OFFICE OF THE PRESIDENT

April 30, 1994

TO THE CLASS OF 1994:

Your graduation comes at a time in world history when there is a great need for men and women who are well-educated, flexible, and capable of operating in a complex environment.

The international arena in which you will work has no shortage of problems. Among these are political instability in the Middle East, warring factions in the former Yugoslavia, and economic barriers affecting the United States and some of our most important trading partners. There are many other compelling issues, both at home and abroad, and we will be depending on you to make progress toward solutions.

As you have learned in your classes here and in your internships in industry, today's economic realities require a world view. There is no doubt that you have the skills and the ambition to compete and to thrive in this global marketplace.

The faculty, staff, and alumni of Maine Maritime Academy join me in congratulating you on your graduation. We wish you good health, happiness, and success in all your future endeavors.

Sincerely,

Kenneth M. Curtis
President

MAINE MARITIME ACADEMY
CASTINE, MAINE 04420
207/326-4311

VICE PRESIDENT FOR STUDENT AFFAIRS

May 2, 1992

To the Class of 1994,

As one travels through life, there are several "descriptors" often asked of you to help define you in the eyes of the inquirer. Whether at a social occasions or in a future interview, you will probably be asked where you are from, what you like to do, are you married, and where you went to school.

At those times you often begin to realize just how important these college years were to your personal character, and how much pleasure they did gave you. Rarely again will you have so much unobligated time and boundless energy to do what you want amongst so many friends. The hard times will dim on over the years, but the good ones live on and on. And so it should be.

Hopefully, you will feel great pride and pleasure at saying that you went to Maine Maritime Academy. I certainly say with pride that I taught and worked with the Class of 1994. You have justly earned the right to be called alumni.

Good luck from the Student Affairs staff, and may the waters of your life be calm and the winds of your destiny blow fair.

With congratulations,

A handwritten signature in dark ink, appearing to read "W. B. Eisenhardt".

William B. Eisenhardt
Vice Prersident and Dean of Students

TO THE CLASS OF 1994

Congratulations! You have proved to your most important critic, yourself, that you havewhat it takes to go out there and join your fellow alumni in making a diffrence in this great country of ours.

Over the past years at MMA you have learned and experienced much , but the most imprtant part of your education here should have been internalizing the traditional values of honesty , integrity and commitment. These values are wht will make the diffrence and will see you through your most difficult challenges.

You have given those you leave beyhind a legacy of excellence on which they will build . Now it is time for you to make the same mark in yourrespective careers. I know you will.

LCDR Frost, LT Label, LT Sheridan and Vic Pinkham join me in wishing each of you "Fair Winds And Following Seas".

BRAVO ZULO AND OOH RAH!!!

Vincent H. Corry
Commandant of Midshipman
Maine Maritime Academy

AMY AUTUMN O'BOYLE

Ocean Studies
Class of 1996

September 3, 1974-October 25, 1993

In the fall of 1992 a new face arrived on the MMA campus and was destined to leave a lasting impression . She taught us all a lot about life and how to live it. We learned never to take our friends for granted and live each moment to the fullest.

And so, the class of 1994 dedicates their edition of the Tricks End to our classmate, teammate and friend, Amy O'Boyle. We thank you for all that you gave us while you were here and hope that we can live up to the standards that you set for us.

Souls At Ease

*Falling into what seems like slumber,
I see a beautiful face.*

The breeze blows sweet memories.

I try to smile,

Just for a while

But my muscles weaken more.

Staying in what seems like slumber

I hear a beautiful voice.

And the breeze blows sweet talks.

I try to cry,

Her face passes by,

And I know her souls at ease.

Waiting to leave what seems like slumber

I remember every moment.

And the breeze blows sweet friendship

I let it all go,

Because I feel her for her soul,

And I desperately ask him why.

Leaving what seems like slumber

I see a beautiful person.

That breeze blows e memories

It's time to smile

Just for a While,

My soul is now at ease.

-Stephanie Walsh

SUMMER SAILING

Summer Sailing fell on quite a wind fall this year. Added to it's arsenal was another Debroth make. Madcap's Debut in GOMRA commanded nothing less than it got. A 1st place for the Year. The Other Debroth, Maritime Express, a veteran of the curcit was no slouch following with a 2nd for the year. Unfortunately they were so busy sailing that not many pictures were taken.

Guyia, R. Reed, B. Delbos, D. Conlin, C. Thurlow, B.C. Voyou, M. St. Cyr, J. Cunningham, C. Dube, Coach Ashby

Thanks to the superb leading ability of T. Lehigh as Captain and sweeper along with the hardnosed working style of Bill Ashby the MMA soccer team was able to knock out an impressive record of 12-7-1 to finish off the season. Not bad for a young team such as the Mariners with a starting line up consistantly of 5 3/c, 3 4/c, 2 2/c and only 1 senior. Paul Kenney at center did an excellent job of instigating the plays that continually supplied the forward, John Harvey and B.C. Voyou, with golden opportunities that usually ended up with the ball buried in the opponents net. B.C. Voyou with his Magic footwork set the record for most goals scored in a season. To back up the offense Nate Cook and Tucker Lehigh created the ironclad defense that made Brendan Delboss' job as keeper a little bit easier. The Mariners goals are set high for next season having had the chance to get comfortable with the different styles of play, and each other. Bill Ashby, Nate Cook (New Captain) and the raw talent of the players, the prospects for the future are limitless.

Or it's like this: You *do* know what a quark is . You can answer the phone. It is and attractive person you have recently met. How are you? How are you? The person is calling to wonder if you feel like seeing a movie both of you missed the first time around. It's *The year of living dangerously*, with Mel Gibson and that actress. Also , that very shot actress. "Plus" the person says, "It's set in Indonesia, which is next to India, is probably the most interesting of the third world nations. It's like the political scientists say. The labyrinth that is India, the mosaic that is Indonesia' Right?" Silence at your end of the phone. Clearly this person is in to overkill, but that doesn't mean you don't have to say something back. India you could find. but Indonesia? Fortunately, you have cable and a Stouffer's lasagna in the freezer.

Thank you Mom, Dad, Pete, Deb, and Kath. I couldn't have done this without your support. I love you.

-Joseph Conrad

There are so many people I have to thank for this accomplishment; my friends for staying in touch and making me do things I probably wouldn't do on my own; my family for being there through it all, and most of all Beth. Words can't express everything you mean to me. Your patience, love and friendship have given me the strength and perseverance to make this dream possible. I can't wait to start spending the rest of my life with you! Congratulations class of '94, remember college should be fun! -"Lord Jim"

I want to most of all thank my parents for helping me along the past five years. I wouldn't have made it without their love and support. When I was heading in the wrong direction, they gave me a second chance and helped be along in another which made all the difference in the world. the years at the academy have been a great learning experience. I not only will leave this school with a degree I leave with a class full of great friends I toughed it out with for years. My friends here are like no others and I hope to keep in touch with them in years to come. Good Luck to all.

Athough we are still young, and life may seem long, we should live each day to the fullest, for one day we may wake up to find that ten years have got behind us and too much time was wasted waiting for someone to show up the way.

To the many friens I've made at MMA- I hope we always keep in touch and remember all the good times we've had together.
C'mon now guys!

At this time I would like to thank my family and friends, without whom I wouldn't be who I am today. The wealth of support, love and understanding that you have given me has been immeasurable and has allowed me to follow my dreams, all over the world.

" The lord had a job for me , but I had so much to do . I said , " You get somebody else, or wait till I get through." I don't know how the lord came out, but he seemed to get along. But I felt kind of sneakin' like, knowed I'd done God wrong. One day I needed the Lord, needed him right away. But he never answered me at all, I could only hear him say , down in my accusin' heart: 'Brother I'se got so much to do. You get somebody else or wait till I get through" Now, when the Lord, he have a job for me, I never tries to shirk. I drops whatever I have on hand , and does the good Lord's work. and my affairs can run along , or wait till I get through. Nobody else can do the work that God marked for you." - Paul Lawrence Dunbar

Quote: " One of the joys of travel is visiting new towns and meeting new people."

- G. Khan

College has been the quickest four years of my life and my father was right in saying, " It'll be over before you know it." He along with my sister and my aunt Claire have been the the three most influential and supportive people these past four years. I would like to thank them and all the people who have helped me to achieve the goal I set out for.

One of the greatest aspects of college is the number of people you meet and the friends you make. If anything , I learned that when you have a group of students driving towards a common goal an lot of bonds make. Bonds of friendship that will last a lifetime. I can't count eh number of friends I've made and I know that I couldn't thank them all personally for all the good times and classic moments. So, here is a common thank you and good luck to everyone I know. I wish you all the best of the future and hope you achieve all that you aspire.

On a final note, I have to say that this has been the greatest experience of my life. I've learned so much and yet know nothing. The world is a big place and after completing these four years I can picture myself anywhere in it.

Thank you Bonnie & Forrest
I Love you.

Thanks to all the teachers-

Now that the end of a long & somewhat difficult four years has finally reached us, somehow I find myself looking back for a moment & feel very disappointed, knowing I could have done so much more than I did & left a better mark for myself & for the school. The Academy left me with the biggest lesson they could have. They taught me to be a true survivor & to persevere through all the hardships that you are faced with because it's truly worth it in the end. I will remember & hold this gift forever. Many thanks to all my family & friends for their continuous love & support but especially to those special friends who helped me rediscover my "roots & wings" that will guide me with strength & courage to fly away.

And lastly to my classmates; Navigators & Engineers alike:

"As you chart your course & follow the stars to your success, may you never lack fair skies, smooth sailing, sunny days, & may the wind always be at your back!"
-A. Stewart

LEE VINCENT KENNETH STUART

MARINE TRANSPORTATION

"Stu, Leeeee....., Elroy"

You know a dream is like a river ever changing as it flows and a dreamer's just a vessel that must follow where it goes trying to learn where it goes trying to learn from what's behind you and never knowing what's in store makes each day a constant battle just to stay between the shores and I will sail my vessel 'til the river runs dry like a bird upon the wind these waters are my sky I'll never reach my destination if I never try So I will sail my vessel 'til the river runs dry. To many times we stand aside and let the waters slip away 'til we put off 'til tomorrow has now become today so don't you sit upon the shoreline and say your satisfied choose to chance the rapids and dare to dance the dance the tide there's bound to be rough waters and I know I'll take some falls But with the Good Lord as my captain I can make it through them all!

- Garth Brooks

Good luck class of '94! I'm out of here! Mom, Junior, Dad and family thank you for everything, I love you all!!
