# DEDICATION

The Class of 1977 would like to dedicate the 1977 edition of Trick's End to Miss Eleanor Kelleher for her contributions to the Placement and Cadet Shipping Programs. Without this hard working and efficient lady our Placement Program could never hope to attain the success that it has.

Always friendly and helpful, Miss Kelleher is like a breath of fresh air in an often impersonal environment.

We realize that when weighed against all that she has done for us and our school, this dedication is a small reward indeed. We would hope that she will accept it as a token of our gratitude and love.

To the Class of 1977:

I would like first to thank you and then to congratulate you. I thank you for your spirit of cooperation, your understanding and for the help you have given me during the past year as your Commandant —

I now take great pride in congratulating you on the occasion of your graduation from this Academy. You have worked long and hard to achieve this goal and not always under ideal conditions.

You have followed in the wake of many classes before you and like they — have looked longingly to seaward over an ocean of books, problems, exams, duties, drills, etc. You have had what it takes however, you steered your course well and now, already others follow in your wake as the class of 1977 takes its honored position among the graduates of this Academy.

You have reached your objective and now you are equipped with three of the greatest possessions a person may ask for ... knowledge, confidence and youth. Use them well, for with this combination the world is yours and only you can stand in your way.

I wish you every success, all happiness and Godspeed in all your endeavors. Stand tall; look smart!

Respectfully,

William F. Brennan

# GOD

After 25 years of service all I get is a dam camera ... "I've been hosed"

In the beginning, Captain Terry created the heaven the the earth.  
 And the earth was without form: and darkness was upon the face of the deep. And the spirit of Captain Terry moved upon the face of the waters.  
 And Captain Terry said, let there be navigation, and there was navigation, and he saw that it was good.  
 And Captain Terry said, let there be a firmament in the midst of the waters, and Captain Terry made the firmament, and he called the firmament the "Bridge"  
 And Captain Terry said, let the waters under the Bridge be gathered unto one place, and let dry land appear on charts: and it was so.  
 And Captain Terry called the dry land earth, and he called the gathering of the waters seas, and he saw that it was good.  
 And above the Bridge Captain Terry created the heavens, with umpty-ump number of stars and planets, and he even created a moon, which although being lousey for navigation, was one hell of a help in creating the tides.  
 And it came to pass that Captain Terry created the "Deccer" and the "Omeeger", and transmitting stations popped up all over the earth, and he saw that they were pretty good.  
 And Captain Terry said, let the earth bring forth the living beast and the creature and things that crawl, so Captain Terry created the ordinary Seaman, the A.B., and the Engineer, and he saw that they'd just have to do.  
 And Captain Terry said, let us make mates almost in my image, and let them have dominion over the sextants, the Deccers & Omeegers, all except the Radar, which nobody touches but me.

Thanks to my parents for provid-  
 ing the light at the end of the tun-  
 nel.

Putting on the uniform is the be-  
 ginning of servitude and the ending  
 of a private dream.

After the bare requisites to living and reproducing,  
 man wants most to leave some record of himself, a  
 proof, perhaps, that he has really existed. He leaves his  
 proof on wood, on stone, or on the lives of other  
 people. This deep desire exists in everyone, from the  
 boy who writes dirty words in a public toilet to the  
 Buddha who etches his image in the race mind. Life is  
 so unreal. I think that we seriously doubt that we exist  
 and go about trying to prove that we do.

I guess none of us are ever perfect and I of course am no exception to that. I had you appear before me the other day at Mast and I was under the impression that you were three days AOL from summer leave and I had come to that conclusion as I mis read the report slip. I went back and checked the log after this was brought to my attention by CWO Marxolf and I have dropped all charges, punishments etc on you and apoligize to you for the inconvenience and possilbe embarrassment it might have caused you.

#### TO MY COMMISSION GIVERS

After spending the four years of my life that are supposedly the 'best' years of your life here at MMA, I feel I have gained nothing more than a lot of unnecessary bitterness and negative feelings.

The discipline game, for example, is bizarre. In most cases, people don't continue their education unless it is for their benefit. To study, to gain training for a position in life after school, and to gain experience — be it academic or non-academic. But . . . Maine Maritime's big shots don't even allow the student a chance to survive in a normal manner. Be in bed by 11:00, morning formation at 7:30, sign in, sign out, etc. (We all know what the rulebook says.) Everyone needs an out at one time or another but there are so many ridiculous rules and regulations that in order to express the need for the 'out' a student takes the chance of being 'caught' and undergoing cruel and totally unrealistic treatment. This seems to be their idea of teaching us a lesson.

What I'm trying to say is that years ago this type of discipline could be administered and abided by. It was a common thing. However, this **is** the 1970's and people **cannot** subject themselves to this type of environment and not be able to rebel (in the calmest of rebellions), should the need arise. Frustration sets in and it turns out that **everyone** breaks the rules **all** of the time and there is so much unnecessary frustration that when it gets dark, the last thing these students do is study. This is the result of old-fashioned discipline.

Of course, I realize that to avoid punishment I can kiss someone's ass. For example, as freshmen do to sophmores, sophmores do to juniors, juniors do to seniors, seniors do to CWOs, and CWOs do to Commanders and of course everyone does to DEAR OL' DAD, who probably is demanding all of this for some personal high. I find this way of behavior being rather distasteful.

I just want to say 'adios' to 'these' people. You punished me over and over and what did I get from it? Absolutely nothing, except that I still have my ideas and my thoughts (one of which is that I'm glad I'M not as narrow-minded as you people). I have spent my four years here to prove to my country and family that I could put up with anything. **And**, when I finally realized what was going on here, it was too late to turn back. Believe me, I know I could have gotten this knowledge any place else for a lot less time, a lot less money, and most of all, a lot less hassle. There you have it . . . "Oh Captain, My Captain . . ."

## The Maine difference.

Pride, ingenuity, love of the outdoors, independence. All part of the Maine difference.

We know the Maine difference because we know the needs, the problems, the unique way of living that makes Downeasters very special people. And the ingenuity, resourcefulness and pride we take in our banking services make us the Maine difference in banking.

# People power.

United States Lines has the most modern equipment and facilities to help you move the goods: new terminals, fast ships, standard and specialized containers, wheeled chassis, electronic communications and computerized controls. But our real strength is our people afloat and ashore, the thousands of dedicated men and women behind the machines. They're the best in the business and they make it all happen — smoothly, economically, dependably.

It all adds up to Service with a capital S: Our Tri-Continent Container Service that saves you time and money on shipments to and from anywhere in Europe; the U.S. East and West Coasts; Panama; Hawaii; Guam and the Far East.

Plug yourself into our people power. Call your nearest United States Lines office and ask for a free cost analysis of your shipping needs.

## You'll go places on our new containerships.

Find a growing company, and you'll have found a growing opportunity. That's Farrell Lines. One of the oldest, most stable shipping companies, Farrell is also one of the most progressive. With an exciting career opportunity for you.

Farrell has long been a leader in the trade from the East and Gulf Coast to Africa and Australia/New Zealand. Now, our operation also includes the Pacific Coast to South Pacific and Australasia route.

In short, Farrell is the kind of company that can offer you a most rewarding career as a seaman. We offer the most interesting and exotic routes, the newest equipment, and a tradition of growth and stability.

What's more, Farrell is an American flag line. This means that our ships are American built and supplied; our crews are American and they're paid in dollars.

If you're thinking ahead, think about Farrell. We can offer you quite a future. For more information, write us. Farrell Lines. One Whitehall Street, New York, New York 10004.
