and become familiar with types of tradeoffs required in a fast track design environment. Prerequisites: MS203 or MS204, and EG210. Rec. 2, Cr. 2.

HUMANITIES AND COMMUNICATION

HC110: BUSINESS COMMUNICATIONS - Students apply basic writing skills to produce various types of business communications, including formal and informal reports, proposals, procedures, memos and letters. Students will also produce resumes and letters of application. Rec. 3, Cr. 3.

HC113: ORAL COMMUNICATION SKILLS - Deals with the basics of business and professional communications, personal skills, working in groups and making effective presentations. Students will study methods of problem solving, managing conflict and conducting effective meetings through lecture and extemporaneous exercises. Students will also develop and make presentations of various lengths to selected audiences. Rec. 3, Cr. 3.

MANAGEMENT

MA200: LABOR HISTORY - The history of the organized labor movement in the United States and Canada. Includes the colonial period through the twentieth century. An introduction to the precepts of labor law and collective bargaining. Particular attention will be paid to the history of labor in Maine, the shipbuilding industry, and Bath Iron Works. Rec. 3, Cr. 2.

MA230: ORGANIZATIONAL BEHAVIOR - A second-year college-level course which is directly concerned with the understanding, prediction, and control of human behavior in organizations. The course presents the behavioral approach to management. Rec. 3, Cr. 3.

MATHEMATICS

MS105: MATHEMATICS I - This course is designed to provide a foundation of mathematic skills necessary for the applied technical courses which follow. Areas of study include a review of basic algebra; solving equations and word problems; geometry; trig functions, right triangles and vectors; and factors and factoring. Rec. 3, Cr. 3.

MS205: MATHEMATICS II - A continuation of Mathematics I, including the study of fractions and fractional equations; systems of linear equations; exponents and radicals; quadratic equations; oblique triangles; and radian measure. Prerequisite: MS105. Rec. 3, Cr. 3.

NAVAL ARCHITECTURE

NA150: MOLD LOFTING - Topics include the history and development of molded lines; the use of molded lines and offsets in the design and manufacturing of a ship's structure; designer's responsibilities; and the organization of the Bath Iron Works design department. Rec. 3, Cr. 1.

NA151: SHIP BUILDING PROCESS - A study of the principles of naval architecture and their application to modern vessels and the building methods and processes used at BIW. Topics include production design, pre-fabrication, structural assembly, outfitting, erection, and launching. Rec. 3, Cr. 3.

PHYSICS

PS103 and PS203: PHYSICS I and II - An introductory college physics course sequence without calculus. Emphasis on Newtonian mechanics of rigid bodies, fluids, heat and introductory thermodynamics, electricity and magnetism. Other related topics as time permits. Rec. 3 and 3, Cr. 3 and 3.

THE LANDING SCHOOL COURSES

The following courses are taught at The Landing School in Kennebunkport, Maine, and are available only to students enrolled in the Small Craft Design and Small Vessel Systems majors.

CAD

Cd-101: CAD 1 – Students are introduced to two CAD programs: AutoCAD for basic 2-D drawing and Fast Ship for basic 3-D hull surface definition. The basic functionality of the programs is demonstrated. Emphasis is on those features that demonstrate the relationship between computer-aided-design and the sketching and manual drafting skills from the Construction 1 class.

Prerequisites: Et-101, Ct-101, De-101. Rec. 4, Lab 2, Cr. 2.

Cd-201: CAD 2 – Advanced features of AutoCAD and Fast Ship are explored. Emphasis in AutoCAD is on those features that add character to the drawing; and in Fast Ship on those features needed to extract data from the model to assess static and dynamic stability. Prerequisite: Cd-101. Rec. 1, Lab 1, Cr. 1.

Cd-301: CAD 3 – Students are introduced to the 3-D modeling program RHINO. Basic functionality of the program is demonstrated with emphasis of features of the program such as screen and tool layout, drawing tools and manipulation tools.

Prerequisite: Cd-201. Rec. 1.5, Lab 1, Cr. 1.

CONSTRUCTION

Ct-101: CONSTRUCTION 1 – Introduction to the basic mechanical drafting and yacht design drawing tools. Proper techniques for using these tools to draw, dimension, and letter basic design drawings are taught. Sketching is used as a precursor to the development of formal drawings. Prescriptive scantling rules are used to determine how to develop a construction plan for a wooden boat. Prerequisite: Et-101. Rec. 4, Lab 1, Cr. 2.5.

Ct-102: CONSTRUCTION 2 – Provides the students with an understanding of the systems found on small boats. Students are exposed to typical methods for matching system requirements to a project boat's mission and operation. The methods and procedures for converting the system requirements into sketches, equipment sizing calculations, schematics and drawings are demonstrated. Prerequisite: Ct-101. Rec. 3, Lab 4, Cr. 2.

Ct-201: CONSTRUCTION 3 – Students are assigned an aluminum motor boat project for the course. The boat is to be designed to ISO standards. The logic, criteria and methodology forming the basis of the standards are reviewed. Students are introduced to basic welding technology and weld joint design. Prerequisites: De-102 and Ct-102. Rec. 4, Lab 3, Cr. 3

Ct-202: CONSTRUCTION 4 – Students are assigned a composite boat project for the course. The boat structure is to meet the requirements of ISO Category A. The logic, criteria and methodology forming the basis of the standards are reviewed. The students are introduced to the Hullscant© computer program for sizing plate panels and panel stiffeners and other structural elements. Students will work independently approximately 60 hours on their projects. Prerequisites: De-201 and Ct-201. Rec. 2, Lab 1.5, Cr. 3.

DESIGN

De-101: DESIGN 1 – An introduction to the basic elements of naval architecture and small craft technical design which begins the development of appropriate drawing and design skills. Particular attention is giving to hydrostatics and stability issues to ensure students have a thorough understanding of floatation and safe and satisfactory design and the associated calculations.

Prerequisites: Cs-150, Ms-101, and Et-101. Rec. 5, Lab 2.5, Cr. 3.5.

De-102: DESIGN 2 – Builds on the basic elements covered in DESIGN 1 by moving on to consider the design of sailing craft. Hull form, keels and rudders and the design of deck layouts and sail plans are considered as well as methods of assessing power to carry sail. Prerequisite: De-101. Rec. 5, Lab 2, Cr. 2.

De-201: DESIGN 3 – Builds on elements covered in DESIGN 1 and 2 and extends them to the study of motor driven craft. Dynamic considerations and their effect of hull form and propulsion system design, small craft performance, control and safety with particular interest on planing boats. Prerequisite: De-102. Rec. 5, Lab 3, Cr. 3.

De-202: DESIGN 4 – Builds on elements covered in DESIGN 1, 2 and 3 and extends their application to a fully developed outline design. Attention is given to aesthetic and practical aspects of design. This student centered course is based on a large-scale directed and independent project involving the complete outline design of a sea-going vessel between twenty-seven and forty feet on the waterline. Prerequisite: De-201. Rec. 1, Lab 2, Cr. 2.

STRENGTH

St-101: STRENGTH 1 – Review of basic physics and mathematics. Basic engineering approach to evaluating loads on structure is presented. The procedures for evaluating end reactions and internal loading on typical structures found on boats are dealt with extensively. Prerequisites: Ms-101 and Ps-102. Rec. 5, Cr. 2.

St-202: STRENGTH 2 – Basic theory and standard analytical process is introduced for several topics including: shafts and couplings for torsion; beams that are strength limited; beams that are deflection limited; spars and stanchions in compression; and metal and composite plating. Prerequisite: St-101. Rec. 4, Lab 3, Cr. 2.

TOPICS IN DESIGN

Td-101: TOPICS IN DESIGN 1 – Introduction to the issues to be considered in the early stages of the design process. This will develop students' skills in the fundamental techniques of sketching and task identification that clarify and define a design project. Several guest lecturers will present. Rec. 1, Lab 1, Cr. 0.5.

Td-102: TOPICS IN DESIGN 2 – Builds on issues from Topics in Design 1 and considers technical areas relating to the design of planing craft and the importance of aesthetics in the design process. Several guest lecturers will present. Prerequisite: Td-101. Rec. 1, Lab 1, Cr. 0.5.

Td-201: TOPICS IN DESIGN 3 – Introduces the student to the problem of sailboat balance and describes techniques that can be used to assess the quality of design with regard to balance. Prerequisite: Td-102. Rec. 1, Lab 1, Cr. 0.5.

Td-202: TOPICS IN DESIGN 4 – Introduces students to the issues to be considered before setting up an independent design office and offers guidance for success. This course also provides support of the students' work of their Design 4 project. Prerequisite: Td-201. Rec. 0.5, Lab 3, Cr. 0.5.

UPDATED 6/16/2009

DIRECTORY

Calls from off-campus:

dial (207) 326-2 and then the 3-digit extension,
except when the 3-digit extensions start with 7, then use either 0 or 4.

Calls on-campus:

dial the 3-digit extension only.

BOARD OF TRUSTEES

Victoria M. Larson
Chair
CDR USNR (Retired)
V.P. for Technology at TD Banknorth
Windham, ME

Richard J. Grosh
Vice Chairman
CEO Ranco Corp. (Retired)
Brooklin, ME

William C. Bullock, Jr.
Founder & Chairman
Merrill Bank (Retired)
Orrington, ME

Mary Lou Cormier
Doctor of Educational Administration
No Affiliation (Retired)
Castine, ME

Dale E. Hartford
Assistant to the General V.P.
International Association of Machinists
& Aerospace Workers
Maineville, OH

Marian H. Morgan*
No Affiliation
Cape Elizabeth, ME

John J. Mooney
Director of Sales
Kyanize Paints (Retired)
Harborside, ME

Robert Peacock
Captain & Pilot
Quoddy Pilots, U.S.A.
Lubec, ME

Paul M. Rich
Chief Development Officer
Deepwater Wind, LLC
Edgecomb, ME

Anne Marie Samway
Administrator
Phillips Exeter Academy (Retired)
Hampton Falls, NH

Robert D. Somerville
Chairman & CEO
American Bureau of Shipping
Houston, TX

Jarred W. Sternbergh
Student Trustee
Jonesboro, ME

Robert S. Walker
Chairman of the Board of Ocean Marine, LLC
Portsmouth, VA

William J. Walsh
Ocean Properties, Ltd.
Northampton, NH

Elizabeth C. Warren*
No Affiliation
Bangor, ME

* Board member for multiple Maine organizations.

TRUSTEES EMERITI

Henry Brooks
Ward I. Graffam
William E. Haggett
Harrison Richardson
W. Tom Sawyer
Joseph Sewall
Walter Travis

BOARD OF VISITORS

Capt. James Barstow
Port Clyde, Maine

Mr. Chris Bean
n/a

Ms. Jill Benner
Long Beach, California

Mr. Philip Bennett
Southwest Harbor, Maine

Mr. William Brennan
Portland, Maine

Mr. Thomas F. Broad
Veazie, Maine

Mr. Gregg Buczkowski
Bath, Maine

Mr. John H. Burpee
Augusta, Maine

Mr. Frederick S. Casale
Portland, Maine

Mr. Steven B. Colfer
Bath, Maine

Mr. Richard Coyle
Portland, Maine

Mr. Charles A. de la Porte
Elyria, Ohio

Mr. Stephen Dick
New Orleans, Louisiana

Mr. Lawrence J. Dreher
Bath, Maine

Mr. Arthur E. Dresser
Bath, Maine

Mr. Steve Durrell
Halifax, Nova Scotia, Canada

Mr. Gordon Falt
Woolwich, Maine

Mr. Richard E. Fennelly, Jr.
Bangor, Maine

Mr. Edward J. Foley
Auburn, Maine

Mr. Leroy J. Fournier
Bath, Maine

Dr. Arthur Gaines
Woods Hole, Massachusetts

Mr. John H. Gillis
Redmond, Washington

Ms. Wendy Greenbaum
Bowdoin, Maine

Capt. James Haddock
Bath, Maine

Mr. William Hagenzieker
Rockport, Maine

Capt. John D. Ingram
Bath, Maine

Capt. Michael Jaccoma
Plantation, Florida

Mr. David G. Keene
Bucksport, Maine

Dr. Whitney King
Waterville, Maine

Mr. Roy Knapp
Fairview Park, Ohio

Mr. Douglas K. Lamoreaux
Bath, Maine

Capt. Nathaniel F. Leonard
Seattle, Washington

Mr. Peter Macdonald
Topsham, Maine

Mr. Perry A. Mattson
Surry, Maine

Mr. Donald S. McKay
Oakland, California

Mr. Peter M. Mento
Peabody, Massachusetts

Mr. Henry J. Merce
Sylvania, Ohio

Mr. Paul E. Mercer
Penobscot, Maine

Mr. Paul D. Merrill
Portland, Maine

Mr. Ronald E. Merrill
Bath, Maine

Mr. Jeffrey Monroe
Portland, Maine

Mr. Ronald F. Moore
Bath, Maine

Mr. Joseph R. Moran, Jr.
Portland, Maine

Mr. Jeffrey Murdy
Bangor, Maine

Mr. Perry B. Newman
Portland, Maine

Mr. Robert M. Pereira
Old Town, Maine

Mr. Donald W. Perkins, Jr.
Portland, Maine

Mr. Dennis Putansu
Rockland, Maine

Dr. Ruth H. Zollinger
Chagrin Falls, Ohio

Board of Visitors Ex-Officio Members

Mr. Steven D. Adams
Bath, Maine

Mr. J. Duke Albanese
Commissioner of Education
Augusta, Maine

Mr. Taylor Jones
U.S. Department of Transportation Maritime Administration
Washington, D.C.

Board of Visitors Emeritus

Mr. John Collins
Palisades, New York

RADM Edward Rodgers
Cocoa Beach, Florida

ADMINISTRATION

OFFICE OF THE PRESIDENT

President Leonard H. Tyler
Executive Assistant to the President Annette Dixon
Director of Career Services Richard G. Youcis
Director, Plant Operations and Management Stacey Ericson

ACADEMIC DIVISION

Vice President for Academic Affairs and Academic Dean Dr. John Barlow
Associate Academic Dean Dr. Joceline Boucher
Associate Dean Loeb-Sullivan School Dr. William J. DeWitt
Coordinator for Student ADA Accommodations Dr. Joceline Boucher
Program Coordinator for Continuing and Distance Education Victoria Stearns
Director of Library Services Brent Hall
Registrar Tom Sawyer
Director of Athletics James Dyer

ADMINISTRATIVE DIVISION

Vice President for Finance/Administration/Governmental Affairs Richard R. Ericson
Director of Fiscal Operations Diana C. Snapp
Executive Director of Planning, Compliance & Administrative Operations E. James Soucie
Chief Technology Officer Lisa Roy
Director of Safety and Security Thomas Perkins
Marine Operations Manager Timothy Leach

STUDENT SERVICES DIVISION

Vice President for Enrollment Management/Commandant Jeff Loustaunau
Dean of Student Services Deidra Davis
Director of Admissions Jeffrey C. Wright
Director of Counseling Services Paul Ferreira
Director of Financial Aid Kathy Heath
Director of Food Service Maamoun R. Chaar
Director of Health Services Susan McDonald, R.N.
Director of Residential Life & Student Services Lauren Garrett
Bookstore Manager Audrey Bradford

ADVANCEMENT DIVISION

Chief Advancement Officer Eleanor Courtemanche
Director of Alumni Affairs Paul Mercer
Coordinator of External Affairs Susan Mitchell
Associate for Public Affairs Janice B. Zenter

FACULTY

Any links to faculty pages below are developed by their authors. The Academy accepts no responsibility for their content. All faculty are full-time appointments unless otherwise noted.

DANA ANDERSON, Associate Professor of Humanities and Communications; B.A., Trinity University; M.A., University of California at Los Angeles; Ph.D., Binghamton University; Appointed 2005.

JOHN BARLOW, V.P. for Academic Affairs and Academic Dean; Professor of Ocean Studies; B.S., University of Rhode Island; Ph.D., University of Maine; Appointed 1970.

THOMAS BATT, Associate Professor of Humanities and Communications; B.A., Cornell University; M.F.A., Ph.D., University of Massachusetts; Appointed 2005.

PATRICIA B. BIXEL, Associate Professor of History; B.A., Rice University; M.A., Duke University; Ph.D., Rice University; Appointed 2000.

[JOCELINE BOUCHER](#), Associate Academic Dean; Professor of Marine Chemistry; A.B., University of Chicago; M.S., University Southern California; Ph.D., University of Rhode Island; Appointed 1991.

LOUISE BOURNE, Part-time Adjunct Faculty in Art; B.F.A., Portland School of Art; M.F.A., University of Michigan; Appointed 2000.

MARGARET E. BRANDON, Associate Professor of Marine Transportation; B.S., M.M.A., University of Rhode Island; Master, Steam, Motor, or Auxiliary Sail Vessels, 1600 tons; Appointed 2006.

WILLIAM J. BRENNAN, Adjunct Professor in Marine Science, B.S., University of Maine; M.A., University of Rhode Island; Ph.D., University of Maine; Appointed 2002.

JOHN W. BRIDGE, Associate Professor of Engineering; B.S., United States Air Force Academy; M.S., University of Dayton; Registered Professional Engineer; Appointed 2006.

THOMAS A. BUTERBAUGH, Professor of Naval Science; Capt., USN; B.S., United States Naval Academy; M.S., Naval Postgraduate School; Appointed 2009.

JAMIE V. CARTER, Part-time Adjunct Faculty in Bath Iron Works Apprenticeship Program Department of Engineering; A.S., Maine Maritime Academy, BIW/MMA Apprenticeship Program; Appointed 2006.

[G. ANDERSON CHASE](#), Chair, William F. Thompson School of Marine Transportation; Professor of Marine Transportation; B.S., Maine Maritime Academy; Master, Steam or Motor Vessels, Unlimited; Master, Auxiliary Sail Vessels, 1600 tons; Appointed 1987.

GISELE R. CINQ-MARS, Part-time Adjunct Faculty in Bath Iron Works Apprenticeship Program Department of Engineering; A.S., Bay Path College; B.A., American International College; M.Ed., University of Maine; Appointed 2008.

[ANN CLEVELAND](#), Chair, Corning School of Ocean Studies; Associate Professor of Marine Biology; B.A., University of New Hampshire; M.S., University of Rhode Island; Ph.D., Northern Arizona University; Appointed 2002.

[STEPHEN A. COLLINS](#), Professor of Welding; B.A., University of California; B.S., University of Southern Maine; M.A.Ed., University of Phoenix; AWS Certified Welding Inspector; Appointed 1992.

JOE-ANNE CORWIN, Part-time Adjunct Faculty in Psychology; S.D. M.Ed., West Chester University; Appointed 2001.

MARK A. COTÉ, Professor of Engineering; B.S., Maine Maritime Academy; M.S.M.E., Clemson University; M.A. Naval War College; Third Assistant Engineer, Steam, Motor, or Gas Turbine Vessels, Unlimited; Registered Professional Engineer; State of Maine First Class Stationary Engineer; Appointed 1992.

WILLIAM J. DEWITT, Associate Dean of the Loeb Sullivan School of International Business and Logistics; Professor of Logistics; B.A., Allegheny College; M.B.A. and Ph.D., University of Tennessee; Appointed 2007.

LES EADIE, Assistant Professor of Marine Transportation; B.S., Maine Maritime Academy; M.B.A., University of Phoenix; Master, Steam or Motor Vessels, Unlimited; Appointed 2007.

[DONALD P. ELEY](#), Professor of Marine Transportation; Coordinator of the Small Vessel Operations Program; B.A., Humboldt State University; M.S., Maine Maritime Academy; Master, Steam, Motor, or Auxiliary Sail Vessels, 200 tons; Appointed 1993.

[HARRIS W. ERLANSON](#), Part-time Adjunct Faculty in Marine Transportation and Second Mate, *T.S. State of Maine*; B.S., Maine Maritime Academy; Chief Mate, Steam or Motor Vessels, Unlimited; Master, 1600 ton; Appointed 1997.

BARBARA H. FLECK, Associate Professor of Engineering; B.S., University of Cincinnati; M.S., Dartmouth College; Registered Professional Engineer; Appointed 1994.

LAURIE FLOOD, Associate Professor of Engineering; B.S., Maine Maritime Academy; M.S., University of Maine; Third Assistant Engineer, Steam or Motor Vessels, Unlimited; State of Maine Third Class Stationary Engineer; Appointed 2001.

ROBERT T. GIFFIN, Assistant Professor of Mechanical Arts; B.S., University of Southern Maine; Appointed 1978.

DAVID M. GILBERT, Associate Professor of Humanities and Communications; B.A., Colby College; M.S., University of Southern Maine; Ph.D., Rensselaer Polytechnic Institute; Appointed 1993.

STEVEN R. GOOCEY, Assistant Professor of Naval Science; Lt., USN; B.S., United States Naval Academy; Appointed 2007.

KAVEH HAGHKERDAR, Professor of Engineering, Automation and Control; B.S., M.S., Maine Maritime Academy; State of Maine First Class Stationary Engineer; Chief Engineer, Motor or Gas Turbine Vessels, Unlimited; First Assistant Engineer, Steam Vessels, Unlimited; Appointed 1983.

[GEORGE N. HARAKAS](#), Assistant Professor of Chemistry; B.S., Saint Louis University; Ph.D., Texas Tech University; Appointed 2007.

DUKE T. HIGGS, Instructor of Naval Science; GySgt, USMC; Appointed 2007.

DAVID HOWARD, Part-time Adjunct Faculty in Engineering, and First Assistant Engineer, *T.S. State of Maine*; B.S., Maine Maritime Academy; First Assistant Engineer, Motor or Gas Turbine Vessels, Unlimited; Second Assistant Engineer, Steam Vessels, Unlimited; Appointed 2000.

SARAH F. HUDSON, Associate Professor of Ship's Medicine; B.A., Colby College; State of Maine Licensed Advanced EMT, EMS Instructor Coordinator, Radiologic Technologist; Appointed 1989.

NAVNEET JAIN, Assistant Professor of Supply Chain Management; B.T., Gujarat Agricultural University, India; M.S., Maine Maritime Academy; Appointed 2006.

PAR KETTIS, Part-time Adjunct Faculty in International Business & Logistics; Master of Law, University of Stockholm; Swedish Defense College; Appointed 2002.

RICHARD W. KIMBALL, Associate Professor of Engineering; B.S.M.E., University of Maine; M.S., Massachusetts Institute of Technology; Ph.D., Massachusetts Institute of Technology; Appointed 2004.

TIMOTHY N. LEACH, Part-time Adjunct Faculty in Marine Transportation and Marine Operations Manager; A.S., Southern Maine Technical College; Master, Steam or Motor Vessels, 500 tons; Appointed 1979.

MARK LIBBY, Chair, Engineering Department; Associate Professor of Engineering; B.S., M.S., Maine Maritime Academy; State of Maine First Class Stationary Engineer; Chief Engineer, Steam, Motor, or Gas Turbine Vessels,

Unlimited; Appointed 1997.

SUSAN K. LOOMIS, Chair, Arts and Sciences Department; Professor of Humanities and Communications; B.A., Regis College; M.A., University of Maine; Appointed 1985.

PATRICK LORENZ, Assistant Professor of Mathematics and Computer Science; B.A., St. John's University, MN; M.S., Johns Hopkins University; Ph.D., Southern Illinois University; Appointed 2004.

ROGER LOWELL, Part-time Adjunct Faculty in Engineering, and Chief Engineer, *T.S. State of Maine*; B.S., Maine Maritime Academy; Chief Engineer, Steam, Motor, or Gas Turbine Vessels, Unlimited; Appointed 2001.

ANNA A. MARKHOTOK, Assistant Professor of Physics; M.S., St. Petersburg State Technical University, Russia; M.S., Old Dominion University; Ph.D., Ioffe Physico Technical Institute, Russian Academy of Sciences, Russia; Appointed 2006.

LEO H. MAZERALL, Laboratory Instructor of Engineering; Diploma, Wentworth Institute; Appointed 1994.

[BRENDON McAVOY](#), Part-time Adjunct Faculty in Marine Transportation, and Chief Mate, *T.S. State of Maine*; B.S., State University of New York Maritime Academy; M.A., University of Rhode Island; Master, Steam or Motor Vessels, Unlimited; Appointed 1998.

[JAMES H. McKENNA](#), Associate Professor of Marine Biology; B.S., Boston College; Ph.D., University of Rhode Island; Appointed 2007.

PAUL E. MERCER, Associate Professor of Engineering; B.S., Maine Maritime Academy; First Assistant Engineer, Steam or Gas Turbine Vessels, Unlimited; Third Assistant Engineer, Motor Vessels, Unlimited; Appointed 2006.

RICHARD MILLER, Instructor of Marine Transportation; B.S., Springfield College; Master, Steam, Motor, or Auxiliary Sail Vessels, 500 tons; Appointed 2007.

ALDEN L. MONBERG, Associate Professor of Applied Mathematics; B.A., Ph.D., University of Maine; Appointed 1991.

RAYMOND MOODY, Part-time Adjunct Faculty in Engineering, and Second Assistant Engineer, *T.S. State of Maine*; Chief Engineer, Steam, Motor, or Gas Turbine Vessels, Unlimited; Appointed 2001.

BRIAN P. MORIN, Assistant Professor of Naval Science; Lt., USN; B.A., College of the Holy Cross; Appointed 2006.

[JESSICA F. MUHLIN](#), Assistant Professor of Marine Biology; B.A., Boston University; Ph.D., University of Maine; Appointed 2007.

BRIAN A. OLIVARI, Adjunct Faculty in Engineering and Mathematics; B.S., Syracuse University; FCC Radiotelephone Operator License with Ship Radar Endorsement; Appointed 2006.

SARAH O'MALLEY, Part-time Adjunct Faculty in Communications and Ocean Studies; B.S., University of Maine; M.Ed., University of Maine; Appointed 2004.

[DANIEL S. PARROTT](#), Associate Professor of Marine Transportation; B.A., Colby College; M.A., University of Rhode Island; Master, Steam, Motor, or Auxiliary Sail Vessels, 1600 tons; Second Mate, Steam and Motor Vessels, Unlimited; Appointed 2003.

CHRISTOPHER H. PILOT, Professor of Physics; B.A., Boston University; M.S., Technical University of Munich; Ph.D., Max Planck Institute, Germany; Appointed 1991.

ELAINE S. POTOKER, Professor of Business; B.A., State University of New York; M.A.T., University of Chicago; Ph.D., Ohio State University; Appointed 1997.

RALPH PUNDT, Associate Professor of Marine Transportation; B.S., Maine Maritime Academy; Master, Steam and Motor Vessels, Unlimited; Appointed 1999.

KIMBERLY RAIKES, Part-time Adjunct Faculty in Humanities, B.A., Kalamazoo College; M.T.S., Garrett-Evangelical Theological Seminary; Appointed 2006.

LEON A. RAIKES, Associate Professor of Humanities; B.A., Kalamazoo College; M.A., American University of Beirut; Ph.D., Michigan State University; Appointed 2006.

DOUGLAS A. READ, Part-time Adjunct Faculty in Engineering; B.S., Webb Institute; M.S., Massachusetts Institute of Technology; Ph.D., University of Maine; Appointed 2009.

RICHARD REED, Associate Professor of Engineering; B.S., M.S., University of Maryland; Appointed 1996.

JOHN J. REESE, Assistant Professor of Naval Science; Cmdr., USN; B.A., University of West Florida; Appointed 2007.

[LAUREN E. SAHL](#), Professor of Ocean Studies; B.S., State University of New York at New Paltz; Ph.D., Texas A & M University; Appointed 1990.

RUDOLPH P. SARNA, Associate Professor of Mathematics and Computer Science; B.S., Colorado State University; M.S., University of Maine; Appointed 1992.

W. PETER SARNACKI, Associate Professor of Engineering; B.S., Maine Maritime Academy; State of Alaska First Class Stationary Engineer; State of Maine Second Class Stationary Engineer; Second Assistant Engineer, Steam Vessels, Unlimited; Third Assistant Engineer, Motor Vessels, Unlimited; Appointed 1996.

MICHAEL SCHAAB, Associate Professor of Physics, B.S., Iona College; M.A., State University of New York; Appointed 2002.

GEORGE L. SCHATZ, Associate Professor of Economics and Finance; B.A., Moorhead State University; M.A., University of Chicago; M.S., University of Arizona; Third Mate, Steam or Motor Vessels, Unlimited; Appointed 1989.

N. JILL SCHOOF, Assistant Professor of Engineering; B.S., Clarkson University; M.S., Northeastern University; Appointed 2009.

DAVID G. SEEBER, Part-time Adjunct Faculty in Bath Iron Works Apprenticeship Program Department of Engineering; A.S., Maine Maritime Academy, BIW/MMA Apprenticeship Program; Appointed 2009.

MARK M. SHAUGHNESSY, Assistant Professor of Business and Accounting; B.S., Babson College; M.B.A., Babson College; C.P.A.; Appointed 2008.

DAVID G. SKAVES, Professor of Engineering; B.S., Massachusetts Maritime Academy; M.B.A., University of Maine; Chief Engineer, Steam, Motor, or Gas Turbine Vessels, Unlimited; Registered Professional Engineer; State of Maine First Class Stationary Engineer; Appointed 1986.

ADAM R. SLAZAS, Assistant Professor of Marine Transportation; B.S., Massachusetts Maritime Academy; Master, Steam or Motor Vessels, Unlimited; Appointed 2007.

LAURIE C. STONE, Associate Professor of Humanities and Communications; B.A., University of Connecticut; M.A.T., University of Hartford; C.A.S., Wesleyan University; Appointed permanent, part-time 2000.

JEFFREY B. TAUB, Assistant Professor of Mathematics and Computer Science; B.S., Cornell University; M.S., Naval Postgraduate School; Appointed 2007.

J. SAMUEL TEEL, Professor of Marine Transportation and Nautical Science; B.S., Maine Maritime Academy; Master, Steam or Motor Vessels, Unlimited; Appointed 1982.

CHRISTOPHER D. TROUGHTON, Marine Officer Instructor; Capt., USN; A.S., Naugatuck Valley Community Technical College; B.A., University of Maine; Appointed 2008.

ALAN V. TRUNDY, Assistant Professor of Mechanical Arts; B.S., University of Southern Maine; Appointed 1971.

DAVID B. VELLENGA, Distinguished Visiting Professor of Global Supply Chain Management; A.B., Calvin College; M.B.A., The University of Illinois at Urbana; Ph.D., The Pennsylvania State University; Appointed 2004.

[ALAN VERDE](#), Associate Professor of Marine Biology; B.S., M.S., Walla Walla University; Ph.D., Florida Institute of Technology; Appointed 2004.

[LAURENCE V. WADE](#), Part-time Adjunct Faculty in Marine Transportation, and Master, *T.S. State of Maine*; B.S., Maine Maritime Academy; Master, Steam or Motor Vessels, Unlimited; Appointed 1996.

DAVID WALKER, Part-time Adjunct Faculty in Bath Iron Works Apprentice Program Department of Engineering; A.S., Eastern Maine Vocational Technical Institute; Appointed 1991.

JEFFREY WILLMANN, Associate Professor of Mathematics; B.S., Tufts University; M.Ed., University of Maine; Appointed 1991.

PAUL A. WLODKOWSKI, Associate Professor of Engineering; A.B., Dartmouth College; M.S., University of Virginia; Ph.D., University of Maryland; Appointed 2002.

[JOHN D. WORTH, III](#), Part-time Adjunct Faculty in Marine Transportation; B.S., University of Southern Maine; Master, Steam or Motor Vessels, 1600 tons; Master, Auxiliary Sail Vessels, 100 tons; Appointed 2003.

ROSEMARY K.M. WYMAN, Part-time Adjunct Faculty in Photography; B.A., Queens College, C.U.N.Y.; M.A., University of West Florida; Appointed 1999.

F. MICHAEL YOUNG, Part-time Adjunct Professor of Engineering; B.S., Maine Maritime Academy; Chief Engineer, Steam or Motor Vessels, Unlimited; Appointed 1991.

EMERITI FACULTY AND ADMINISTRATION

HAROLD C. ALEXANDER, Professor of Engineering Emeritus; B.S., M.S., Nova Scotia Technical College; Ph.D., Texas A & M University; Registered Professional Engineer; Appointed 1991.

RICHARD S. BABCOCK, Professor of Marine Transportation Emeritus; B.A., Western Michigan University; M.S., Maine Maritime Academy; Master, 100 tons; Appointed 1988.

EDGAR J. BIGGIE, JR., Associate Professor of Physical Education Emeritus; B.S., Ithaca College; M.Ed., University of Maine; Appointed 1968.

VERGE FORBES, Academic Dean Emeritus; B.S., University of Maine; M.Ed., D.P.E., Springfield College; Appointed 1963.

DONNA G. FRICKE, Professor of Humanities and Communications Emeritus; B.A., Gettysburg College; M.A., Ph.D., The Pennsylvania State University; Appointed 1980.

CAROLINE A. HERRICK, Associate Professor of Engineering Emeritus; B.S., Massachusetts Institute of Technology; M.S., University of Southampton, England; Appointed 1981.

GROVES E. HERRICK, Professor of Engineering Emeritus; B.S., M.S., Massachusetts Institute of Technology; M.S. University of London; Ph.D., University of Southampton, England; D.I.C. Imperial College, London; Registered Professional Engineer; Appointed 1974.

G. ALBERT HIGGINS, JR., Academic Dean Emeritus; B.A., University of California at Los Angeles; M.A.L.S., Wesleyan University; M.N.S. Worcester Polytechnic Institute; Appointed 1983.

DANIEL J. JONES, Dean of Student Services/Enrollment Management Emeritus; B.S., Marietta College; Appointed 1986.

SHASHI N. KUMAR, Associate Dean of the Loeb-Sullivan School of International Business and Logistics and Professor Emeritus of International Business and Logistics; M.S., Maine Maritime Academy; Ph.D., University of Wales; Master

Mariner, United Kingdom; Appointed 1987.

DEAN R. MAYHEW, Associate Professor of History Emeritus; B.A., M.A., University of Maine; Appointed 1963.

MATT MERFELD, Professor of Mathematics Emeritus; B.S., Illinois Institute of Technology; M.Ed., University of Tennessee at Chattanooga; M.A., Ed.D., Rutgers University; Appointed 1970.

WILLIAM J. MOTTOLA, Professor of Physical Education and Director of Athletics Emeritus; B.S., M.S., Ithaca College; C.A.S., University of Maine; Appointed 1967.

WALLACE REED, Professor of Maritime Law and Transportation Management Emeritus; B.S., University of Maine; M.S., Cornell University; J.D., University of Maine School of Law; Appointed 1977.

DONALD SMALL, Professor of Engineering Emeritus; B.S., M.S., University of Maine; Registered Professional Engineer; Appointed 1968.

EUGENE H. SPINAZOLA, Professor of Engineering Emeritus; B.S., Maine Maritime Academy; M.Ed., University of Maine at Farmington; First Assistant Engineer, Steam Vessels, Unlimited; Third Assistant Engineer, Motor Vessels, Unlimited; Registered Professional Engineer; Appointed 1964.

CHARLES B. WEEKS, JR., Professor of Marine Transportation and Nautical Science Emeritus; B.S., M.S., Maine Maritime Academy; Master, Steam or Motor Vessels, Unlimited; Appointed 1972.

Visiting MMA

WE INVITE YOU to visit Maine Maritime Academy at any time of the year. Allow for a three-hour [visit](#) with any of our capable student guides and admissions counselors in order to digest the breadth of programs and facilities.

[You can get here from there:](#)

From the North, South, and West...

Take Interstate 95 to Bangor, Exit 182, I-395.

Take I-395 to Exit 4, Route 15 South to Bucksport

Follow Route 15 South to Bucksport, 18 miles, which merges with Route 1 North/Route 3.

One mile past Bucksport McDonald's, turn right on Route 175.

After 8 miles, pick up Route 166 to Castine, another 7 miles.

Take first left after the Maine Maritime sign to the Robert S. Walker Admissions and Financial Aid Center.

From the East (coastal)...

Take Route 1 South through Ellsworth..

About 18 miles from downtown Ellsworth, turn left on Route 175.

After 8 miles, pick up Route 166 to Castine, another 7 miles.

Take first left after the Maine Maritime sign to the Robert S. Walker Admissions and Financial Aid Center.

From the East (via Route 9)...

Take Route 9 to Route 46, Eddington, 77 miles.

Follow Route 46, across Route 1A, to Bucksport, 19 miles.

Take left on Route 1 North/Route 3 for 1/2(half) mile.

Turn right on Route 175.

After 8 miles, pick up Route 166 to Castine, another 7 miles.

Take first left after the Maine Maritime sign to the Robert S. Walker Admissions and Financial Aid Center.

Appointments to visit the college should be scheduled well in advance. With prior notice and based on availability, the Admissions Office will provide overnight accommodations without charge for the applicant and his or her family.

For more information, call the Admissions Office toll free: 800-464-6565 in Maine, or 800-227-8465 out-of-state. We encourage you to visit our web site at <http://www.mainemaritime.edu>.

MAINE MARITIME ACADEMY
ACADEMIC CALENDAR
2009-2010
