Trick's End 2001 Maine Maritime Academy

This Yearbook is Proudly Dedicated To:

Gail
Rumney

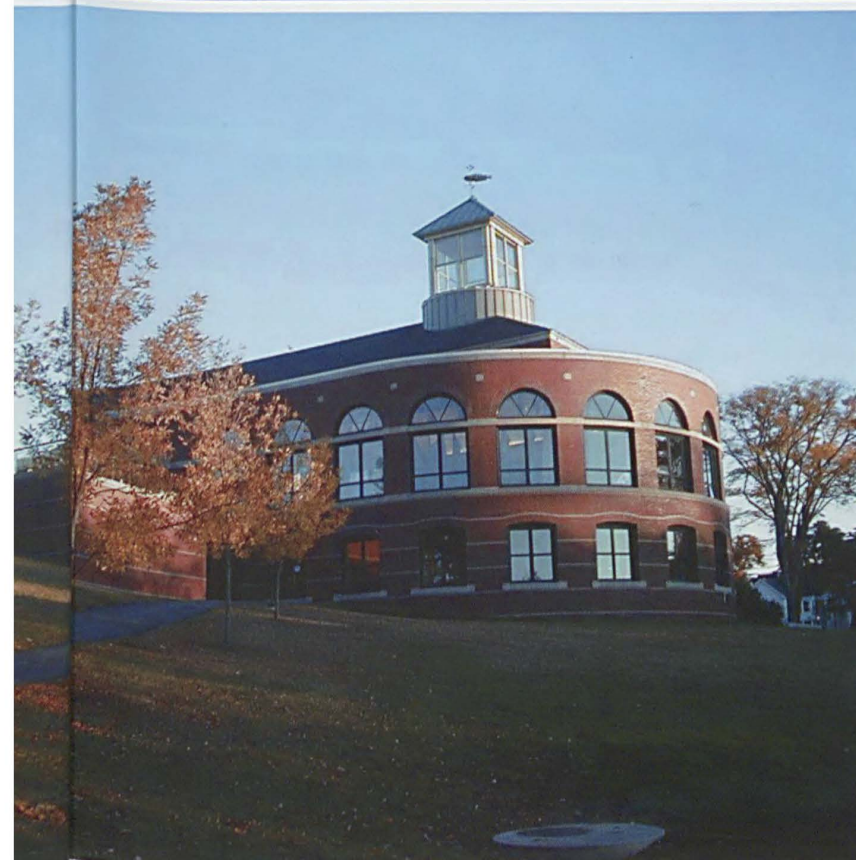

You were always there for us at lunch to brighten up our day no matter how bad it was. You treated the students with the utmost respect and received it from the students. You were always there for people who needed to talk or blow off steam. You were "Cruise Mom" to a hundred freshmen and stayed cheery and upbeat all 60 days. You even found the time to fold all our undies when you did the laundry! It was a shock to not see you here when we came back from summer break, and going to lunch hasn't been the same since. Best of luck in your future endeavors. Thank you for being such a wonderful person; we will surely miss you.

TO THE CLASS OF 2001 ~

Congratulations to the men and women of the Class of 2001!

2001 marks a special and important year for you. As you leave Maine Maritime, you can be proud to be part of an institution that has sent over 6,000 graduates, such as yourselves, into the world, armed with a different kind of 'hands-on' education that will set you apart from others.

In choosing to come to MMA, you faced both challenges and opportunities found at few other colleges. Early mornings and late evenings fulfilling the requirements of a regimental lifestyle, often cold and damp excursions aboard research vessels, and summer co-ops - all part of an academically demanding schedule. In return for your commitment, you have had unusual opportunities - visiting foreign countries, utilizing state-of-the-art technology and facilities, and industrial experience as an undergraduate.

You have received a unique education, with exceptional teaching by a dedicated faculty and supportive staff. With your knowledge and skills, you will go far, and the friendships you have made on campus and in the community of Castine, will be with you always.

Maine Maritime's size and small coastal town surroundings, unlike larger colleges, has the advantage of a closer, more personalized student body. For this, I have had the fortune of knowing many of you, and it is with much pleasure and pride that I welcome you to the ranks of our alumni.

The faculty, staff, and trustees join me in wishing you happiness and success in all your endeavors.

Sincerely,

Leonard Tyler

Commandant's Letter

To the Class of 2001:

Congratulations Class of 2001! As the first graduating class of the new millennium, you will always be a unique class, and I will always remember your class as the first with which I had the pleasure of working.

You chose a unique and challenging road on the way to earning your college degree. Having completed that road, you should feel great pride in your accomplishment. The level of professionalism you have achieved is rarely matched and will set you apart from your contemporaries across the nation. This does not mean you are better than they are, but you can feel certain that you are better prepared. So whatever you do from here, do it with honor and an effort equal to or better than what you have put forth here at Maine Maritime Academy, and I know you will succeed.

It has been an honor working with you. So on behalf of Commander Frost (the "AC") and Lieutenant Victor Pinkham, we wish you all "Godspeed, Fair Winds, and Following Seas"!

Best regards,

Jeff Loustaunau
Commandant of Midshipmen
Maine Maritime Academy

Coached by Fredrick Minson

The Varsity Sailing Team consists of more than forty members, making it the second largest team at MMA next to the football team. The team sails in a variety of boats, including twenty new 420's, sixteen lasers, five shields, and a thirty-eight foot debroth. The team is currently ranked twelfth in New England and competes successfully against schools like Harvard, Boston College, Yale, and MIT. The team also consists of a group of students who spend their summer racing offshore in the Gulf of Maine circuit. Big events this year include Marblehead to Halifax, as well as the Shield's Trophy and McMillan Cup at the United States Naval Academy; where they have proven to be serious competitors. The Women's Team has improved their sailing enormously in this past season by beating four top New England teams in various regattas.

To my family:

It seems like just yesterday, when you brought me to Castine to start this long but worthwhile experience. There have been some hard times. Sometimes I feel like I have missed a lot. However, I have also gained so much. I have visited many places that I never dreamed I would ever see. I met so many great friends along the way. Words cannot express how much your support has helped me and I only hope that some day I can do the same for you. The only other thing I can say is "Thank You!" I love you all very much!

To my friends:

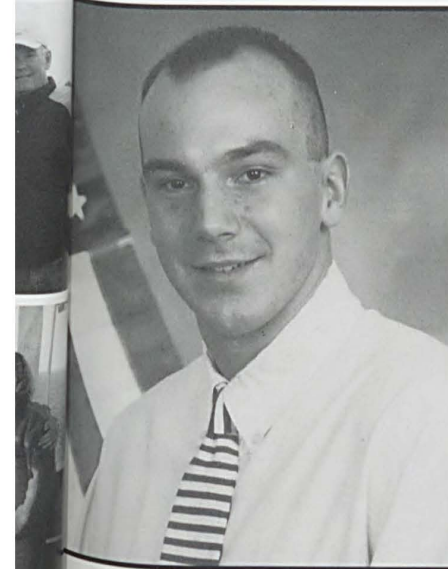

We have seen a lot of exciting places and done some crazy but memorable things. I hope that, though we are all going our separate ways, we can all take time out of our busy lives to come together for a hunting trip or two. Thanks for the memories!

First, I wish to thank my parents and my family for believing and supporting me for the past four years. Without that support, I don't think that I would still be here at this point in my life. So Mom, Dad, Tim, Chris, Shawn, and Todd thank you from the bottom of my heart, and I love all of you. I came here to this Academy a scared teenager with no understanding of the world or the field that I had chosen, and now I leave as an adult not only a scholar but also a gentleman learned in the ways of the world and an engineer. This Academy has not only given me an education, but shaped me into a respectable man. Next, I want to say good luck to all of my friends that I have made here at the Academy, and God speed to all of you, may everyone achieve their dreams. To the "Dream Team", may all of us be beyond our wildest dreams, and always remember "Turn and Burn Baby!!": Frankie Bones, Flood, Pelly, Howard, and who could forget the Mole. Thank you Frank and Chris. I don't think you both know how big of a role you two played in helping me through the past couple of years. You two were there when no one else would listen to my problems. No matter how small or large of a problem you two were there to listen, and give me advice. Thank you. To Monica, I love you and always will love you. You have helped me through the toughest times in my life. You were there to support me when I had a family illness, you were there when I was having tough times, you were my nurse a couple of weeks once, and you were there always. You are the greatest thing to ever happen to me, I love you. Lastly, my brother Todd I want you to know that we're going to fight this thing, and we're going to win no matter how long it takes, I love you Buzz!!!!

To my parents: Without your support there is no way I could have made it through here. You are two of the best people on the face of the earth. As I get older I realize how much you have taught me in every aspect of life. You are the best parents a person could ask for. If I have children someday and I'm half the parent you two were my kids would still turn out to be wonderful children. Dad, everything I've ever done has been for you, and I know that everything you do is for Jon and me. Words can't describe how much this means to me, someday I'll repay you for what you have done for me. Even though we kid about you calling, it only shows how much you care about us. Mom, without you there is no way I could have made it down here, you're one of the only people in the world I can talk to. You are the best listener in the world and are a wonderful person for putting up with Jon and me. How many Mothers still wait up for their children? Hopefully when it is time for me to settle down I can be half as lucky as dad and find someone to raise my children and care as much as you have for Jon and me.

To my Brother: You are my best friend and my only brother. I've made sure to tell the underclassmen to keep an eye on you. I know that you'll keep the tradition of the Magic City boys going and do a great job of it. I'm really proud of how well you are doing in school and how much you've grown up in life the past few years. I know that trouble seems to find you, but try to hide from it. Good Luck

To my friends: I look back on the last four years and wonder had I gone to a different school, would I have close friends like here at MMA? We've had a lot of good times together, and some bad ones, experienced many new things for the first time together, and those are things that I'll never forget. From Flood and me barhopping, Beal's talks about women with me, and my other brother Chris, these have been the best four years of my life. I'm sure we'll stay in touch, but if you need me you know where to find me!

Crossing the Bar

Sunset and evening star,
 And one clear call for me!
 And may there be no moaning of the bar,
 When I put out to sea,
 But such a tide as moving seems asleep,
 Too full for sound or foam,
 When that which drew from out the boundless deep
 Turns again home.
 Twilight and evening bell,
 And after that the dark!
 And may there be no sadness of farewell;
 When I embark;
 For tho' from out our bourne of Time and Place
 The flood may bear me far,
 I hope to see my pilot face to face
 When I have crossed the bar.

Another Blue Hill night with costume fun.

To all the people I have come in contact with over the past 4 years, thanks for the great times whether in the dorm, at the beach, various watering holes, or just down the street. Its been a blast and we may have even learned a few things. Thanks to all my family and friends who made it all possible, without them I don't know where I'd be.

Taking a well-deserved break on the course, and yes I won.

I have so many people to be thankful for, without their help and support I would not have been able to achieve so much in the past 4 years. My family is all very supportive and I thank god every day that I was blessed with them. My parents have been an inspiration and have helped me become a better person, not only in the past 4 years but for my whole life. I have to thank my brother for just being the best brother a guy could ever want. Angela, I love you and whether or not you realize it, you are stuck with me for the rest of your life, thank you for loving me. Last of all, thanks to all of the guys here at MMA, this wouldn't have been nearly as much fun without you.

What can I possibly say? It's been an incredible 4 years-words can't describe it. **To my family** - I love you with all my heart. I thank you all for being there when I needed your support. Mom+Dad- thanks for making me the person I am today. **To all my friends** -We've had a great 4 years together, from the reef to the backshore, even a few adventures to Peaks Island (J.D.'s favorite place). We worked together through whatever life, or our professors threw at us these past years and the reward for our hard work is the degree we now hold. Best of luck classes 2000 and 2001! To my family and friends:

First, to my family, I say "Thank You." I have received more support than I could have possibly imagined. Although I could not visit with all of you as much as I would have liked, you were always there in my heart. When times got rough for me at school, that is usually when you would hear the phone ring. Just hearing your voices helped me get through those days. To Mom and Jim, Dad, Jen, Steve, and Nicole, I love you all very much and that will never change. Second, to my friends, I say "WE DID IT!" We made it through school and we had one hell of a time doing it. Good luck to everybody, I wish you all the best of luck. To the Dream Team, I'll see you all on hunting trip 2001!

I can't list every name and anecdote from five years of living with 800 people, so suffice it to say that any omissions are better off being corrected over a drink somewhere. That way this doesn't have to be a goodbye speech...

Five years is a long time to spend at any place, and I know I would not have made it without the support of my friends and family. I try to count as many people as I can as friends, and so I will not even attempt to list you all. Rest assured that your initials alone would not fit on one page!

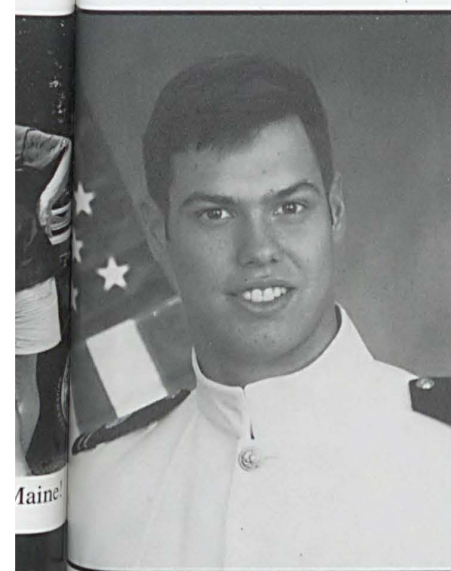

Diana and Martin, you have both been great at keeping me pointed in the right direction, giving advice, listening, and pushing as needed.

Wags, well...we made it. Keep in touch...I'm not sure I feel safe when I don't know what you're up to! Quack!

How do you say he's been the one we've all looked up to, the one we've missed?

How do you show the pride we all feel?

You have come so far and you are only just beginning.

Even though you had a hard time
figuring out what you wanted to
do with your life, God knew all along!

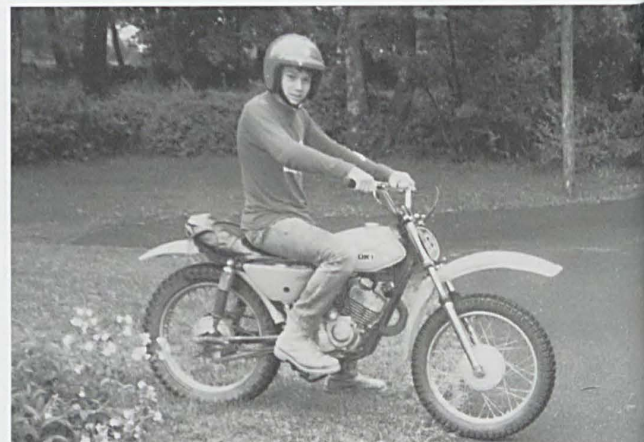

As you go through life with the shores of yesterday at your heels and the horizons
of tomorrow still ahead of you, keep the prestige insists of today alive. Remember
what's important to you always. With the wind at your back and the blue skies
above, move into a life full of adventure and excitement.

The past is important, it brought you where you are today. The present is a gift from
God to unwrap as you see fit. The future is yours to make of it what you will. Go
forward, have fun, live life to it's fullest, enjoy every minute and do what you love

"May you always know the truth, and see the
light surrounding you. And may you stay,
Forever Young!" We are so proud of you!

Love from all of your family

"Our deepest fear is not that we are inadequate. Our deepest fear is that we are powerful beyond measure. It is our light, not our darkness, that frightens us. We ask ourselves, who am I to be brilliant, gorgeous, talented, and fabulous? Actually, who are you not to be? You are a child of God"

~Nelson Mandela~

Good Luck Class of 2001 as you move forward with your lives. May you bring justice, courage, faith, and charity with you wherever you go.

Marine Transportation of
Oil and Chemical Products

At Tidewater Marine, it's sea and be seen.

As the largest owner and operator of vessels for the offshore oil and gas industry, Tidewater enjoys global recognition as the leader in offshore energy transportation. The U.S. Merchant Mariners manning Tidewater's Fleet are the most professional and well-trained Seafarers in the world. From transporting supplies and positioning mobile drilling rigs to assisting in

offshore construction projects, Tidewater's vessels are found in virtually every area of the world where there is significant oil and gas exploration or development. Started more than 40 years ago with a single vessel, today Tidewater commands hundreds of vessels and thousands of employees. Our entire operation has always been based on a commitment to quality; an ethic that commands not only what we do, but how we do it.
