MAINE MARITIME ACADEMY
CASTINE, MAINE 04420

13 April 1986

To the Class of 1986:

Congratulations on your graduation. You have successfully met the challenges of our nation's foremost college for the education of maritime officers, and I salute you.

As you leave Castine, you face a great new challenge: To translate your knowledge and skills into a renewal and uplifting of our American merchant marine, an industry which must truly be strengthened in order to protect the well-being of our island nation.

I feel a special bond with this graduating class. We have sailed the Atlantic together, where we shared not only a lot of hard work, but the beauty of the ocean and the thrill of foreign travel. Memories forged aboard ship are not easily forgotten and I assure you that the Class of '86 will remain in my thoughts.

During the course of your careers, you will rise to positions of great responsibility, some of you in world commerce, some in the armed forces, and others in a variety of private sector companies. Whatever your destination, your Academy has done its best to prepare you for the exciting years that lie ahead.

We wish you Godspeed!

Sincerely,

S. A. SWARZTRAUBER

OFFICE OF THE COMMANDANT OF MIDSHIPMEN

25 April 1986

TO THE CLASS OF 1986:

As we both celebrate the successful completion of our four years at Maine Maritime Academy, I want to wish you the best of luck, and extend my sincere congratulations. Your class has set new standards in attitude, pride and commitment. Certainly the extended graduation weekend, and the splendid commencement exercises were testament to your uniqueness.

In looking back, there will be many things you'll wish you'd done differently, but none you can change. What is important is that you developed and matured, and in that process became sensitive to the many challenges that will test your value system and sense of personal accountability. Now as never before, the work place will demand that your trustworthiness and standards be congruent with those of your profession, and this will be the fundamental key to your future success.

Best of luck and keep in touch.

Warm regards,

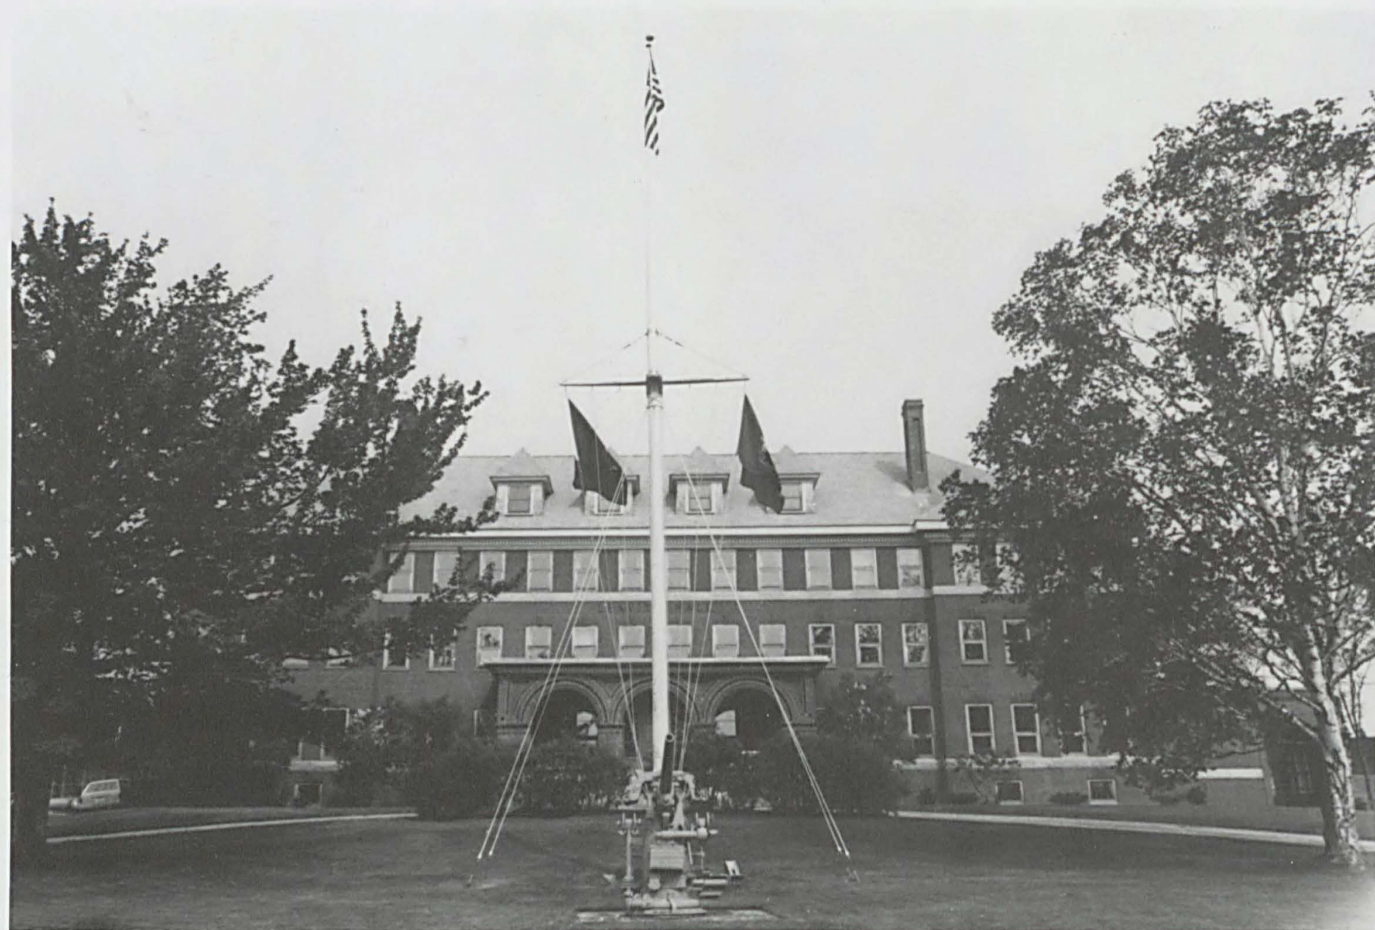

S. M. EDWARDS

Not just a car!

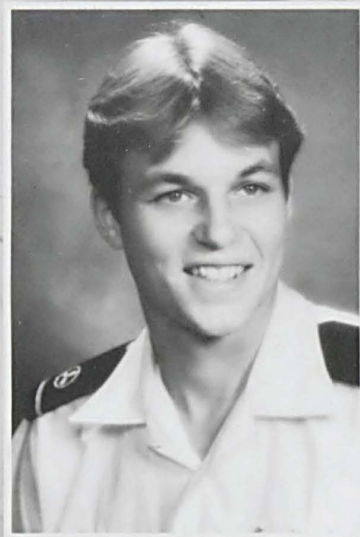

During the week we play sports, go to class, and wear uniforms, but the weekends were up for grabs. The best part about coming to this place was leaving, and the more we left, the better it got. It didn't matter where we went, but who we went with. Whether it was Sugarloaf, Killington, Burlington or Boston, we had a blast. We made a lot of friends, and with them, gained new families. That's what we'll remember about Maine Maritime Academy.

How strange is the lot of us mortals! Each of us is here for a brief sojourn, for what purpose he knows not, though he sometimes thinks he senses it. But without deeper reflection one knows from daily life that one exists for other people — first of all for those upon whose smiles and well-being our own happiness is wholly dependent and then for the many, unknown to us, to whose destinies we are bound by the ties of sympathy. A hundred times every day I remind myself that my inner and outer life are based on the labors of other men, living and dead, and that I must exert myself in order to give in the same measure as I have received and am still receiving . . .

It's been a difficult four years as you all know, especially for some of us! For all of us graduating is a happy time, but one sometimes can look back for a moment and feel very disappointed in themselves knowing they could have done so much better than what they did and leave a better mark, but the Academy left me with the biggest lesson they could have. They taught me to be a true survivor and to never give up. I will hold on to that gift forever and make the best of my total experience at the Academy. I would like to dedicate this page to my family, friends and Academy who made it all possible. Thank you for the memories, great times and all your support. God bless and best of luck.

Sincerely,

this must be the place (naive melody)

home is where I want to be
pick me up and turn me round
I feel numb born with a weak heart
(so I) guess I must be having fun
the less we say about it the better
make it up as we go along
feet on the ground
head in the sky
it's ok I know nothing's wrong . . . nothing

hi yo i got plenty of time
hi yo you got light in your eyes
and you're standing here beside me
i love the passing of time
never for money
always for love
cover up and say goodnight . . . say goodnight

home — is where i want to be
but i guess i'm already there
i come home — she lifted up her wings
guess that this must be the place
i can't tell one from another
did i find you or you find me?
there was a time
before we were born
if someone asks, this is where i'll be — where i'll be

hi yo we drift in and out
hi yo sing into my mouth
out of all those kinds of people
you got a face with a view
i'm just an animal looking for a home
share the same space for a minute or two
and you love me till my heart stops
love me till i'm dead
eyes that light up, eyes look through you
cover up the blank spots
hit me on the head ah ooh —.

Dan
at his best!

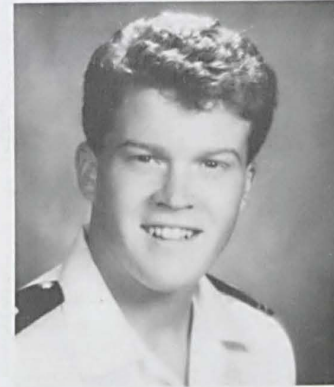

Daniel E. Whyte

I could not have wished for a better family. I've not said "I love you" nearly enough.

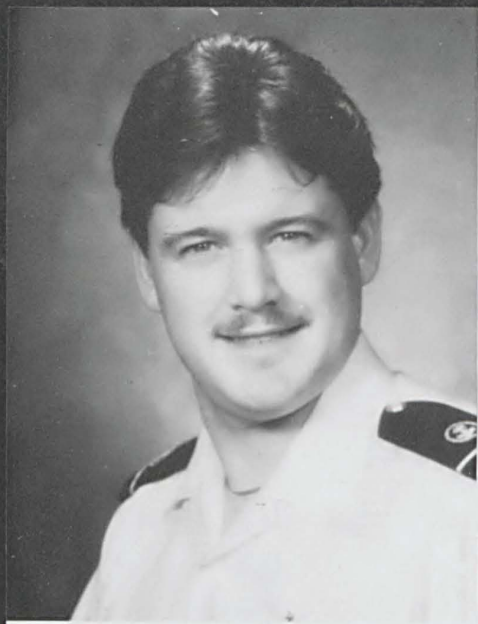

M. Whyte

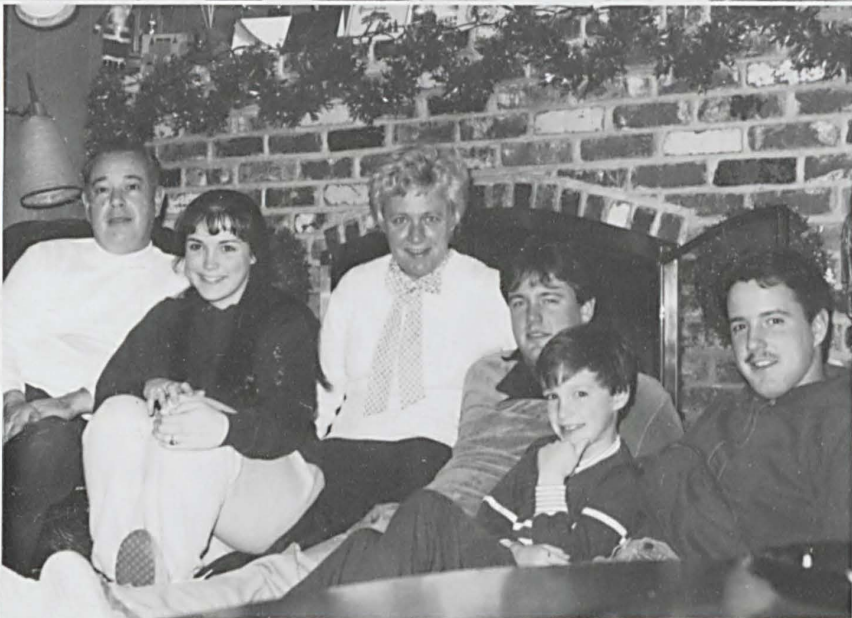

Thank you Mom.

They say it's mostly vanity
That writes the plays we act
They tell me that's what everybody knows
There's no such thing as sanity
And that's the sanest fact
That's the way the story goes

The honor spot goes to my parents, for without them I wouldn't even have had a page in this yearbook. Your love and support has helped me thru four of the hardest years of my life. There are no other parents who are as loving or as giving as you. I hope I make you as proud of me as I am of you. I love you.

No matter what happens Fran, I'll always be thankful to you for making my last few months the best. I love ya.

Skemp, do you think we should clean the room before Jake gets here?
— Nah!

Thanks Less, you've been a good roommate these past years. Good luck. You're going to need it in the Navy.

I love you Billy.

Mom and Dad, I can't even begin to say
how much I love you both. Without your
love and inspiration I would never of
made it, through college. Thanks for being
there for me.

To the best bunch of friends a guy could ask for. Greg, Rog, Mark, Bro; Thanks for your friendship, and
may it last a lifetime.

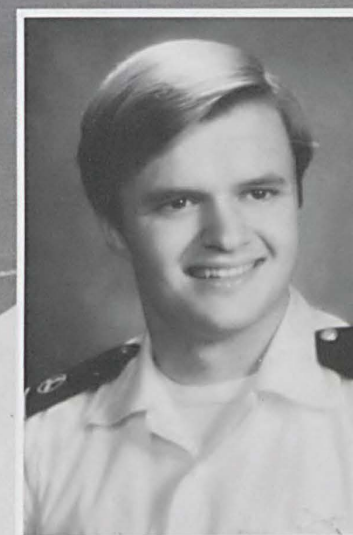

Rog, I love you like a brother buddy.

You too Greg!!

Thanks Linda. You made the last

In that year, colonists built their first ocean-going vessel. Christened the *Virginia of Sagadahock*, it sailed from a little shipyard just twelve miles down river from the present site of the Bath Iron Works.

Since its founding in 1884, Bath Iron Works has added many "firsts" to Maine's catalogue of maritime achievements. And through the years, we've made the hallmark "Bath-built" a synonym for shipbuilding excellence.

In the years to come, we will build ships in Bath and repair others in Portland. And each ship will carry a part of Maine's proud maritime heritage to the oceans of the world. Thanks, Maine, for a great shipbuilding tradition.

*Maine
launched the
U.S. Merchant
Marine
in
1607.*

A history of Bath Iron Works is on exhibit at the Maine Maritime Museum in Bath.
