OFFICE OF THE PRESIDENT

MAINE MARITIME ACADEMY  
CASTINE, MAINE 04420

May 6, 1995

TO THE CLASS OF 1995:

This date marks one of the most important moments in your lives. A great investment of time, effort, and money is today publicly recognized with the granting of your baccalaureate degree.

In choosing Maine Maritime Academy, you demonstrated a willingness to undertake a demanding course of study. Many of our requirements go well beyond those of other colleges. Morning colors and maintenance, co-op internships and cadet shipping—these and countless other obligations have been a part of your world for the past few years. In return for your commitment, you have received unusual support — instruction from a dedicated faculty, superb facilities for learning, and opportunities for travel and practical training.

Over the past twenty-five years, I have seen hundreds of our graduates leave this institution for careers of personal success and service to society. Those who graduated during my first years at Maine Maritime now hold positions as masters, chief engineers, attorneys, and corporate presidents. I am certain that similar accomplishments are in store for members of the Class of 1995.

May the years to come be filled with prosperity, achievement, and service to others. Come back to see us often.

Best regards,

*Leonard H. Tyler*

May 6, 1995

To the Class of 1995,

As one travels through life, there are several “descriptors” often asked of you to help define you in the eyes of the inquirer. Whether at social occasions or in a future interview, you will probably be asked where you are from, what you like to do, are you married and... where you went to school.

At those times you often begin to realize just how important these college years were to your personal development, and how much pleasure they gave you. Rarely again will you have so much unobligated time and boundless energy to do what you want amongst so many friends. The hard times will dim on over the years, but the good ones live on and on. And so it should be.

Hopefully, you will feel great pride and pleasure at saying that you went to Maine Maritime Academy. I certainly say with pride that I taught and worked with the Class of 1995. You have justly earned the right to be called alumni.

Good luck from the Student Affairs staff, and may the waters of your life be calm and the winds of your destiny blow fair.

With congratulations,

*William B. Eisenhardt*

*To The Class of 1995*

*It has been an honor and pleasure to serve as your Captain on the Training Vessel State of Maine, most recently highlighted by our cruise to the 50th Anniversary of D-Day in Europe. Your diligence, hard work and determination were most instrumental to the success of that venture.*

*You are about to embark on a challenging, exciting and rewarding career at sea. The education that you have received at MMA will bode you well but stay aware that you will be faced with new methods and technologies.*

*The sea is a hard taskmaster so be alert, attentive and respectful of it's everchanging conditions.*

*Best wishes for a great future,*

  
G.A. Cummings, Capt. U.S.M.S.  
Master, T.V. State of Maine

OFFICE OF THE COMMANDANT OF MIDSHIPMEN

**TO THE CLASS OF 1995:**

*Congratulations on this special achievement in your lives. Your voyage to graduation aboard "T/V MMA" has been long and at times stormy, but during it all you worked hard and persevered. You have learned much, but above all you have learned about yourselves. You are ready now for the voyages that lie ahead.*

*You can get underway from here with the personal satisfaction that you have made your Alma Mater a better place for those who will follow. The Regiment is stronger than ever, and you have set it on a course that will put it in the vanguard of the quality movement which is sweeping across the international arena. You have done well!*

*LCDR Frost, LT Lebel, LT Henderson, LT Sheridan and Vic Pinkham join me in wishing each of you success and happiness as you embark on your new careers. May you have fair winds and following seas!*

# NORMANDY

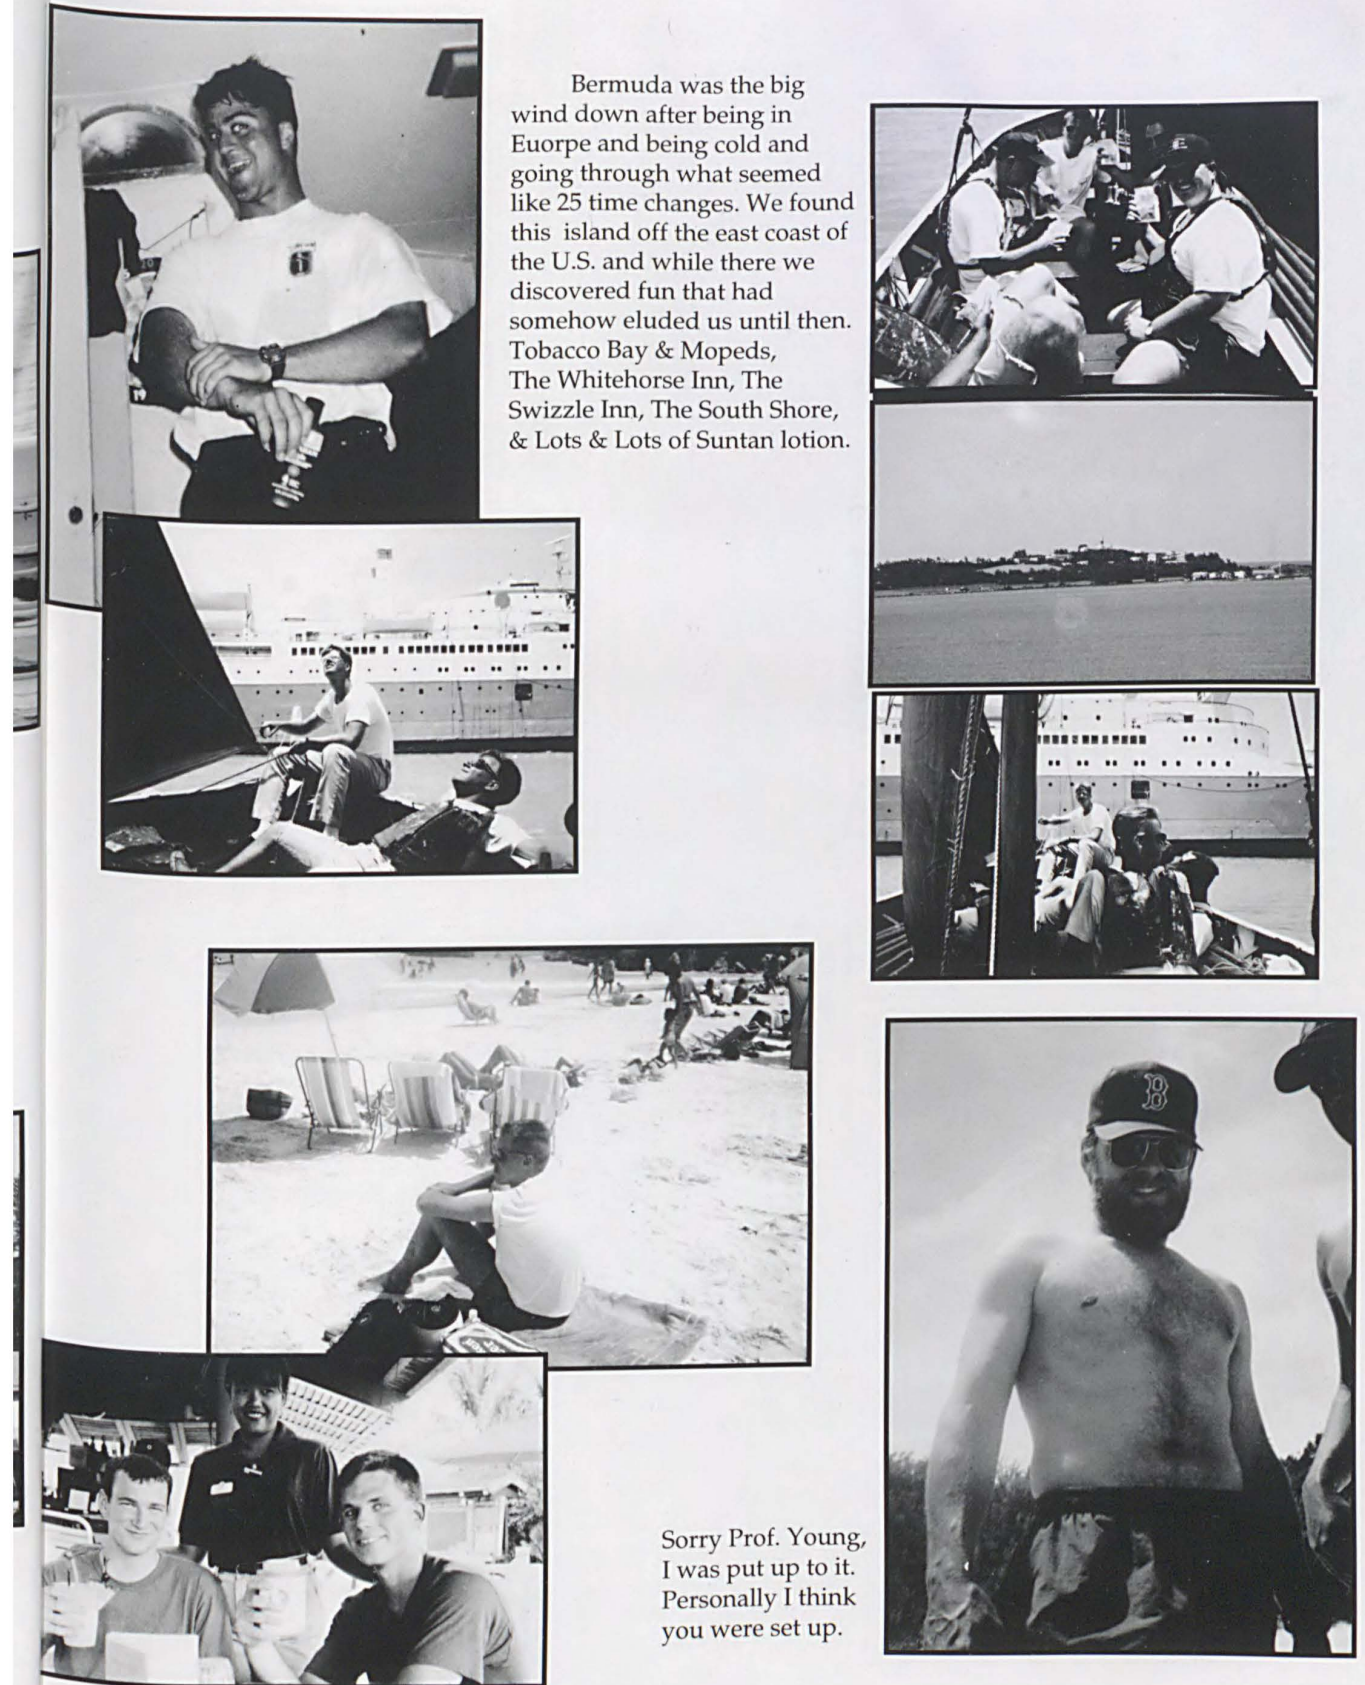

The Real memorable part of our 1994 summer cruise was the exposure the school got during the D-Day re-enactment. Just to be where the world was focusing it's attention at that time. The News reporters were paying the attention to the men jumping out of airplanes but the brunt of men who went ashore during D-Day was over the beach from the waters pictured here. And the day proved to be much the same as the one fifty years earlier. It was a cold and rainy day. The fog was just thick enough so you could see the beach now and then. It was amazing. In years to come when the midshipman aboard continue with their lives and look back and they talk about the reenactment of D-Day they will know how it was. And It was chilling.

# BERMUDA

Bermuda was the big wind down after being in Europe and being cold and going through what seemed like 25 time changes. We found this island off the east coast of the U.S. and while there we discovered fun that had somehow eluded us until then. Tobacco Bay & Mopeds, The Whitehorse Inn, The Swizzle Inn, The South Shore, & Lots & Lots of Suntan lotion.

Sorry Prof. Young, I was put up to it. Personally I think you were set up.

The 1994 Maine Maritime Mariners hosted the best season ever in MMA history, Playing against the strongest competition ever assembled on a Maine Maritime Schedule. The team scored 49 goals, the highest by any team in the state, and cut down their goals against by 25 from last year. This is an outstanding achievement.

The seemingly unstoppable offensive attack was lead by Senior John Harvey, Senior Ben Strunk, Junior B.C. Voyou, Junior Garrett Lappin, Junior Paul Kenney, Sophomore James Cunningham, Freshman Shawn Weed and Freshman Skip Mendenhall.

the high intensity defensive unit of the Mariners was lead by senior Chad Wozinak, Junior Ryan Reed, Sophomore Seth Brown, Freshman Mark Tibodeau in goal, and anchored by junior captain Nath Cook.

The 1994 Mariners were as strong as any team in the state, but failed in receiving a very political oriented ECAC play-off bid. To try and establish a foothold in the ECAC the Mariners will compile a stronger schedule for the 1995 season, and hope for the best.

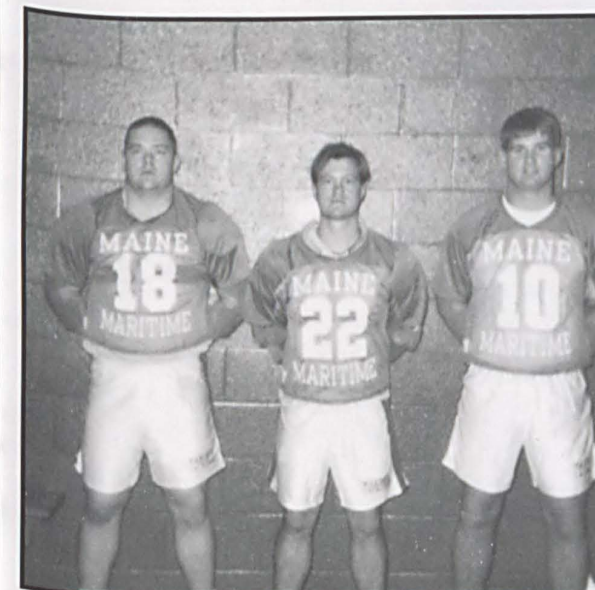

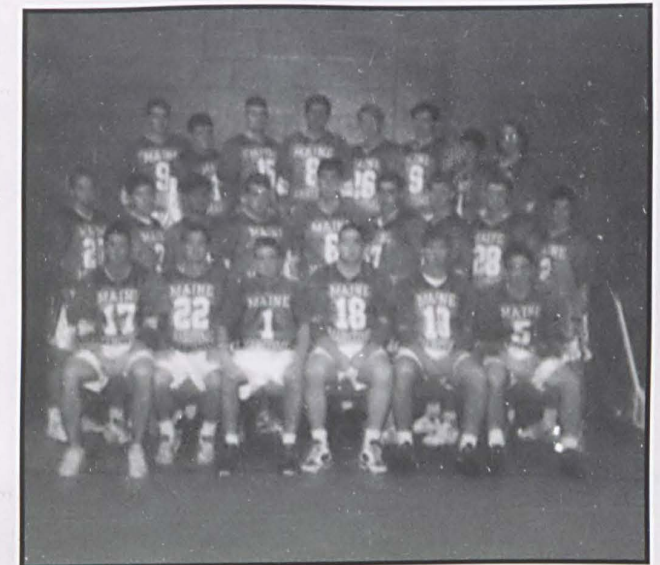

We would like to wish the best of luck to our three departing seniors Ben, John, and Chad. All of us on the team thank you for your contributions to the team and to the MMA soccer program.

Maine Maritime Football lead this year by Head coach Mike Hodgson managed to capture another NEFC Championship. They ended their season with a record of 14-3-0. The team reached such ECAC milestones as Most Rushing touchdowns in a season: 25 by Rob Marchitello.. The entire team displayed outstanding resolve and discipline. Other standouts for the 94 season included Jeff Houghton, Dennis Damon, & Eric Cote. Congratulations on an outstanding performance this year and we all look forward to another thrilling sequel next season.

In these 4 short years  
I have sailed amidst the gales,  
Climbed foreign heights,  
Made Friendships to envy,  
And lost friends too early.  
I have thrilled in the present  
And been humbled by History.  
Now I face my greatest challenge  
for today I start my future.

Quote:

It is an ancient Mariner,  
And he stoppeth one of three.  
"By thy long gray beard and glittering eye,  
Now wherefore stopp'st thou me?"

He holds him with skinny hand,  
"There was a ship," quoth he.  
"Hold off! unhand me, grey-beard loon!"  
Eftsoons his hand dropt he.

"The Bridegroom's doors are opened wide,  
And I am next of kin;  
The guests are met, the feast is set:  
May'st hear the merry din."

He holds him with glittering eye-  
the wedding-guest sat on a stone:  
He cannot chose but hear:  
And thus spake on the ancient man,  
The bright-eyed Mariner.

From *The Rime of the Ancient Mariner* by Samuel Taylor Coleridge

I want to thank everyone who has helped me get this far in my academic career. Though I don't think I could possibly mention everyone.

Mom and Dad, thank you for all the support you've given me, both emotional and financial. You were always there for when I needed help.

Helen and Todd, thank you for showing me the wiles and ways of college.

Dave, thank you for your comic relief, you can make light of everything.

Thank you to my Drill Team, Sometimes it felt like pulling teeth but I was always proud of you.

And Finally; Amy, thank you for giving me vision to do things just a little different. Thank you for your support even when I hardly had time to give you a kiss good-bye. And lastly, thanks you for giving me an escape, for helping me put aside my problems for awhile to relax.

Just remember guys and gals that no matter how tough things may be, they can get worse. Live by the words CARPE DIEM, seize the day. Live for the moment and suck the marrow out of life. Only you can decide how to live it.  
Live long and prosper,

Four Years of MMA Accomplished

To my Mom and Dad, I thank you very much for all that you've both done for me. Without you helping me along I couldn't have done it. Thanks for being there! Love you both.

Dawn Anne, we've been there and back again, I know we will have the best to look forward to and I will always thank you deep down for being there with me, I love you D.A.C.!

To my second set of parents Norman and Sharon, I can't believe you've put up with me for so long. I'm glad you did. I don't know what I would do without you.

For all those I didn't thank, you're all in my mind and I appreciate All you have done for me.

Love You All, Kirt

### Power Engineering Technology

Today is mine.  
It's unique.  
No one in the world has one exactly like it.  
It holds the sum of all my future potential.  
Carpe' Diem

Thanks to my family and friends for all the love and support that they have given to me; my graduation is the reward for what I have done and how you have believed in me.

Holly never lose the courage to use nail polish.  
Murph and Chad remember that "I have but one claw."

F.M.Y : Because of you I will always remember 3/18 and the difference between sand and gravel, keep away from the pussywillows, Half-pint  
All of my love to David, my best friend in the world. Will we have enough time to recover between our MMA reunions?

P.S. Dad, you still owe me a pair of sneakers

# Trick's End

## The History of the Trick's End-

Back at the turn of the century there were sailing ships that serviced the world over. These ships were manned by crew who were obtained by the captain. Some signed on as cabin boys, some were duped on board to serve the captain until the end of the voyage earning their keep if they lived that long. The end of the voyage was known to these men as "Trick's End".

Later during the world wars to follow men who served their country for the Navy picked up the terminology and applied it to their deployment. Upon returning to their home base they would call it "Trick's End".

Today the merchant mariner calls his daily watch a "Trick" and at the end of the watch he is at his "Trick's End". This has carried over to the men and women who serve in the State and Federal Maritime Academy systems.

The "Trick's End" Is our yearbook and it traditionally comes to us at the end of our tour of duty. When we leave our station here at MMA we will have reached our "Tricks End". So to the men and women who have survived the long years that have preceded this congratulations and best of luck.
